

CATÁLOGO COMPLETO

Repuestos y accesorios

Actualización 07/12/2009

Iré actualizando el catálogo a medida que vaya incluyendo o se vayan descatalogando artículos.

Posibles fallos del catálogo: (estoy en proceso de corrección)

Piezas descatalogadas – En lugar del precio aparecerá la palabra "DISCONTINUED"

Piezas repetidas – Puede que se repitan piezas en alguna sección

Repetición de títulos

Salto de página o fotografías inexistentes

Los precios aparecen en Yenes Japoneses, y no incluyen el precio del transporte ni ningún otro gasto como aduanas, impuestos, etc. Los precios pueden variar según marca y modelo de vehículo. Si estás interesado en un repuesto para un vehículo concreto, manda un e-mail y te daré presupuesto.

Si el precio de un artículo aparece marcado como "*from*", significa que el precio puede no corresponder al artículo completo sino a piezas o accesorios del mismo. Ante cualquier duda, consultar.

El plazo normal de entrega es de 21 a 28 días dependiendo del proceso del pedido en Japón, peso y tamaño del artículo, aduana, etc ..., pero por lo general no excede de ese tiempo. Para ciertos artículos de gran volumen será necesario contratar a una empresa de transporte para la recogida. Esto se avisará a la hora de solicitar presupuesto.

Muchos de los repuestos están basados en la configuración japonesa del vehículo por lo que es posible que haya que realizar algún cambio antes de montar el repuesto o accesorio (Ej: soporte para relojes interiores centrales o en el marco de la luna delantera).

Si alguien está interesado en alguna marca de accesorio o repuesto que no aparece, algún motor, o algún producto descatalogado, por favor que se ponga en contacto conmigo a través del e-mail o del móvil.

Webmaster

Si necesitas cualquier aclaración sobre los contenidos que aparecen en esta web, envía un e-mail a info@japanimport.es, llama al 661.91.33.53 o manda un SMS con tu pregunta y tu dirección de correo electrónico. (No se responderá ninguna pregunta a través de SMS).

from 16,978 Yen

Project Mu - Sports Inner Shoe

The Project Mu Sports Inner Shoe upgrades the hand brake braking shoe for improved hand brake action for drifting and gymkhana events.

from 13,508 Yen

R's Racing Service - RRP Super Brake Pad

The R's Racing Super Brake Pads are designed for street and racing use and offer improved braking feel, braking performance and fade resistance.

from 12,475 Yen

SEI - Brake pads Type Circuit Spec

Designed for sports and Circuit driving for improved braking performance and durability.

33,305 Yen

SEI - Brake pads Type Street Spec

The SEI Type Street Spec brake pads are designed for sports and Circuit driving for improved braking performance and durability.

from 13,877 Yen

Spoon - Brake Pads

Spoon brake pads feature a unique material that prevents resin gas and fading characteristics and able to operate at lower temperatures.

from 20,251 Yen

Suzuki Sport - Type E Brake Pads

The Suzuki Sport Type E brake pads have been designed to provide higher heat range for sports driving whilst not compromising city driving.

9,177 Yen

Suzuki Sport - Type RX Brake Pads

The Suzuki Sport Type RX Brake Pads are the top level pads from Suzuki Sport designed for aggressive circuit use for light vehicles.

from 20,286 Yen

Suzuki Sport - Type-M Brake Pads

The Suzuki Sport Type-M brake pads provided considerably improved brake performance and repeated heavy brake use, preventing brake fade.

24,748 Yen

TRD - Black Series Brake Pads

The TRD Black Series Brake Pads are street designed for high initial bite and direct feeling of the brake pedal, perfect for stop and go traffic.

12,013 Yen

TRD - Red Series Brake Pads

The TRD red series brake pads have been designed for circuit use but with consistent performance under all temperature conditions

18,480 Yen

Trust - Grex - Brake Pads

The Greddy/Grex replacement brake pads enable the replacement of Greddy brake pads in the Greddy 8, 6 and 4 POT brake kits.

23,423 Yen

Brakes - Rotors

Attain - Multi-Hole Rotor Set

The Attain Multi-Hole Rotor Sets enable the easy switching between 4 and 5 bolt hubs.

15,940 Yen

C-One - Slotted Brake Rotor

The C-One slotted brake rotors improve braking effectiveness by cleaning the brake pads during operation.

from 28,876 Yen

DIXCEL - FP Brake Rotor

The Dixcel FP brake rotors have been designed for super endurance events, where durability under severe conditions is essential for success.

35,742 Yen

DIXCEL - FS Brake Rotor

The Dixcel FS Slit Type brake rotors have been designed for super endurance events, where durability under severe conditions is essential for success.

43,470 Yen

DIXCEL - HD Brake Rotor

The Dixcel Type HD brake rotors have been designed for hard circuit driving with heat treatment.

from 21,252 Yen

DIXCEL - HS Brake Rotor

The Dixcel Type HS brake rotors have been designed for hard circuit driving with heat treatment and 6 brake rotor slits.

from 29,440 Yen

DIXCEL - PD Disk Rotor

The Dixcel PD Disk Rotors have been designed for street use, with long lasting durability in mind.

from 12,558 Yen

DIXCEL - SD Brake Rotor

The Dixcel SD brake rotors have been designed to offer increased braking performance.

from 17,480 Yen

Mugen - Brake Rotors

The Mugen brake rotors feature reduced brake fade and improved resistance for increased braking power.

from 25,526 Yen

Mugen - Front Brake Disc Set

Front Brake Disc Set

24,545 Yen

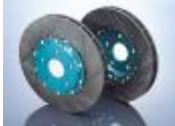

Project Mu - SCR

Project Mu high performance 8 slit sport color brake rotors available for many vehicles.

from 28,369 Yen

Project Mu - SCR - Pro

Project Mu high performance 8 slit 2 Piece Pro sport color brake rotors available for many vehicles and the highest performance.

from 36,377 Yen

Project Mu - SCR - Pure Plus

Project Mu SCR Pure Plus high performance sport color brake rotors available for many vehicles.

from 17,787 Yen

Project Mu - SCR - Pure Plus 6

Project Mu SCR Pure Plus 6 high performance sport color brake rotors available for many vehicles.

21,626 Yen

R's Racing Service - RRP Brake Rotor

The R's Racing Brake Rotors offered improved braking performance and feature high quality construction for increased durability.

from 29,627 Yen

Spoon - Brake Rotors

The Spoon brake rotors are manufactured from a unique metal with carbon content to offer enhanced braking characteristics and superior heat handling.

from 45,747 Yen

Brakes - Upgrade Kits

Acre - Brembo

It is an initial of the three words R of Racing, D of Disc, and D of Development,
400,000 Yen

APP - Brake Caliper Kit 6 Pot

App Introduce its New line up of Complete Braking system
384,993 Yen

Brembo - Gran Turismo

Together with its unique know-how in the manufacturing of braking systems
from 192,343 Yen

HKS - Brake System

The HKS Brake System has been developed to meet HKS' high standards of performance and quality for each specific vehicle and the braking requirements.

from 637,560 Yen

M and M Honda - AP Racing Brake Caliper System

The M and M Honda AP Racing brake caliper system replaces the front calipers on your Honda for a vastly improved braking experience.

from 327,415 Yen

Mugen - Active Gate Brake System Kit

The Mugen Active Gate Brake System Kit enables improved braking force and resistance to fade under high stress and high speed environments.

132,526 Yen

ORC - Brake System - 4Pistons x 4Pads

The ORC 4 Piston brake kit provides a significant upgrade to any standard braking system, offering significant improvement in braking performance.

from 232,155 Yen

ORC - Brake System - 4Pistons x 4Pads Slim

The ORC 4 Piston Slim brake kit provides a significant upgrade to any standard braking system and has been specially developed for compact vehicles.

from 232,155 Yen

ORC - Brake System - 6Pistons x 2Pads

The ORC 6 Piston brake kit is the largest available and offers significant improvement in braking performance and durability in extreme conditions.

from 310,118 Yen

Project Mu - Forged Sports - 4Pistons Slim

The Project Mu 4 Piston Slim calipers have been designed for small to medium size vehicles using 15-16

258,489 Yen

Project Mu - Forged Sports - 4Pistons x 4Pads

The Project Mu Forged Sports Brake Caliper Kit in 4 Piston x 4 Pad provides the finest in upgraded brake kits at an affordable price.

from 276,507 Yen

Project Mu - Forged Sports - 4Pistons x 4Pads S

The Project Mu 4 Pistons x 4 Pads Side B caliper kit converts the hand brake to a use the a pad in the rear caliper.

298,331 Yen

Project Mu - Forged Sports - 4Pistons x 4Pads S

The Project Mu Forged Sports Brake Caliper Kit in 4 Piston x 4 Pad Slim configuration provides a much sleeker size, ensuring less wheel interference.

276,507 Yen

Project Mu - Forged Sports - 6Pistons Slim

The Project Mu Forged Sports 6 Piston Slim brake caliper kit includes a slim line caliper for installation on a range of vehicles and 6 pistons.

362,670 Yen

Project Mu - Racing Caliper - 2Pistons Rear

The Project Mu Racing 2 Piston Rear Calipers have been designed especially to provide balance to the large front caliper kits.

from 184,679 Yen

Project Mu - Racing Caliper - 4Pistons Mini

The Project Mu 4 Pistons Mini kit has been designed for the highest level strength and durability but for smaller Kei car size vehicles.

241,505 Yen

Project Mu - Racing Caliper - 4Pistons x 4Pads

The Project Mu Racing Calipers are designed for regular race use, with high strength body cut from billet aluminium.

from 362,670 Yen

Project Mu - Racing Caliper - 6Pistons

The Project Mu Racing 6 Piston Caliper is the ultimate caliper kit designed for race use and extreme braking conditions.

from 465,927 Yen

Spoon - 355 Brake Kit

The Spoon 355 brake kit offers dramatically increased braking performance, perfect for circuit or high speed continual street use.

445,516 Yen

STI - Brembo Brake Kit

The STI Brembo Brake kit has been developed from the Impreza GDB brake system and replaces all of the critical brake components.

625,433 Yen

TRD - High Performance Brake Kit

The TRD high performance brake kit replaces the standard brake kit with larger calipers, larger rotors, higher performance brake pads and hoses.

203,281 Yen

Trust - Greddy - 6POT Brake System

The Greddy 6 POT Brake System is a significant upgrade to braking performance, designed for high stress circuit level performance.

157,080 Yen

Trust - Grex - Brake System

GREX Brake Systems, manufactured by Trust, are designed as full competition-spec. brake kits suitable for street use and track use.
from 241,441 Yen

Cooling

ARC - Air Removal Tank - Normal Set

The ARC air removal tank normal set removes air from the radiator to improve efficiency and cooling performance.

32,155 Yen

ARC - Air Removal Tank - Side Flow

The ARC side flow air removal tank removes air from the radiator to improve efficiency and cooling performance.

32,155 Yen

ARC - Air Removal Tank - Universal Set

The ARC universal air removal tank removes air from the radiator to improve efficiency and cooling performance.

25,687 Yen

ARC - Cool Fin

The ARC Cool Fin is for cooling efficiency and can reduce heat by 10C.

1,831 Yen

ARC - Engine/AT/Diff/Mission Oil Cooler

The ARC Universal oil cooler can be adapted to engine, transmission, differential cooling and can be seen on many of the highest level competitions.

from 32,341 Yen

Billion - Super Thermo Checker

The Billion Super Thermo Checker can measure the peak temperature of almost anything you can stick it to.

from 1,793 Yen

Billion - VFC - Max

The Billion Variable Fan Controller (VFC) enables control of multiple fans according to the measured temperature.

29,257 Yen

Carbing - Combination Exchange Tank

The Carbing combined exchange tank combines the oil catch tank for reduced space.
40,708 Yen

Garage HRS - Water Temperature Sensor Fitting

The Garage HRS water temperature sensor fitting enables easy installation of the temp sensor without having to cut the radiator piping.
3,437 Yen

HKS - Power Steering Fluid Cooling Unit

Power Steering Fluid Cooling Unit
31,878 Yen

Mugen - Fan Switch

Improve your vehicles cooling performance by operating the fan at a lower peak temperature.
5,739 Yen

Sard - Cooling Spray

The Sard Cooling Spray sprays water onto the radiator or intercooler and can be configured for automatic operation.
22,915 Yen

Sard - Radiator - Breather Tank Kit

The Sard breather tank removes air from the radiator for increased cooling efficiency and performance.
from 1,848 Yen

Spoon - Radiator Stay

The Spoon radiator stay aids in keeping the radiator in place, a replacement for the standard item the Spoon version is 12g compared to 52g.
2,809 Yen

Trust - Greddy - Washer Tank

The Trust Greddy washer bottle can be used when the standard needs to be relocated.
2,830 Yen

Cooling - Cooling Panels
Abflug - Radiator Cooling Plate

The Abflug Radiator Cooling Plate ensures air flow through the radiator whilst improving engine bay appearance.

from 15,853 Yen

ARC - Titanium Radiator Plate

The ARC titanium radiator plate maximises airflow by guiding the air through the radiator for increased cooling performance.

from 11,827 Yen

ASM - Radiator Cooling Panel

The ASM Radiator Cooling Panel features high quality construction and increased cooling performance by forcing air through the radiator.

from 13,098 Yen

C-One - Engine Cooling Panel

The C-One engine cooling panel improves the air flow through the radiator for increased cooling performance during high performance driving.

11,144 Yen

Carbing - Radiator Cooling Plate - Honda

Carbing Honda cooling plates are made from the highest quality aluminum and designed to improve air flow through the radiator.

from 12,869 Yen

Carbing - Radiator Cooling Plate - Mazda

Carbing cooling plates, designed for Mazda's, are made from the highest quality aluminum and designed to improve air flow through the radiator.

12,869 Yen

Carbing - Radiator Cooling Plate - Mitsubishi

Carbing Mitsubishi cooling plates are made from the highest quality aluminum and designed to improve air flow through the radiator.

from 12,869 Yen

Carbing - Radiator Cooling Plate - Nissan

Carbing cooling plates are made from the highest quality aluminum

12,869 Yen

Carbing - Radiator Cooling Plate - Subaru

Carbing cooling plates, designed for Subaru's, are made from the highest quality aluminum and designed to improve air flow through the radiator.

from 10,617 Yen

Carbing - Radiator Cooling Plate - Toyota

Carbing cooling plates, designed for Toyota's, are made from the highest quality aluminum and designed to improve air flow through the radiator.

12,869 Yen

Cusco - Radiator - Cooling Plate

The Cusco radiator cooling plate improves air flow and greater cooling performance.

In Stock and ready to ship!

9,500 Yen

Garage Defend - GT Cooling Panel

The Garage Defend GT Cooling Panel increases cooling efficiency by forcing airflow the radiator whilst maintaining an attractive engine bay appearance

from 23,566 Yen

Garage HRS - Radiator Cooling Panel

The Garage HRS titanium radiator cooling panel increases radiator effectiveness and dresses up the engine bay with high quality finish.

16,288 Yen

HKS Kansai - Carbon Shroud

The HKS Kansai Carbon Shroud dresses up the engine bay with high quality dry carbon construction.

44,352 Yen

J's Racing - Carbon Cooling Plate

The J's Racing carbon cooling plate has been developed to increase air flow through the radiator and intake duct.

from 32,928 Yen

Cooling - Cooling Panels
Mines - Radiator Shroud

The Mines radiator shroud is made of high quality carbon fibre and provide an effective reduction in radiator temperature by about 3 degrees.

from 29,052 Yen

Monster - Radiator Shroud

The carbon fibre look Monster radiator shroud helps to guide air flow for improved cooling performance.

from 10,857 Yen

Prova - Air Intake Guide

The Prova air guide brings more air flow to the original air intake, providing improved breathing, engine response and power.

10,893 Yen

Sun Line Racing - GT Cooling Panel

The Sun Line Racing GT Cooling Panel improves cooling efficiency by ensuring air flows through the radiator and intercooler without escaping.

34,165 Yen

Suzuki Sport - Cooling Ventilator

The Suzuki mesh cooling ventilator increases air flow through the radiator for improved cooling performance.

from 18,113 Yen

Suzuki Sport - Cooling Ventilator - Lower

The Suzuki Sport Cooling lower ventilator covers the radiator air intake with a custom black look offering protection to the radiator.

21,850 Yen

Suzuki Sport - Cooling Ventilator - Sports

The Suzuki Sports cooling ventilator increases air flow through the radiator for improved cooling performance.

18,113 Yen

Suzuki Sport - Sports Radiator Shroud

The Suzuki Sport radiator shroud has been designed in a three dimensional shape for driving airflow through the radiator to increase cooling.

18,354 Yen

Trust - Greddy - Air Diversion Plate

Greddy Trust Air Diversion Plate forces air through your radiator.

from 6,394 Yen

Zele Performance - Carbon Fibre Radiator Shroud

The Zele Performance Carbon Fibre radiator shroud replaces the standard plastic with a high quality carbon fibre item that enhances the look.

49,897 Yen

Cooling - Hoses & Piping
Billion - Super Solid Coolant Line

The Billion super solid coolant line is constructed with a triple layer structure up to 10 times stronger than conventional items.

Special from 11,781 Yen

Blitz - Piping Stopper

The Blitz Piping Stopper ensures intercooler and intake hosts do not separate when under high boost or stressful conditions.

from 8,211 Yen

Carbing - Intercooler Pipe

The Carbing intercooler pipe is a replacement high performance replacement pipe for the standard intercooler pipe.

33,155 Yen

HKS - Intercooler Piping

The HKS piping upgrade kits increase efficiency and performance over the standard intercooler piping kits using steel pipes.

from 2,588 Yen

HKS - Silicon Joint Hose

HKS silicon hose joints are available in varying diameters and lengths for custom intake and intercooler applications.

from 2,260 Yen

Monster - Intercooling Piping Kit

The Monster intake piping kit improves air flow for turbo charged vehicles for improved response and performance.

from 91,245 Yen

Nismo - Intercooler Piping

The Nismo upgraded intercooler piping is suitable for a number of vehicles and includes hoses and clamps with Nismo logos.

65,688 Yen

Samco - Heater Hoses - Skyline - BCNR33 and BNR

The Samco Sport hose kits are designed to replace original equipment for motorsport and fast road use.

25,660 Yen

Samco - Heater Hoses - Skyline - BNR32

Samco heater hoses replace the original hoses with stronger and more durable hoses.

24,754 Yen

Samco - Heater Hoses - Subaru - WRX

Samco heater hoses replace the original hoses with stronger

In Stock and ready to ship!

19,320 Yen

Samco - Hose Kit - R35 GTR

The Samco Hose kit for the R35 GTR replaces the standard hosing with superior heat resistant multiple layer silicone hosing.

from 26,565 Yen

Samco - Radiator Hoses - Honda

Samco Honda Accord radiator hoses replace the original hoses with stronger and more durable hoses.

from 16,808 Yen

Samco - Radiator Hoses - Mazda - RX7

Samco Mazda RX7 radiator hoses replace the original hoses with stronger and more durable hoses.

17,267 Yen

Samco - Radiator Hoses - Silvia - S13

Samco Nissan S13 Silvia radiator hoses replace the original hoses with stronger and more durable hoses.

16,422 Yen

Samco - Radiator Hoses - Silvia - S13 - CA18DET

Samco Nissan Silvia radiator hoses replace the original hoses with stronger and more durable hoses.

18,113 Yen

Samco - Radiator Hoses - Silvia - S14

The Samco Sport S14 kits are designed to replace original equipment in a wide range of performance vehicles, both in motorsport and fast road use.

16,422 Yen

Samco - Radiator Hoses - Silvia S15

The Samco Sport S15 kits are designed to replace original equipment in a wide range of performance vehicles, both in motorsport and fast road use.

17,267 Yen

Samco - Radiator Hoses - Skyline - BNR32

Samco R32 GTR radiator hoses replace the original hoses with stronger and more durable hoses.

17,267 Yen

Samco - Radiator Hoses - Skyline - BNR34

Samco R34 GTR radiator hoses replace the original hoses with stronger and more durable hoses.

17,267 Yen

Samco - Radiator Hoses - Skyline - ECR33

The Samco radiator hoses is a stronger upgrade to the standard hose for motosport and extreme street use.

16,422 Yen

Samco - Radiator Hoses - Skyline - R32

Samco Skyline R32 radiator hoses replace the original hoses with stronger and more durable hoses.

from 16,422 Yen

Samco - Radiator Hoses - Starlet

Samco radiator hoses for the Starlet replace the original hoses with stronger and more durable hoses.

14,732 Yen

Samco - Radiator Hoses - Subaru - WRX GC8

Samco Subaru WRX GC8 radiator hoses replace the original hoses with stronger and more durable hoses.

17,267 Yen

Spoon - Radiator Hose Set

The Spoon radiator hose set offers improved durability for high temperature conditions using the superior SEP version of ethylene propylene rubber.

from 20,790 Yen

Suzuki Sport - Silicone Radiator Hose

The Suzuki Sport silicone rubber hose kit replaces the bottom and top hoses with heatproof and pressure resistance 3 layer silicone rubber.

21,850 Yen

Trust - Greddy - Aluminium Radiator Pipe

The Trust Greddy aluminium radiator pipe is a replacement for the factory rubber pipe.

from 5,256 Yen

Trust - Greddy - Silicon Hose - Blue

Trust Greddy replacement silicon hoses in blue to replace any existing old hoses and dress up your engine bay.

from 970 Yen

Trust - Greddy - Silicon Hose - Blue - Various

Trust Greddy replacement silicon hoses in blue to replace any existing old hoses and dress up your engine bay, available in various widths.

from 1,860 Yen

Cooling - Intercoolers

ARC - Intercooler - Front Mount

ARC Intercoolers are amongst the highest quality available in Japan and anywhere in the world.

from 85,932 Yen

ARC - Intercooler - Standard Position

The ARC standard position intercooler is designed to be installed as a simple replacement for the standard vehicle intercooler

from 90,552 Yen

Blitz - Intercooler CS

Blitz has released for 2009 the new Intercooler CS designed for high performance at a cost effective price.

from 49,025 Yen

HKS - Intercooler Kit - Type R

The Type R HKS intercooler kits offer the ultimate in cooling capacity to handle extreme performance up to 800hp with maximum efficiency.

from 100,542 Yen

HKS - Intercooler Kit - Type S

The HKS Type S front mount intercooler kit is suitable for power upgrades up to 450HP.

from 77,963 Yen

Knight Sports - Super U Type II - Twin-Core Int

The Knight Sports Twin-Core intercooler offers enhanced cooling and therefore engine performance, even in high heat conditions.

150,152 Yen

Nismo - Intercooler

The Nismo intercooler has been developed for significantly increased performance for the GTR Skyline, featuring improved cooling performance .

165,600 Yen

Nismo - Intercooler Air Duct

The Nismo intercooler air duct redirects air through the intercooler for greater performance.
19,556 Yen

RE Amemiya - V-Mount Intercooler & Radiator

The RE Amemiya V-Mount intercooler and radiator set enable improved cooling efficiency and can be seen in use in the highest level of racing machines.
315,404 Yen

Trust - Greddy - Intercooler Core

The Greddy intercooler cores offer a high quality component for a custom intercooler setup with a large range of sizes available rated up to 1500hp
from 42,562 Yen

Trust - Greddy - Intercooler Kit - Spec LS

The Greddy Spec LS intercooler is the latest development, to replace the Spec M in the cost effective range of Greddy intercoolers.
from 39,917 Yen

Trust - Greddy - Intercooler Kit - Spec-R

The SPEC-R HG / SPEC-R intercooler series, has traditionally in the past, been GReddy's most superior intercooler.
from 69,647 Yen

Trust - Greddy - Intercooler Kit - Spec-V

GReddy's V-SPL intercooler gives huge power increases by providing a low pressure drop and high cooling efficiency.
from 76,612 Yen

Cooling - Oil Coolers

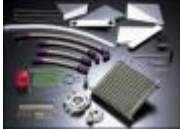

HKS - Oil Cooler Kit - Standard Replacement

The HKS Oil Cooler Kit, standard replacement version, replaces the standard oil cooler with an improved HKS core, offering improved cooling.

from 59,772 Yen

HKS - Oil Cooler Kit - Type R

The HKS Oil Cooler Kit - Type R incorporates a remote oil filter connection for easy oil filter changes together with the high performance core.

from 64,103 Yen

HKS - Oil Cooler Kit - Type S

The HKS S Type oil cooler kit uses a special sandwich adapter with a thermostat to keep optimal oil temperature.

from 55,856 Yen

Nismo - Oil Cooler Air Duct

The Nismo oil cooler air duct redirects air through the oil cooler for greater oil cooler performance.

26,082 Yen

Nismo - Oil Cooler Kit

The Nismo Oil Cooler kits have been track tested at Tsukuba, designed to maintain consistent oil temperatures in harsh environments.

179,400 Yen

R's Racing Service - RRP ATF Cooler Kit

The R's Racing Service Automatic Transmission fluid cooler kit provides additional security for those sporty drivers with an automatic Swift.

60,292 Yen

R's Racing Service - RRP Oil Cooler

The R's Racing Service Oil Cooler provides additional oil cooling, critical in maintaining oil temperatures in high speed, circuit or sports driving.

from 67,568 Yen

Trust - Greddy - Oil Cooler Kit - Honda

The Grex oil cooler kit for Honda prolongs the life of your engine components by keeping a constant oil temperature under harsh driving conditions.

from 62,255 Yen

Trust - Greddy - Oil Cooler Kit - Mazda

The Grex oil cooler kit for Mazda prolongs the life of your engine components by keeping a constant oil temperature under harsh driving conditions.

79,233 Yen

Trust - Greddy - Oil Cooler Kit - Mitsubishi

The Grex Mitsubishi oil cooler kit prolongs the life of your engine components by keeping a constant oil temperature under harsh driving conditions.

83,276 Yen

Trust - Greddy - Oil Cooler Kit - Nissan

The Grex oil cooler kit for Nissan prolongs the life of your engine components by keeping a constant oil temperature under harsh driving conditions.

from 47,702 Yen

Trust - Greddy - Oil Cooler Kit - Relocation -

The Greddy relocated oil cooler kit for Nissan prolongs the life of your engine components by keeping a constant oil temperature.

from 65,930 Yen

Trust - Greddy - Oil Cooler Kit - Toyota

The Grex oil cooler kit for Toyota prolongs the life of your engine components by keeping a constant oil temperature under harsh driving conditions.

from 67,106 Yen

Trust - Greddy - Oil Cooler Kit - Type LS

The Greddy Type LS Oil Cooler Kit has been developed for sports driving, keeping temperatures under control and protecting the engine from damage.

36,383 Yen

Trust - Greddy - Oil Cooler Kit Pink Color - St

The Greddy Oil Cooler Kit is available for a limited time in the unique pink color. Dress up your drifter with a unique pink oil cooler.

from 52,889 Yen

Zelev Performance - Rear Differential Oil Cooler

Zelev Rear Differential Oil Cooler Kit is the complete installation kit

from 185,130 Yen

Cooling - Radiator Caps
APEXi - GT Spec Radiator Cap

The Apexi GT Spec radiator cap improves cooling performance by increasing radiator pressure.
1,859 Yen

ARC - Radiator Cap

The ARC radiator cap offers improved sealing and the ability to increase the pressure required until valve opening for increased cooling pressure and
3,500 Yen

Billion - Radiator Cap

The Billion radiator cap enables a pressure rise to 127Kpa or 134C degrees.
2,890 Yen

Blitz - Radiator Cap

The Blitz radiator cap improves engine bay appearance and increases cooling efficiency.
1,806 Yen

Cusco - High Pressure Radiator Cap

Cusco high pressure radiator cap can handle an uprated pressure of 2.3kg/cm2
3,310 Yen

HKS - Radiator Cap

The HKS Radiator cap features the HKS logo and provides improved cooling capabilities for your radiator.
3,000 Yen

J's Racing - Radiator Cap

The J's Racing radiator cap ensures proper radiator performance through increased pressure rating to 1.3kg before opening.
4,460 Yen

Koyo - Radiator Cap

The Koyo radiator cap will complete your Koyo radiator upgrade with a high performance 1.27kpa cap.
from 2,575 Yen

Monster - Radiator Cap

The Monster performance radiator cap helps to dress up the engine bay and increases radiator cooling performance.

2,541 Yen

Mugen - High Pressure Radiator Cap

the Mugen high pressure radiator cap can handle pressure up to 1.3kg/cm² before opening for greater cooling performance.

3,807 Yen

Nismo - Radiator Cap

Nismo high performance radiator cap is designed to operate to 1.3kg/cm² for greater cooling performance

3,620 Yen

Spoon - Radiator Cap

Improve your engine bay appearance with the Spoon Radiator Cap. Perfect to compliment the Spoon aluminum radiator and the Spoon radiator pipes.

from 2,541 Yen

STI - Radiator Cap

The STI Radiator Cap increases the pressure rating to provide improved cooling performance under extreme conditions and improves the engine bay.

3,732 Yen

Suzuki Sport - High Pressure Radiator Cap

The Suzuki Sport Radiator cap improves cooling performance by increasing the radiator cap pressure to 1.3kg/cm².

2,657 Yen

TRD - Radiator Cap

The TRD radiator cap increases valve opening pressure up to 1.3kg/cm² or 1.4kg/cm² for greater cooling performance.

3,520 Yen

Trust - Greddy - Radiator Cap

The Trust Greddy Spec radiator cap improves cooling performance by increasing radiator pressure to 1.3kg/cm².

1,860 Yen

Zero Sports - Radiator Cap

The Zero Sports radiator cap increases the pressure inside the radiator, improving the cooling characteristics and efficiency by removing air bubbles.

3,876 Yen

Cooling - Radiators

ARC - Super Micro Radiator

The ARC super micro aluminium radiator uses a new unique micro tube manufacturing method exclusive to ARC.

from 90,553 Yen

Blitz - LM Radiator

Blitz LM radiators were designed for maximum cooling efficiency featuring a tube-fin design that is up to 40% more efficient than stock.

from 54,804 Yen

C-One - Calorie Up Radiator

The C-One Calorie Up radiator features a 2 layer core offering up to 20% more cooling efficiency compared to standard.

61,216 Yen

Koyo - Radiator

Koyo radiators are designed and manufactured to the highest standards and a number of core types are available.

from 30,240 Yen

Mugen - Radiator

The Mugen radiator for Honda vehicles are available in larger lengths and widths for increase cooling efficiency.

from 96,212 Yen

R's Racing Service - RRP Sports Radiator

The R's Racing Service Sports Radiator replaces the standard radiator with an item almost twice the size and with significantly improved cooling.

from 47,818 Yen

RE Amemiya - Radiator

The RE Amemiya Radiator has been race proven, used in GT racing and top level competition, for improved cooling and durability.

from 137,592 Yen

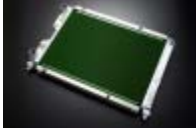

Spoon - Aluminium Radiator

The Spoon Aluminium 2 Layer radiator dramatically improves cooling performance with additional thickness and improved cooling efficiency.

94,710 Yen

TEIN - Flex - Radiator

The Tein Flex Radiator features a unique green coated core for improved cooling characteristics and combines with a light weight design.

101,179 Yen

Trust - Greddy - Aluminium Radiator

The Greddy aluminium radiator offers a thicker and better designed core for high performance cooling.

from 56,492 Yen

Cooling - Thermostats
ARC - Thermostat

ARC Thermostat open at 68 for cooling.

from 7,363 Yen

Billion - Performance Thermostats

The Billion Super Thermo maintains optimum water temperature by reducing the valve opening temperature by 10 - 20 degrees.

from 6,880 Yen

C-One - Low Temp Sports Thermostat

The C-One low temperature sports thermostat opens at a 68C degrees, lower than the standard thermostat to enable the cooling system to operate more ef

In Stock and ready to ship!

10,467 Yen

Monster - Low Temp Thermostat

The Monster low temp thermostat increases cooling efficiency by opening at a lower temperature.

from 5,885 Yen

Mugen - Low Temp Thermostat

The Mugen low temp thermostat operates at a lower temperature then original to minimise rapid water temperature rises under harsh conditions.

from 7,659 Yen

Mugen - Thermo Switch

The Mugen thermo switch reduces the temperature in which the cooling system begins operating to 80 degrees.

5,739 Yen

Nismo - Low Temp Thermostat

The Nismo low temp thermostat opens at a lower 62C compared to the standard 76C for higher cooling performance.

from 6,460 Yen

R's Racing Service - RRP Middle Temperatur

The R's Racing Service thermostat is designed to provide the perfect balance and maintain temperatures between 80 and 95 degrees in all conditions.

3,639 Yen

Sard - Cooling Thermostat

The Sard cooling thermostat is available for most Japanese vehicles.

In Stock and ready to ship!

from 6,468 Yen

Spoon - Thermo Switch

The Spoon thermo switch alters the cooling fan to start cooling at 80 degrees Celsius from the standard 90 degrees of the OEM unit.

5,069 Yen

Spoon - Thermostat

The Spoon thermostat replaces the standard thermostat enabling opening of the radiator valve at 65 degrees compared to the standard 88 degrees.

7,148 Yen

Suzuki Sport - Sports Thermostat

The Suzuki Sport Sports Thermostat reduces the opening temperature down to 68 degrees celsius. This ensures the radiator is operating sooner.

6,153 Yen

TRD - Sports Thermostat

The TRD Sports thermostat reduces the coolant temperature of high-performance engines to maximize performance.

from 6,880 Yen

Zero Sports - Cooling Thermo

The Zero Sports Cooling Thermo opens earlier, enable effective cooling of an engine that is quickly heating up under stressful conditions.

7,498 Yen

Drivetrain

C-One - Quick Steering Knuckle

The C-One quick steering knuckle reduces the number of turns for lock-to-lock for competition and hard sports driving cornering.

51,716 Yen

Garage Saurus - Clutch Master Backless Adapter

The Garage Saurus Clutch Master Backless adapter ensures no cracks and deterioration that allows air to enter the master cylinder.

18,480 Yen

J's Racing - Driveshaft Spacer

The J's Racing drive shaft spacer adds 10mm for vehicles that have been lowered by at least 30mm preventing excessive strain on the drive shaft.

23,285 Yen

J's Racing - Special Differential Distance

The J's Racing Special Differential Distance Collar has been developed from real endurance racing experience and features improved durability.

from 9,408 Yen

M and M Honda - Driveshaft Spacer

The M and M Honda driveshaft spacers are used when the Honda S2000 is lowered to ensure the drive shaft angle is maintained at the correct angle.

from 18,475 Yen

Mugen - Mission Cooler Hose

Mission Cooler Hose

58,906 Yen

Mugen - Pressure Ring Set

The Mugen pressure ring set enables the modification of the transfer ratio of the LSD for more aggressive turn in and acceleration.

79,155 Yen

Nismo - Big Operating Cylinder

The Nismo big operating system reduces the weight of your clutch pedal enabling greater control of clutch movement with aftermarket clutches.

12,558 Yen

Nismo - Clutch Pedal Bracket

The Nismo clutch pedal bracket increases the bracket rigidity by 1.75 times for improved clutch action.

from 7,300 Yen

Nismo - Strong Release Fork Pivot

The Nismo strong release pivot is 30% stronger than standard to handle increased operating clutch pressure with upgraded clutches.

3,310 Yen

Nismo - Super Coppermix - Repair Parts

The Nismo Super Coppermix Repair parts enable maintenance and repair of the Nismo Super Coppermix clutch, increasing lifetime.

22,703 Yen

ORC - Release Bearing

The ORC Release Bearing has been manufactured for high durability and suitable for a range of ORC clutch kits.

from 3,253 Yen

ORC - Sleeve Bearing Assembly

The ORC Sleeve Bearing Assembly ensures proper action of the ORC clutch.

12,012 Yen

R's Racing Service - Reinforced Release Be

Reinforced Bearing Collar is strong and made of metal.

9,825 Yen

R's Racing Service - Reinforced Release Sh

R's Racing Service Reinforced Release Shaft is incredibly strong and is double that of a normal shaft with a reinforced part.

10,916 Yen

R's Racing Service - RRP Reinforced Clutch

The R's Racing Reinforced clutch push rod replaces the standard resin item, with a high strength steel item.

6,238 Yen

Spoon - Change Rod

The Spoon Change Rod replaces the standard gear change rod with a high quality and extreme durable rod capable of taking the strain of circuit driving

14,176 Yen

Spoon - Release Bearing

The Spoon release bearing has been designed for use in combination with the Spoon clutch cover and clutch disc for improve durability.

from 8,101 Yen

Suzuki Sport - Sports Clutch Pedal

The Suzuki Sports Clutch pedal improves the driving feel by moving the clutch pedal closer to the brake and closer to the driver.

13,156 Yen

Suzuki Sport - Strengthened Drive Shafts

The Suzuki Sport strengthened drive shafts have been developed with increased diameter and improved joints for overall performance improvements.

172,700 Yen

Top Fuel - Power Oil Deck Plate

The Top Fuel Power Oil Deck Plate increases gear oil capacity up to 1000cc.

16,810 Yen

Drivetrain - Bushes & Mounts

C-One - Shift Cable Bush

The C-One shift cable bush when combined with the shift lever mount bush offers improved direct shift feel.

9,018 Yen

C-One - Shift Lever Mount Bush

The C-One shift lever replacement mounting bushes replace the standard rubber bushes with high quality aluminium for increased shift feel.

9,984 Yen

C-One - Sports Diff Cushion

The C-One Sports Diff Cushion cushions the diff mounting to prevent vibration in the drivetrain and can also improve power transfer.

20,988 Yen

C-One - Steering Gearbox Bush

The c-One steering gearbox bush improves steering directness by replacing the standard compliant rubber bushes with more rigid urethane bushes.

16,940 Yen

M and M Honda - Racing Diff Mounts

The M and M Honda racing diff mounts prevents the movement of the diff for more predictable and direct transmission of power to the ground.

16,422 Yen

Night Pager - Steering Rack Bush

The Night Pager steering rack bush helps to eliminate any excessive movement in the steering rack by increasing the hardness of the standard rubber.

6,770 Yen

Spoon - Differential Mount Kit

The Spoon differential mount kit comprises of replacement mounts designed for improved rigidity and promoting improved cornering performance.

37,464 Yen

Drivetrain - Clutch Kits
ATS - Carbon Clutch

The ATS carbon clutch is super light with exceptional strength, response and durability, perfect for harsh driving conditions.

from 105,683 Yen

Blitz - Active Clutch

The Blitz Active Clutch is a unique clutch kit offering increased power handling and drivability.

from 82,835 Yen

C-One - Performance Clutch System

The C-One Performance Clutch system features a high power handling metal disk and lightweight flywheel for increased engine response and acceleration.

from 99,100 Yen

Carbonetic - Carbon Clutch - Twin Plate

The Carbonetic twin plate clutch provides smooth precise operation in traffic and slow moving, whilst handling high levels of power.

198,870 Yen

Cusco - Hyper Single Clutch

The Cusco hyper single clutch is a standard replacement offering OEM feel but with superior power handling and response.

from 98,647 Yen

Exedy - Clutch Replacement Parts

Replacement parts for the Exedy clutch kits.

from 2,174 Yen

Exedy - Hyper Carbon - Carbon-D - Single Plate

The Exedy Hyper carbon single plate clutch provides increased power handling, together with reduced effort in pedal effort compared to other clutches

138,817 Yen

Exedy - Hyper Carbon - Carbon-D - Twin Plate Cl

The Exedy D-Core clutch is an easy to use twin plate clutch for high performance vehicles.
from 194,005 Yen

Exedy - Hyper Carbon - Carbon-R - Triple Plate

The Exedy Carbon-R semi-carbon clutches last twice as long as conventional metallic type which equates to an improved cost performance.
from 262,729 Yen

Exedy - Hyper Carbon - Carbon-R - Twin Plate Cl

Exedy has developed the best carbon structure with high burst strength and torque transferring capabilities as a performance clutch.
from 177,980 Yen

Exedy - Hyper Metal - Compe-D - Twin Plate Clut

The Exedy Hyper Metal Compe-D twin plate clutch is designed for competition use with light weight components designed for reliability.
from 141,784 Yen

Exedy - Hyper Metal - Single Plate Clutch

The Exedy Hyper Single Clutch is a new generation clutch set for light to moderately tuned vehicles up to 400 HP.

2 in Stock and ready to ship!

from 74,762 Yen

Exedy - Hyper Metal - Triple Plate Clutch

The Exedy Street / Race Triple Plate Clutch is designed for high torque capacity with
from 164,473 Yen

Exedy - Hyper Metal - Twin Plate Clutch

Exedy Street/Race Multi Twin Plate clutch designed for high torque and high performance engines

from 133,389 Yen

Exedy - Single Sports - Sports

The Exedy Single Sports clutches replace for the popular organic clutch offering even greater power capability with improved resistance to fade.

from 31,937 Yen

HKS - GD Clutch Max

The HKS GD Clutch Max kit is sold for easy bolt on installation and high strength for a number of vehicles.

from 148,764 Yen

HKS - GD Clutch Overhaul Kit

The HKS GD Clutch Overhaul Kits enable you to replace the worn components of your high performance twin or triple plate HKS Clutch.

from 46,200 Yen

JUN - Hyper Clutch Kit

The JUN Hyper Clutch Kit enables the transmission of increased power over standard engine power whilst still maintaining drivability

from 90,321 Yen

Mugen - Metal Clutch Set

The Mugen Metal Clutch set features improved bonding power through the use of a metal disc.

from 34,362 Yen

Nismo - Sports Clutch Kit

The Nismo Sports Clutch kit upgrades the standard clutch kit for increased power handling and improved response.

from 86,486 Yen

Nismo - Super Coppermix - Clutch

The Nismo Super coppermix single plate clutch can handle up to 420PS of power whilst remaining light weight.

103,604 Yen

Nismo - Super Coppermix - Twin Plate Clutch

The Nismo twin plate super coppermix clutch can handle up to 640PS of power.

from 159,459 Yen

ORC - 1000F Series - Triple Plate Clutch

The ORC 1000F Triple Plate Clutch Kit has been designed to handle all conditions, including high power drag racing.

from 146,397 Yen

ORC - 309 Series - Pro Carbon Clutch - 300ps

The ORC Pro Carbon 309 series clutch combines ease of use with circuit durability.

from 207,901 Yen

ORC - 309 Series - Single Plate Clutch - 300ps

The ORC 309 series single plate is a high performance clutch rated to 300PS.

from 72,072 Yen

ORC - 409 Series - Pro Carbon Clutch - 400ps

The ORC 409 series carbon single plate is a high performance carbon clutch rated to 400PS.

from 123,541 Yen

ORC - 409 Series - Single Plate Clutch - 400ps

The ORC 409 series single plate is a high performance clutch rated to 400PS.

from 75,075 Yen

ORC - 559 Series - Carbon Twin Plate Clutch - 5

The ORC 559 series carbon twin plate is extreme high performance clutch rated to 550ps.

from 165,165 Yen

ORC - 559 Series - Twin Plate Clutch - 550ps

The ORC 559 series twin plate is extreme high performance clutch rated to 550ps.

from 114,807 Yen

ORC - 659 Series - Twin Plate Clutch - 650PS

The ORC 659 series Metal Twin Plate clutch has been rated to 650PS and is designed to handle high power whilst retaining strong engine response.

from 152,460 Yen

ORC - Light Clutch - 250 - 250ps

The ORC 250 light clutch series of clutches are designed for standard replacement with minimal increase in clutch pedal pressure and improved feel.

from 72,823 Yen

ORC - Light Clutch - 400 - 330ps

The ORC 400 light clutch series of clutches are designed for standard replacement with minimal increase in clutch pedal pressure and improved feel.

from 75,075 Yen

ORC - Overhaul Kit

The ORC Overhaul Kit provides a convenient kit for the complete rebuild of your aging ORC clutch.

from 31,532 Yen

ORC - Replacement Parts - 709 Series

Replacement parts for the twin plate ORC 709 Series Clutches, restoring your high performance clutch to new condition.

from 13,514 Yen

OS Giken - Racing Clutch - Single Plate

The OS Giken single plate racing clutch has been designed for increased power handling over standard for naturally aspirated vehicles.

from 84,723 Yen

OS Giken - Racing Clutch - Twin Plate Racing

The OS Giken Racing Clutch twin plate design allows for very high horsepower from turbo and other performance vehicles.

from 110,361 Yen

OS Giken - Repair Parts - Twin Plate

The OS Giken Clutch Repair Parts enable the refurbishment of worn clutches to return them to former glory and strong operation.

from 1,039 Yen

Power Enterprise - Triple Plate Clutch

The Power Enterprise triple plate clutch can handle up to 1000ps for extreme performance vehicles.

from 183,456 Yen

Power Enterprise - Twin Plate Clutch

The Power Enterprise twin plate clutch reduces weight by 20% with a pushing pressure of 1000kg.

from 145,992 Yen

Ralliart - Super Direct Twin Plate Clutch

The Ralliart super direct twin plate clutch has been designed for competition use, including gymkhana and dirt trial, to handle increased power

203,223 Yen

Spoon - Clutch Cover

The Spoon Clutch cover increases contact pressure by 30% for improved power handling whilst maintaining almost stock pedal feel and clutch smoothness.

from 26,327 Yen

Spoon - Clutch Disc - Metal

The Spoon 3 puck metal clutch disc enables 30% improved clutch grip for increased power handling for your upgraded Honda Civic.

from 29,365 Yen

Spoon - Clutch Disc - Non Asbestos

The Spoon non-asbestos clutch disc is full faced for increased power handling whilst maintaining the smooth clutch action as standard.

from 14,176 Yen

Suzuki Sport - Asbestos Free Clutch

The Suzuki Sport asbestos free clutch provides superior clutch operation and increased clamping force with an improved clutch cover.

17,262 Yen

Suzuki Sport - Metal Clutch

The Suzuki Sport metal clutch provides additional clutch force for increased power handling.

from 25,473 Yen

Suzuki Sport - Upgrade Clutch Kit

The Suzuki Sport upgrade clutch kit offers improved power handling and increased durability together with improved response and clutch feel.

from 17,262 Yen

Toda - Clutch Kit + Ultra Light CrMo Flywheel

The Toda clutch kit combined with Ultra Light Flywheel has been designed for the ultimate response and complete balance at high RPM.

from 98,274 Yen

Toda - High Power Single Clutch Kit

The Toda high power single clutch kit is a metal disk based clutch offering improved clutch operation and feel together with improved durability.

from 90,714 Yen

TRD - Twin Plate Clutch

The TRD twin plate clutch enables high horsepower handling whilst maintaining standard-like feel and operation.

182,953 Yen

Trust - Greddy - Racing Clutch

The Greddy Racing Clutch has been designed to enable increased power handling with sacrificing drivability or clutch feel and operation.

from 31,023 Yen

Drivetrain - Clutch Lines
J Speed - Clutch Line

The J Speed Clutch Line replaces the standard clutch line with a stainless steel mesh brake line, providing improved clutch feel and operation.

7,770 Yen

Nismo - Steel braided Clutch Hose

The Nismo steel braided clutch hose provides better clutch pedal feel in extreme driving conditions.

6,306 Yen

ORC - Pro Clutch Line

The ORC Pro Clutch line replaces the standard rubber hose for improved clutch feel and performance in high heat environments.

from 7,132 Yen

Spoon - Clutch Slave Hose

The Spoon clutch slave hose replaces the rubber hose part of the clutch oil pressure line. This ensures more consistent and direct pedal feel.

9,114 Yen

Drivetrain - Differentials
ATS - LSD - Carbon

The ATS carbon LSD offers high performance for a variety of purposes including road race, time attack, drifting and rally.

from 116,162 Yen

Cusco - LSD - Type MZ

The Cusco Type MZ LSD is available in 1, 1.5 and 2 way variations and most suited to race vehicles.

Special from 82,225 Yen

Cusco - LSD - Type RS

The Cusco Type RS LSD is available in 1, 1.5 and 2 way configurations, suitable for high performance street vehicles.

from 74,198 Yen

Cusco - Tarmac Gear - Center Diff

The Cusco tarmac gear center differential alters the power to a F/R 35/65% distribution, designed specifically for tarmac rally conditions.

from 117,726 Yen

KAAZ - L.S.D

The Kaaz basic and solid LSD models react faster and offer a wide range of adjustments to suit different driving conditions.

In Stock and ready to ship!

from 65,780 Yen

Mugen - LSD

The Mugen LSD is a mechanical LSD for improved turn in and increased acceleration grip when exiting the corner.

from 26,381 Yen

Nismo - GT LSD & MECHANICAL LSD

The Nismo GT LSD is available in 1.4 or 2 way configurations for improved handling performance.

from 92,253 Yen

Nismo - GT LSD - Pro

The Nismo GT LSD Pro is available in 1.5 and 2 way configurations with 3 stage initial torque selection.

108,108 Yen

Nismo - GT LSD - TT Pro

The Nismo GT LSD TT Pro for extreme street or race use is available in 1.5 or 2 way configurations.

108,108 Yen

OS Giken - Super Lock LSD

The OS Giken Super Lock LSD has been designed for high levels of durability and performance whilst still providing a comfortable driving experience.

from 122,522 Yen

R's Racing Service - Limited Slip Differen

The R's Racing LSD gear for the ZC11 Swift ensures safe driving in all conditions.

152,807 Yen

RE Amemiya - LSD Super Racing

The RE Amemiya LSD Super Racing has been developed from racing and circuit experience.

103,724 Yen

Spoon - LSD Kit

The Spoon LSD kit is a replacement for the standard unit with a mechanical LSD designed for high performance street or circuit cornering.

99,229 Yen

Suzuki Sport - Traction Drive 100

The Suzuki Sport Traction Drive 100 (TDX 100) has been designed as a full LSD replacement of the standard non-LSD differential.

from 94,542 Yen

Tomei - Technical Trax Advance

The Tomei Technical Trax Advance Limited Slip Differential (LSD) has been designed for high stress environments such as circuit and drifting

71,957 Yen

TRD - Limited Slip Differential - Mechanical

The TRD LSD have more rigorous lubrication and can be switched from 1.5 way to 2 way without additional parts.

from 72,996 Yen

TRD - Selective L.S.D.

The TRD selected LSD enables you to select one of three initial torques by simply removing the drive shaft and rotating the selector.

from 89,420 Yen

Trust - Greddy - Front Diff Cover Upgrade Kit

The Trust Greddy front diff cover upgrade kit increases the capacity by 0.7L for increased oil level and heat dissipation.

In Stock and ready to ship!

from 27,859 Yen

Weld - Differential Gear Box Bushing Semi-Rigid

The Weld Semi Rigid bushing improves mounting for the rear differential for improved power transmission to the ground.

25,000 Yen

Drivetrain - Flywheels
C-One - Flywheel

The C-One lightweight flywheel dramatically decreases the flywheel weight for high revving naturally aspirated vehicles.

46,552 Yen

Cusco - Chrome Molly Light flywheel

The Cusco chrome molly light flywheel enables the vehicle to accelerate and decelerate faster than standard.

from 37,191 Yen

Exedy - Single Sports - Light Flywheel

The Exedy lightweight flywheel improves engine response and acceleration.

from 33,796 Yen

JUN - Light & Ultra Light Flywheels

The JUN ultra light flywheels offer 200% more strength while being lighter than a standard flywheel for improved response.

from 34,298 Yen

R's Racing Service - RRP Flywheel

The R's Racing Flywheel provides significant engine response improvement through the reduction of weight by over 1.3kg.

36,383 Yen

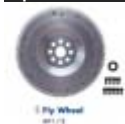

R's Racing Service - Super Balanced Flywheel

Super Balanced Flywheel is designed to be incredibly light, as well as gives excellent engine response and great acceleration.

from 45,843 Yen

Spoon - Fly Wheel

The Spoon lightened flywheel weighs only 4.2kg and has been developed by Spoon Japan for improved response, corner exiting power and performance.

from 34,427 Yen

Suzuki Sport - Flywheel

The Suzuki Sport lightweight flywheel decreases angular momentum enabling increased acceleration for improved performance.

42,861 Yen

Suzuki Sport - Flywheel - Installation Kit

The Suzuki Sport Flywheel installation kit ensures an easy installation of your new Suzuki Sport light weight flywheel.

2,415 Yen

Toda - Chrome Molly Flywheel

The Toda chrome molly flywheel decreases the weight and inertia of the flywheel for improved acceleration and engine performance.

from 45,357 Yen

TRD - Lightweight Flywheel

The TRD lightweight flywheel dramatically improves engine response from standstill and throughout the rev range by reducing the flywheel weight.

from 51,744 Yen

Trust - Greddy - Racing Flywheel

The Greddy Racing Flywheel has been developed to enable higher engine response and acceleration.

37,857 Yen

Drivetrain - Gear Sets
C-One - Sports Close Mission

The C-One Sports Close mission improves acceleration by shortening the gear ratios.

from 244,916 Yen

Carbonetic - Close Gear Ratio

The Carbonetic close gear ratio set improves vehicle acceleration and ability to stay in the high rev range during circuit racing.

from 23,299 Yen

HKS Kansai - Final Gear Set

The HKS Kansai Final Gear set increases the top speed of each gear to provide a higher top end speed and reduce the need for gear changes.

76,475 Yen

J's Racing - Final Gear Set

The J's Racing Final Gear Set enables the modification of the final gear ratio, adjusting the power band and gear ratios to tune perfectly for a race

115,249 Yen

J's Racing - Final Gear Set - WIPC + PIP

The J's Racing Final Gear Set enables the modification of the final gear ratio with enhanced harness and durability.

from 94,081 Yen

Spoon - Final Gear Set

The Spoon Final Gear Set shortens the final drive to provide improved acceleration characteristics.

from 113,309 Yen

Drivetrain - Shift Kits
Beatrush - Quick Shift Lever - Version R

Beatrush has designed a strong and fast shift made of steel for the Mitsubishi Colt Ralliart.

from 4,071 Yen

C's - Short Shifter

The C's short shifter can reduce shift length by up to 30% enabling faster and more accurate gear shifting.

from 16,920 Yen

Ikeya Formula - Sequential Shifter

The Ikeya Formula sequential shifter converts conventional H pattern shift to a sequential up and down shift mechanism.

from 9,032 Yen

M and M Honda - Short Shift Change Lever

The M and M Honda short shift change lever has been designed to reduce shift throw and provide adjustability to provide the perfect driving position.

from 20,528 Yen

Night Pager - Column Shifter

The Night Pager column shifter enables paddle shift operation for the Nissan 350Z, Murano and the V35 Skyline.

from 52,788 Yen

Nismo - Short Shift

The Nismo short shifter can reduce gear shift stroke from 10 to 25% shorter than standard for faster gear changes.

from 15,456 Yen

Suzuki Sport - SS Short Shifter

The Suzuki Sport SS Short Shifter reduces shift stroke by 25%, enabling faster more defined gear changes perfect for high performance driving.

from 31,395 Yen

TRD - Quick Shift

The TRD Quick Shift shortened shift stroke produced by changing the shift lever ratio provides a sensational feel with nimble, reliable shifting.

from 16,401 Yen

Electronics

APEXi - DECS Wing Controller

Apexi DECS Wing Controller enables dynamic wing control from inside the vehicle.

110,000 Yen

APEXi - EL2 System Meter - Option Parts

Apexi offer a vast arrange of option parts for the EL2 Meter System for custom or special installations.

from 1,551 Yen

APEXi - Rev Speed Meter Black

The new Black Rev/Speed Meter GP

19,242 Yen

Bee R - Rev Limiter

The Bee Racing Rev Limiter cuts ignition when the rev limit has been hit, ensuring protection of the engine in all conditions.

In Stock and ready to ship!

25,503 Yen

Blitz - Meter Repair Parts

The Blitz Meter Repair Parts enable the repair of a worn or fault meter to return it to its former glory.

from 1,268 Yen

Blitz - Throttle Controller

The Blitz throttle controller enables alteration of the electronic throttle controller on many newer vehicles.

from 1,691 Yen

Cusco - E-Con

The Cusco E-Con provides in-cabin electronic damper force adjustment, providing easy adjustment for your suspension in any environment.

37,774 Yen

Cusco - Water Spray Contoller

The Cusco water spray controller enables automated cooling of your intercooler or oil cooler by spraying a water when required.

from 7,000 Yen

Defi - Option Parts

Defi offers a vast range of optional parts for gauges and meters.

from 1,500 Yen

Electronics

HKS - A/F Knock AMP

The HKS Knock and A/F monitor keeps track of critical engine components to ensure reliability for high performance engines.

from 2,680 Yen

HKS - Circuit Attack Counter

The HKS circuit attack counter enables multiple automatic or manual lap timing and car speed display.

28,644 Yen

HKS - Electronic Idling Stabilizer

The HKS EIDS buffers dramatic airflow meter fluctuations to maintain a consistent idle.

12,474 Yen

HKS - Fuel Cut Defencer

The HKS FCD raises the fuel cut level on factory turbo vehicles for use when increasing boost levels.

12,340 Yen

HKS - Speed Limit Defencer

The HKS SLD eliminates the vehicles factory speed limiter, typically 180kmh.

from 12,474 Yen

HKS Kansai - Active ET-S Controller

The HKS Kansai ET-S controller modifies the torque distribution on 4WD Nissan Skyline vehicles for greater handling performance in varying conditions.

43,746 Yen

J's Racing - Speed Limiter Remover

J's Racing has designed the FD2 Type R speed limit remover, canceling out at 180km/h so you get the full potential from start to finish on track.

32,928 Yen

Pivot - Engine Starter Switch

The Pivot Engine Starter Switch enables easy start of the vehicle and a high performance unique feel.

10,235 Yen

Pivot - Throttle Controller

The Pivot Throttle Controller enables you to further control the amount of throttle opening from the accelerator pedal based on 3 modes.

from 5,455 Yen

Pivot - Water Spray Controller

The Pivot water spray controller automates water spray on a vehicles intercooler or oil cooler for enhanced cooling performance.

from 5,200 Yen

Power Enterprise - Fan Switch Controller

The Power Enterprise fan switch controller can be used with either water or oil by selection of a switch.

31,694 Yen

Ralliart - Active Center Differential ECU

The Ralliart ACD ECU replacement offers improved handling by simply replacing the standard ECU with the optimised Ralliart model.

from 53,251 Yen

Suzuki Sport - Lap Checker 100

The Suzuki Sport Lap Checker 100 enables easy manual and automatic lap time recording with minimal installation and maximum features.

28,371 Yen

TEIN - EDFC - Controller Kit

The TEIN EDFC controller kit enables the driver to control damping force while being seated in the drivers seat.

23,556 Yen

TEIN - EDFC - Motor Kit

The TEIN EDFC Motor Kit enables the driver to control damping force using small motors and an in cabin controller.

15,120 Yen

TEIN - EDFC - Strut Kit

The TEIN EDFC strut kit is required for a small number of vehicles for installation of the EDFC Motor Kit

2,892 Yen

Trust - Greddy - Meter - Repair Parts

The Greddy meter repair parts enable the replacement of sensors and other parts when damaged, extending the life of your meter set.

from 315 Yen

Trust - Greddy - Multi Switching System

The Trust Greddy multi switching system is a general output control capable of controlling up to 2 separate electronic devices.

from 2,830 Yen

Trust - Greddy - Remote Control Kit

The Greddy remote control kit enables in-car modification of the damper settings, through an easy to use electronic interface.

from 4,408 Yen

Trust - Greddy - Remote Switching System

The Trust Greddy remote switching system enables hands free change between high and low boost settings.

10,349 Yen

ULTRA - Auto Dim V

The Ultra Auto Dim V light control system automatically controls the illumination of the headlights.

15,765 Yen

ULTRA - Hyper Ignition System 9980

The Ultra 9980 Hyper Ignition System, specifically for the Honda Type R Civic and Integra's, ensures strong spark in high RPM and high power condition
73,858 Yen

Electronics - Accessories
Abflug - Design Meter Box

The Abflug Design Meter Box has been designed for easy fitment of high quality 60mm gauges for easy viewing by the driver in all conditions.

from 36,564 Yen

Blitz - Meter Holder & Monitor Holder

The Blitz introduces its aluminum Racing Monitor Holder with a patented 70° pivoting design for Blitz monitor systems and boost controllers.

1,806 Yen

Carbing - Gauge Holder

Carbing gauge holder enables you to neatly install multiple gauges on the dash with a factory like finish.

from 26,073 Yen

Colt Speed - 3 Meter Panel

The Colt Speed 3 Meter panel enables easy installation of 3 52mm gauges in the front dash, providing easy visibility and professional installation.

31,717 Yen

Colt Speed - 3 Meter Panel Carbon

Colt Speed introduce the 3 meter panel Carbon

31,717 Yen

Defi - Link - Meter Fitting Kit

The Defi-Link Fitting Kit is used to mount a gauge on an A-pillar or a steering column for visibility during driving.

1,882 Yen

Defi - Link - Single Meter Visor

The Defi-Link Single Meter Visor is used to remove the virtual image of gauges reflected on the windshield.

2,670 Yen

Defi - Triple Meter Hood - Mitsubishi Evo

The Defi 3 meter holder for the Misubishi Evo enables the mounting of 3 Defi meters in a custom high quality way.

27,489 Yen

Defi - Triple Meter Hood - Subaru Legacy

The Defi 3 meter holder for the Subary Legacy enables the mounting of 3 Defi meters in a custom high quality way.

27,489 Yen

Defi - Triple Meter Hood - Subaru WRX GD

The Defi 3 meter holder for the WRX GD enables the mounting of 3 Defi meters in a custom high quality way.

12,122 Yen

Fujita Engineering - 3 Meter Holder

The Fujita Engineering 3 meter holder enables easy installation of 3 52MM gauges in the center of the dash.

22,869 Yen

Garage HRS - Panel 3 Meter Dash

The Garage HRS Panel 3 Meter Dash enables the easy installation of 3x 60mm meters in the center console.

from 11,400 Yen

HKS - Meter Hood / Mount

The HKS is specifically designed for 60mm HKS meters and can be securely mounted on virtually any surface.

3,940 Yen

HKS - Meter Stand

ThE HKS meter stand securely mounts an HKS meter to a metal base, available in various sizes.

1,512 Yen

Prova - Meter Hood

The Prova Meter Hood enables easy and professional installation of one 60mm meter in your Subaru Legacy.

12,701 Yen

Suzuki Sport - Carbon Meter Panel

The Suzuki Sport carbon meter panel is manufactured from genuine carbon fibre for the customised look inside the Suzuki Sift.

9,775 Yen

Suzuki Sport - Meter Pod

The Suzuki Sport meter pod enables easy installation of 52mm gauges into our Suzuki Sport dash board.

13,283 Yen

Suzuki Sport - Pillar Meter Hood

The Suzuki Sport Pillar Meter Hood has been especially designed for the new Suzuki Swift for easy installation of a pillar mounted gauge.

from 15,939 Yen

Trust - Greddy - Meter Adjustable Holder

The Trust Greddy adjustable meter holder is used to mount Greddy gauges almost anywhere inside the vehicle.

from 393 Yen

Trust - Greddy - Meter Pillar Mount - Single 60

The Trust Greddy universal pillar mount suits most Japanese vehicles for the mounting of a single 60mm gauge.

3,849 Yen

Zero Sports - Meter Hood

The Zero Sports Meter Hood panel has been designed to fit perfectly with the standard dash for the mounting of 3 60mm gauges.

APEXi - Power FC - Boost Controller Kit

The Apexi PowerFC Boost Controller kit integrates directly with the Power FC for accurate electronic boost control.

33,948 Yen

Blitz - SBC - i-Color

Blitz SBC i-Colour is a multi function and full colour display to control the boost of your turbocharged vehicle

from 55,545 Yen

Blitz - SBC - i-D SPEC - R

Blitz SBC i-D SPEC -R is a multi function sequential controller for the boost of your turbocharged vehicle.

47,093 Yen

Blitz - SBC - i-D SPEC - S

The SBC i-D (Sequential Boost Controller i-D) is the latest boost controller offer by BLITZ. this unique boost controller represents the cutting edge.

38,318 Yen

Blitz - SBC - Replacement Parts

The Blitz SBC Replacement parts enable the repair of almost all parts of the Blitz SBC Boost Controller range.

from 85 Yen

Blitz - SBC - Spec R - Dual Solenoid

The dual solenoid Blitz SBC boost controller is capable of handling up to 36psi and is compatible with internal and external wastegate actuators.

38,502 Yen

HKS - EVC - V

The latest model HKS EVC 5 now features over boost control and new high contrast LCD screen.

from 53,784 Yen

HKS - EVC-S

The new HKS Type S EVC boost controller features their new slim black face and white LCD display for an attractive display.

31,320 Yen

Power Enterprise - Boost Controller

The Power Enterprise Boost Controller enables finer boost control with quickened response and stabilised boost levels.

41,395 Yen

Trust - Greddy - E 01

The Greddy Profec E01 enables boost control and data display and logging in the one system.

66,470 Yen

Trust - Greddy - Profec - B-Spec. II

The Greddy Profec B-Spec boost controller is designed for high performance turbo charged Japanese vehicles.

31,936 Yen

Trust - Greddy - Profec - Easy

The Profec Easy from Greddy utilises your standard solenoid and pressure sensors to enable increased boost pressure for light vehicles.

18,753 Yen

Trust - Greddy - Profec - Type S

The Trust Greddy Profec Type S is an easy to use electronic boost controller with advanced response and consistency.

31,618 Yen

Electronics - Combination Meters
Defi - DIN Gauge - RHD

The Defi DIN-Gauge is a 1-DIN sized triple meter for providing information on a pressure and 2 kinds of temperatures.

44,572 Yen

Mugen - Assist Meters

The Mugen Assist Meter Kit provides a set of 3 high quality 60mm gauges for monitoring of the vehicles critical components.

119,968 Yen

Nismo - Combo Meter - 350Z

The Nismo combo meter for the 350Z measures up to 300km/h and 8,000RPM perfect for a modified high performance Nissan 350Z

82,110 Yen

Nismo - Combo Meter - S15

The Nismo Combo Meter reads up to 10,000 RPM for the highest of specification vehicles.

44,160 Yen

Nismo - Combo Meter - Skyline CPV35

The Nismo combo meter for the CPV35 Skyline provides a unique Nismo white interface and features 8,000 RPM and up to 280km/h dials.

59,800 Yen

Nismo - Combo Meter - Skyline R33

The Nismo combo meter for the R33 GTR can also be used with the GTS-t, available in black or white, measuring up to 320km/h.

from 56,028 Yen

Nismo - Combo Meter - Skyline R34 GTR

The Nismo combo meter for the R34 GTR measures up to 320km/h and 11,000 RPM.

from 53,360 Yen

Nismo - Combo Meter - Skyline R34 GTT

The Nismo combo meter for the R34 GTT measures up to 300km/h and 10,000 RPM.

Special 48,300 Yen

HKS - DB Meter Chrono

HKS uses 3D Meter panel design for the DB Chrono Meter for the first time in the range of Japanese aftermarket performance gauges.

from 19,312 Yen

HKS - DB Meter Retro - Boost

The HKS Direct Bright Retro Boost meters are the newest HKS gauges available in Black or White in 60mm.

from 9,400 Yen

HKS - DB Meter Retro - Exhaust

The HKS Direct Bright Retro Exhaust meters are the newest HKS gauges available in Black or White in 60mm.

20,916 Yen

HKS - DB Meter Retro - Pressure

The HKS Direct Bright Retro Pressure meters are the newest HKS gauges available in Black or White in 60mm.

20,916 Yen

HKS - DB Meter Retro - Temperature

The HKS Direct Bright Retro Temperature meters are the newest HKS gauges available in Black or White in 60mm.

14,736 Yen

HKS - DB Meter RS - Exhaust

The HKS DB Meter RS are the latest release gauges from HKS featuring the latest technology of electronic gauges including the exhaust gauge.

20,916 Yen

OSIRIS - Remote Meter 52mm

Evil/Osiris Series needle pointers are driven by microcomputer controlled stepping motors
from 2,739 Yen

Sard - Pro Meter EL - Electronic

The Sard electronic Pro Meters are highly accurate gauges that incorporate EL illumination for improved visibility in all light levels.

from 27,535 Yen

Electronics - Engine Management
APEXi - Power FC & Hand Controller

The Apexi Power FC is a complete, stand alone, total engine management system ECU available for purchase for almost all Japanese performance vehicles.

Special from 75,632 Yen

APEXi - Power FC & Hand Controller - D-Jetr

Apexi PowerFC D-Jetro version is a specialist version of the Power FC replacing the standard AFM sensors with a MAP sensor for more accurate tuning.

Special 75,632 Yen

APEXi - Power FC & Hand Controller - Mitsub

The Apexi Power FC with specific harness is now available for the Mitsubishi Evo 8.
from 15,800 Yen

APEXi - Power FC - Hand Commander

The Apexi PowerFC hand commander enables access to the vital tuning parameters of the Power FC

33,948 Yen

APEXi - Power FC - Hand Commander - Cable

Apexi 3 meter extension cable for the PowerFC hand controller that is required in some vehicles.
from 2,165 Yen

APEXi - Power FC - Option parts

The Apexi Power FC D-Jetro requires some option parts for conversion from AFM to MAP sensors.

In Stock and ready to ship!

from 1,543 Yen

APEXi - Super AFC NEO

The latest AFC from Apexi, the S-AFC Neo incorporates the V-AFC with a large number of improvements.

37,800 Yen

C-One - Power ECU

The C-One Power ECU enables increased power and torque by simply replacing the standard ECU.

from 158,235 Yen

HKS - F-CON - IS - Harness

The HKS F-CON IS harness enables easy, convenient and trouble free installation of the F-CON IS for specific vehicles.

from 23,100 Yen

Mines - VX-ROM - Engine Control Unit

The Mines VX-ROM ECU replaces the standard ECU, enabling greater control and tuning of the engine in addition to removing speed limiter functions.

150,029 Yen

Mugen - ECU Mount Bracket

Mugen ECU mounting bracket for the Integra Type R DC5

5,497 Yen

Mugen - Honda ECU

The Mugen N1 Honda ECU is specially mapped for increased performance and increased rev limit for VTEC vehicles.

170,925 Yen

Power Enterprise - Camcon

The Power Enterprise Camcon controller enables the control of VTEC and VVT-i systems and modify the air/fuel ratio for improved performance.

from 5,497 Yen

R's Racing Service - RRP Super ECU

The R's Racing RRP Super ECU has been pre-programmed for the Suzuki Swift and provides a measure power increase of 17HP with just an air intake.

from 15,215 Yen

Tomei - MAP Sensor

The Tomei Map Sensor can be used with both the Apexi Power FC and the Tomei Reytec ECU. Apexi and Tomei both use the exact same map sensor.

14,490 Yen

Trust - Greddy - E-Manage - Blue

The Trust Greddy E-Manage is a piggy back fuel control system to enable enhanced tuning and also includes Honda VTEC control.

from 2,830 Yen

Trust - Greddy - E-Manage - Option Parts

The Greddy specific E-Manage harness avoid any damage during professional installation into your vehicle.

from 1,455 Yen

Trust - Greddy - E-Manage - Software

The Trust Greddy E-Manage software enables the tuning of the E-Manage piggy back controller via your notebook computer.

9,540 Yen

Trust - Greddy - E-Manage - Ultimate

The Trust Greddy E-Manage ultimate is the most advanced piggy back fuel control system available on the market with a number of additional features.

51,559 Yen

Trust - Greddy - E-Manage - Ultimate + Harness

The e-Manage Ultimate and Harness Kit combines all of the parts required for installation with initial tuning data to get you up and running as quick.

from 68,191 Yen

Trust - Greddy - E-Manage - Ultimate - Supplemental

The Greddy e-Manage Ultimate supplemental harnesses enable installation of the unit and the use of additional functions for specific vehicles.

from 1,081 Yen

Trust - Greddy - e-Manage - Ultimate - Vehicle

The e-Manage Ultimate vehicle harness kits enable easy installation for a specific vehicle.
from 14,969 Yen

Trust - Greddy - F-Manage

The Greddy F-Manage enables you to control the feedback to your ECU, opening a range of tuning possibilities.
from 31,601 Yen

Trust - Greddy - V-Manage

The V-Manage allows tuning of variable valve timing i
from 41,580 Yen

Trust - Greddy - V-Manage - Option Parts

The Greddy option parts enable installation of the V-Manage, using vehicle specific harnesses and accessories.
from 1,894 Yen

Electronics - Gauge Controllers

APEXi - EL2 System Meter - Control Unit & O

The Apexi EL2 System meter is required for up to 6 Apexi electronic gauges for operation.

from 1,478 Yen

Blitz - Racing Meter - Live Unit II

The Blitz Live Unit II can control up to 3 gauges; boost, temperature and pressure and enables numerous features such as peak hold and replay.

12,558 Yen

Defi - Link - Control Unit II

Defi Link Controller enables control of your Defi gauges for monitoring of your vehicles performance

Special 9,000 Yen

HKS - Meter I/F Unit

The HKS I/F unit enables up to 6 HKS DB, Chrono and Retro gauges to operate at once.
8,940 Yen

Electronics - Gauge Fittings
AutoExe - Meter Hood

The Auto Exe Meter Hood enables easy installation of 3 60mm gauges on the dashboard of your Mazda.

23,800 Yen

Billion - Sensor + Air Breez Adapter

The Billion sensor adapter has two 1/8PT connections for an optional water temperature sensor and a air line kit for removing air from the radiator.

4,000 Yen

Blitz - Oil Sensor Attachment

The Blitz oil sensor attachment enables easy attachment of oil temperature and pressure meters, with various size attachments available.

from 6,095 Yen

Trust - Greddy - Radiator Hose Attachment

The Trust Radiator Hose Attachment is an ideal fitting when installing the water temperature gauge from the radiator.

2,199 Yen

Electronics - Mechanical Gauges

Blitz - Super Vision Meter

The Blitz Super Vision Meter has been designed to match the vehicle interior for OEM style fitment whilst providing a more visible and accurate boost

32,120 Yen

HKS - DB Meter

HKS Direct Bright Meters use LED to light up at night, decreasing power consumption with improve visibility.

from 13,476 Yen

Sard - Fuel Regulator Setting Meter

The Sard Fuel Regulator Setting meter can assist in making adjustments and corrections to fuel pressure.

9,055 Yen

Sard - Pro Meter EL - Mechanical

The Sard mechanic Pro Meters are highly accurate gauges that incorporate EL illumination for improved visibility in all light levels.

from 12,012 Yen

ULTRA - Step Tacho Meter 120mm

Ultra Step Tachometer has a super-precision meter mechanism for sharp response and stability in the high-frequency vibration of racing.

36,960 Yen

Electronics - Performance Meters
APEXi - Rev Speed Meter

Apexi Rev Speed Meter enables monitoring of your vehicles performance via a single multi-function blue screen device.

from 2,500 Yen

Blitz - i-Color - Option Parts

The Blitz i-Colour can also have a number of option parts to expand its functionality including pressure, temperature and voltage sensors.

from 3,496 Yen

Blitz - Power Meter - i-Color FLASH

The Blitz Power Meter i-Color version can measure vehicle power and torque and display it in realtime on a high quality colour screen.

40,572 Yen

Blitz - R-FIT

The Blitz R-FIT fuel controller enables piggyback fuel tuning of the ECU to improve performance and engine response.

34,270 Yen

Blitz - R-VIT - i-Color Flash

The Blitz R-VIT iColour Flash version enables monitoring of up to 30 different signals from your vehicle, displaying up to 6 on the screen at once.

37,203 Yen

Blitz - R-VIT Type - I & II

The Blitz R-VIT system provides advanced digital monitoring with up to 5 different types of digital display.

from 32,085 Yen

Defi - Link - Display

Defi-Link Display is a multipurpose monitor which provides information on speed, oil temperature, water temperature, oil pressure, fuel pressure.

24,255 Yen

Defi - VSD Concept

Defi-Link VSD CONCEPT is a product to display information on the speed, engine speed, and so on by reflecting the information on the windscreen.

26,400 Yen

Defi - VSD X

The Defi VSD X is the latest model of the Defi VSD series offering superior visibility with the new reflective screen.

26,681 Yen

HKS - CAMP 2

The HKS CAMP 2 is the long awaited replacement to the original HKS CAMP. This unit enables monitoring of up to 24 data signals with up to 6 on screen.

from 1,850 Yen

HKS - F-CON - Navigator

The HKS F-CON Navigator enables monitoring of sensor functions when connected to the F-CON piggyback fuel controller.

Special 27,796 Yen

Pivot - Racing Monitor

The Pivot Racing Monitor provides vehicle key indicators with easy viewing and quick installation.

from 22,770 Yen

Pivot - Speed Meter - V

The Pivot Speed Meter V is a highly accurate speed, G Force and acceleration meter presented in a high quality casing.

from 11,270 Yen

Sard - Attack Meter

The Sard Attack Meter offers lap timing in addition to the standard speed, RPM, acceleration and other functions.

22,915 Yen

Trust - Greddy - Intelligent Infometer Eco

The Greddy Intelligent Infometer enables easy monitoring of your fuel efficiency and how your driving techniques influence your fuel usage.

31,509 Yen

Trust - Greddy - Intelligent Infometer Touch

The Intelligent Infometer Touch is the latest from Greddy's line of information display products featuring a high quality full colour LCD.

Special from 2,368 Yen

Trust - Greddy - Intelligent Infometer

intelligent infometer

The Trust Greddy Infometer is a great looking inexpensive method for monitoring your vehicles health using the factory OBDII port.

Special 35,801 Yen

ULTRA - Multi Mode Meter Plus

The Ultra Multi Mode meter enables digital monitoring of the speedo and measurement of vehicle performance and lap times.

20,212 Yen

Electronics - Shift Lights
Blitz - Warning Indicator

The Blitz Warning indicator can be used together with Blitz gauges as a warning light or shift light.

2,530 Yen

Defi - Link Indicator

The Defi Link Indicator version I and II provide a visual alert based on a single gauge or as a master warning indicator.

from 3,646 Yen

Electronics - Turbo Timers
APEXi - Turbo Timer

Apexi Turbo timer keeps the engine idling after the vehicle has been turned off to ensure cooling down of the turbo after spirited driving.

9,260 Yen

Blitz - Dual Turbo Timer - DCIV

The Blitz dual turbo timer utilises boost pressure and engine time to determine the time it takes for the engine to cool down.

12,673 Yen

Blitz - Full Auto Turbo Timer - DCIV

The Blitz full auto timer can be used for turbocharged or naturally aspirate engines and ensures that the engine is cooled down to a safe level.

8,280 Yen

Blitz - Turbo Timer Harness

The Blitz Turbo Timer harness enables easy installation of the Blitz FATT Turbo Timer with easy future removal.

from 1,449 Yen

HKS - Turbo Timer

The HKS turbo timer gives your vehicle a chance to cool down after intense driving sessions enabling a long life for your engine.

from 9,232 Yen

HKS - Turbo Timer - Type 0

New for 2008, the HKS Turbo Timer Type 0 features two modes of operation, automatic and manual modes, and incorporates an attractive red lettering.

In Stock and ready to ship!

8,490 Yen

HKS - Turbo Timer - Type 1

The HKS Type 1 Turbo Timer features a fully automatic mode, based on vehicle input and combines stop watch, lap time and speed, RPM measurement.

13,428 Yen

HKS - Turbo Timer Harness

The HKS turbo timer harness enables quick and simple installation of HKS turbo timers.
from 1,127 Yen

Trust - Greddy - Full Auto Timer

The Trust Greddy full auto timer enables the engine to idle after the key is removed for a complete engine cool down after hard driving.
7,131 Yen

Trust - Greddy - Full Auto Timer - Optional Har

The Trust Full Auto Turbo Timer optional harness is designed to enable easy installation of the Full Auto Turbo Timer.

from 873 Yen

Trust - Greddy - Full Auto Timer II - Separate

The Greddy Full Auto Timer II features a new separate type enabling the quality black lit screen to be installed almost anywhere around the dashboard.

8,639 Yen

ULTRA - Full Auto Timer

The Ultra full auto turbo timer enables engine cool down after a spirited driving session.
from 12,564 Yen

Engine
Billion - Racing PS Tank

The Billion Power Steering tank has been designed for racing purposes with an enhanced swirl effect and a special two tier aluminium tank.

from 21,599 Yen

Garage HRS - Clear Cam Cover

The Garage HRS Clear Cam Cover enables visibility of the cambelt and cam pulleys enabling easy inspection and a high class engine bay appearance.

18,164 Yen

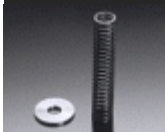

Garage Saurus - Big Throttle Body Set

The Garage Saurus Big Throttle Body Set increases the throttle body diameter by 10% enabling high horsepower increases with less restriction.

87,780 Yen

HKS - 4A-G Parts

The HKS 4A-G Hydraulic Upgrade Kit avoids oil pressure drop during high performance high revolution driving.

4,500 Yen

HKS - Cylinder Liner

The HKS cylinder liner is constructed from ductile iron for extreme high strength for high performance applications in excess of 500hp.

36,960 Yen

HKS - Duct Cover

The HKS duct cover covers the air duct completely on the Mitsubishi Evolution protecting the Exhaust manifold from the elements.

5,200 Yen

HKS - Piston Ring Set

The HKS Piston Ring sets are available separately of the HKS Forged Piston Kits in a number of specifications.

In Stock and ready to ship!

from 12,128 Yen

JUN - Large Capacity Water Pump

The JUN large capacity water pump prevents overheating of high performance engines during racing or hard driving.

from 38,225 Yen

Mines - Triple Flow Cam Cover Baffle Plate

The Mines Triple Flow Cam Cover Baffle plate utilises a triple layer structure to separate the gas from the oil blow by, therefore reducing oil loss.

23,577 Yen

Moonface - Easy Throttle

The exquisite balance of the accelerator and the throttle position makes handling easy at street and sports running with high response is realized.

16,935 Yen

Mugen - Reserve Tank Cover

The Mugen reservoir tank cover provides a unique look in the engine bay combined with reducing fire risk from leaking fluids.

2,339 Yen

Mugen - Valve Spring

Mugen introduces Valve Springs, designed for N1 Production Race use.

from 39,270 Yen

Nismo - Repair Gasket Kit

The Nismo Repair Gasket Kit for the RB26DETT enables full replacement of all engine gaskets using genuine Nissan parts and the Nismo Metal Head Gasket

from 47,840 Yen

Sard - Battery Shift Case

The Sard battery shift case is manufactured from lightweight aluminium and is designed for easy and safe relocation of the battery.

30,307 Yen

Spoon - Reservoir Tank Cover

The Spoon reservoir tank cover prevents any drips of power steering or brake fluid from these reservoirs that can cause paint damage or fire.

1,905 Yen

Toda - Heavy Duty Timing Chain

The Toda Heavy Duty Timing Chain offers increased durability and resistance to stretch compared to the standard Honda timing chain.

from 12,764 Yen

Toda - Power Liner Kit

The Toda High Power Profile Piston's operate under both mechanical and heat stresses.

117,811 Yen

Toda - Timing Chain Tensioner

The Toda timing chain tensioner replaces the standard tensioner which can move under high stress conditions possibly resulting in engine damage.

16,200 Yen

Toda - Valve Spring Easy Changer

The Toda valve spring easy changer, as developed by a Toda mechanic, enables the easy replacement of valve springs without having to remove the head.

34,362 Yen

Tomei - Engine Assembly Paste

The Tomei Engine Assembly Paste has been designed to be applied on camshafts, pistons in the engines cylinder and working with any engine internals.

from 1,756 Yen

Tomei - Reinforced Washer

Tomei reinforced washers have applied SCM435 material making the washer 1mm thicker than stock to withstand extreme pressures,

from 870 Yen

ZeLe Performance - Titanium Engine Hood Support

The ZeLe Performance Titanium Engine Hood Support Bar has been finished in titanium blue for a unique high quality appearance to the engine bay.

38,462 Yen

Engine Belts & Pulley

C-One - Aluminium Crank Shaft Pulley

The C-One Aluminium crank shaft pulley significantly reduces the weight compared to standard, decreasing inertia and improving engine acceleration.

from 23,332 Yen

Fujita Engineering - Pulley Kit

The Fujita Engineering pulley kit features increased width and thickness for increased durability and pulley sizes designed for high revving.

42,231 Yen

Garage Saurus - Solid Crank Pulley

The Garage Saurus Solid Crank Pulley for the RB26DETT has been race proven for 10,000RPM levels, providing increased strength and durability.

101,641 Yen

HKS - Cam Pulley

HKS adjustable cam gears allow fine tune adjustments to cam timing for improved performance for the required conditions.

14,553 Yen

HKS - Cam Pulley - Duralumin

The HKS duralumin cam pulleys has been treated for increased harness and tensile strength to prevent wear after excessive use.

from 14,310 Yen

HKS - Crank Damper Pulley Kit

The HKS crank damper pulley kit is designed to protect RB26DETT engines from torsional vibration damage from RPM approaching 8000RPM.

from 110,082 Yen

HKS - Fine Tune Timing Belt

The HKS upgrade timing belt increases heat resistance, flexibility and durability using high quality materials.

from 5,200 Yen

JUN - Cam Pulleys

JUN cam pulleys enable adjustment of timing for improve engine performance and response as required.

from 15,708 Yen

Monster - Water Pump Pulley

The Monster water pump pulley offers increased engine power through reduced friction with its lightweight and attractive design.

from 11,882 Yen

Mugen - Compressor Belt

The Mugen compressor belt for the S2000 is higher performance with greater durability compared to the alternatives.

18,297 Yen

Power Enterprise - Fan Belt

The Power Enterprise fan belts provide an improved belt compared to the OEM models available - for longer lasting durability and improved performance.

from 3,688 Yen

Power Enterprise - Super Strong Timing Belt

The Power Enterprise super strong timing belt has four times the durability as does not slacken due to its unique structure.

In Stock and ready to ship!

from 4,436 Yen

Spoon - Cam Sprocket Set

The Spoon Cam sprocket set enables improved engine response and performance by adjusting the exhaust/intake cam overlap.

28,352 Yen

Suzuki Sport - Timing Belt

The Suzuki Sport timing belt uses high quality materials to ensure additional strength and durability under high load.

9,467 Yen

Toda - Adjustable Cam Pulleys

TODA Racing campulleys allow precise tuning of camshaft timing. Adjustable campulleys are essential when using Toda Camshafts.

from 13,976 Yen

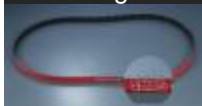

Toda - Free Adjusting Cam Gears

The Toda free adjusting cam gears enable adjustment of up to 1 degree whilst retaining the original scissor mechanism for the F20C.

from 13,745 Yen

Toda - High Power Timing Belt

The TODA timing belt is 200% stronger than the stock timing belt and is designed to protect your engine and improve its performance and consistency.

from 15,113 Yen

Toda - Ultra Light Weight Crank Pulley Kit

The Ultra Light Weight Crank Pulley Kit is designed to give lighter and sportier engine characteristic.

from 57,924 Yen

Tomei - Adjustable Cam Pulley

Tomei adjustable camgear pulley enables enhanced engine tuning for high performance Japanes vehicles.

from 14,784 Yen

Tomei - Strengthend Balancer Belt

Tomei strengthend balancer belt improves intensity by using Kevlar fiber on the timing belt surface thus prevents cutting and wear.

from 5,620 Yen

Tomei - Strengthened Timing Belt

Tomei strengthen timing belt has changed nylon belt surface of a standard article into the Kevlar fiber (Aramid), and raised the tensile strength.

from 11,088 Yen

Tomei - Timing Belt Guide

The Tomei Timing Belt Guide for the Subaru EJ20 and EJ25 engine series replaces the standard item with a high quality rigid aluminium guide.

4,511 Yen

Trust - Greddy - Cam Pulley

Trust Greddy cam pulleys enable minute adjustment for improved engine tuning and performance.

12,058 Yen

Trust - Greddy - Cam Sprocket

GREddy Cam Sprockets are adjustable, which allow for precise tuning of valve timing.

from 12,058 Yen

Trust - Greddy - Heavy Duty Timing belt

The Trust Greddy timing belt is engineered to increase heat-resistance, flexibility and durability.

from 10,644 Yen

Trust - Greddy - Pulley Kit

The Trust pulleys are made of billet aluminium and suit the water pump, power steering and the alternator.

from 12,936 Yen

Trust - Greddy - Pulley Kit - Oversized

The Trust Greddy pulleys are made from billet aluminium and suit the water pump, power steering and the alternator.

27,489 Yen

Yashio Factory - Super Water Pump Pulley

The Yashio Factory water pump pulley reduces the water pump speed to limit its speed to 6,000RPM ensuring optimal cooling

13,629 Yen

Engine Bolts & Bearings
Nismo - Engine Parts - RB26DETT

Nismo offer a number of internal engine parts for rebuilds which are stronger and longer lasting than the standard equivalents.

from 2,703 Yen

Toda - Main Bearing

The Toda Main Bearings have been developed from racing experience and offer increased durability and strength over the standard bearings.

7,560 Yen

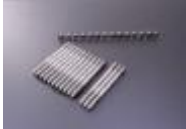

Tomei - Cam Bearing Cap Studs

Tomei cam bearing cap studs are made from chrome-moly and are equipped with a flat bottom, that allows 12.0mm of lift at 10000rpm

14,784 Yen

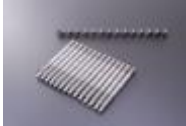

Tomei - Crank Bearing Cap Studs

Tomei crank bearing cap studs apply dynamic strength to the bolt thread so the force is dispersed to all screw threads.

48,972 Yen

Tomei - Head Studs

Tomei Head studs have been designed so that the bolting force is dispersed to all the screw threads and high bolting power is generated.

from 48,972 Yen

Trust - Greddy - Strong Bolt Set

The Trust Greddy strong bolt set secure strict metal clearance of the crankshaft during high load, enduring the force from bending or vibration.

from 4,938 Yen

Engine Camshafts

HKS - Camshafts - Mitsubishi

HKS high performance camshafts for Mitsubishi vehicles are CAD designed to optimize torque and horsepower.

from 34,419 Yen

HKS - Camshafts - Nissan

HKS high performance camshafts are CAD designed to optimize torque and horsepower for Nissan vehicles.

from 21,252 Yen

HKS - Camshafts - Toyota

HKS high performance camshafts for Toyota vehicles are CAD designed to optimize torque and horsepower.

from 31,416 Yen

HKS - V CAM System - Step 1 A & B

The HKS V Cam system inserts sequential intake variable valve timing not originally installed on the engine.

from 113,480 Yen

JUN - High Lift Camshaft - Mitsubishi 4G63 - La

The JUN High Lift Camshafts for the Mitsubishi 4G63 have been through extensive research and are designed for strength and durability.

from 41,525 Yen

JUN - High Lift Camshaft - Subaru EJ20

Jun camshafts are manufactured to the highest quality after extensive configuration testing on the compatible vehicle.

62,832 Yen

JUN - High Lift Camshaft Kit - Honda B16/B18

The Jun High Lift camshaft kit for the Honda B16 and B18 engine includes inlet and exhaust cams and Jun valve springs.

from 27,489 Yen

JUN - High Lift Camshaft Kit - Honda H22A

The Jun High Lift camshaft kit includes inlet and exhaust cams and Jun valve springs. The Stage 2 kits include Type 2 hardened retainers.

from 27,489 Yen

JUN - High Lift Camshaft Kit - Mitsubishi 4G63

The Jun High Lift camshaft kit for the Mitsubishi Evo 4G63 includes inlet and exhaust cams and Jun valve springs.

from 33,440 Yen

JUN - High Lift Camshaft Kit - Nissan SR20DE(T)

The JUN high lift camshaft kit replaces the inlet and exhaust cams, valve springs and valve retainers in some kits for a high performance head system.

from 27,489 Yen

JUN - High Lift Camshaft Kit - Nissan VG30DE(TT)

The Jun High Lift camshaft kit includes inlet and exhaust cams and Jun valve springs. The Stage 2 kits include Type 2 hardened retainers for racing.

from 54,978 Yen

JUN - High Lift Camshaft Kit - Toyota 2JZ-GTE

The Jun High Lift 2JZ camshaft kit includes inlet and exhaust cams and Jun valve springs.

from 27,489 Yen

JUN - High Lift Camshaft Kit - Toyota 3SG(TE)

High Lift Camshaft Kit - Toyota 3SG(TE)

from 34,298 Yen

JUN - High Lift Camshafts - Honda B16/B18

Jun uses several stages to select the most suitable combination for their Honda B16/B18 camshaft and accompanying parts.

from 45,155 Yen

JUN - High Lift Camshafts - Honda H22A

Jun uses several stages to select the most suitable combination for their Honda H22A camshaft and accompanying parts.

51,051 Yen

JUN - High Lift Camshafts - Honda K20A

The Jun high lift camshafts enable high performance from the Honda K20A, producing significantly more power than the standard camshafts.

from 27,489 Yen

JUN - High Lift Camshafts - Nissan RB20DE(T)

JUN high lift camshafts are available in a number of stages with various lifts and duration for the Nissan RB20DET engine.

45,155 Yen

JUN - High Lift Camshafts - Nissan RB26DETT

JUN high lift camshafts are available in a number of stages with various lifts and duration for the Nissan RB26DETT.

In Stock and ready to ship!

39,270 Yen

JUN - High Lift Camshafts - Nissan SR20DE(T)

JUN high lift camshafts are available in a number of stages with various lifts and duration for the Nissan SR20DET.

24,486 Yen

JUN - High Lift Camshafts - Nissan VG30DE(TT)

JUN high lift camshafts are available in a number of stages with various lifts and duration for the Nissan VG30DET.

106,029 Yen

JUN - High Lift Camshafts - Toyota 2JZ-GTE

Jun uses several stages for the 2JZ-GTE to select the most suitable combination for their camshaft and accompanying parts.

45,155 Yen

JUN - High Lift Camshafts - Toyota 3SG(T)E

JUN high lift camshafts are available in a number of stages with various lifts and duration for the Toyota 3S-GTE.

34,298 Yen

Spoon - High Camshaft

Spoon High camshafts improve engine response and overall power with increased lift and action angle.

from 42,528 Yen

Toda - High Power Profile Camshaft

TODA Racing uses the latest design and manufacturing technologies to produce their camshafts.

In Stock and ready to ship!

from 23,759 Yen

Tomei - Pon Camshafts

Tomei Poncam shafts enable greater tuning for high performance of your Japanese vehicle.

from 35,112 Yen

Tomei - Pon Camshafts + Pulley Set

Tomei cams and pulleys are among the buffest cams made in terms of HP gain and ease of install with many different configurations available.

from 64,680 Yen

Tomei - Pro Cam

Tomei Pro Cams are among the buffest cams made in terms of HP gain and ease of install with many different configurations available.

2 in Stock and ready to ship!

from 17,556 Yen

Tomei - Pro Cam + Adjust Pulley - Nissan SR20DE

Tomei Pro cams for the SR20DET are among the buffest cams made in terms of HP gain and ease of install with many different configurations available
64,680 Yen

Tomei - Pro Cam + Adjustable Pulley - Mitsubishi

The Tomei adjustable pulley and procam set combines the high specification procams with adjustable cam gears to enable fine tuning at a combined price

73,920 Yen

Tomei - Pro Cam + Adjustable Pulley - Nissan RB

Tomei cams are among the buffest cams made in terms of HP gain and ease of install with many different configurations available.

83,160 Yen

Tomei - Pro Cam + Adjustable Pulley - RB20/RB25

TOMEI cams are among the highest quality cams made in terms of HP gain and ease of install.

Tomei offer many different degrees of cams for the RB20/25

83,160 Yen

Trust - Greddy - Performance Camshaft - Easy

The Greddy performance camshaft Easy version has been designed to provide improved midrange torque and response, whilst enabling easy installation.

from 43,567 Yen

Engine Connecting Rods

Garage Saurus - VR38 884 Spec Connecting Rods

The Garage Saurus Nissan R35 GTR VR38 connecting rods have been designed to handle power increases up to 800hp with increased strength and low weight.

194,041 Yen

HKS - Connecting Rod

HKS connecting rods enable more than 600 horse power with increased durability and compatibility with normal pistons and cranks.

from 127,512 Yen

JUN - Super Connecting Rod

The Jun Super Connecting rods are designed for the highest performance NA and turbo engines with increased strength and reduced weight.

from 116,996 Yen

Nismo - GT Con Rod

Nismo GT conrods are available in two specifications for the RB26DETT and are stronger than standard for high performance engines.

from 18,596 Yen

Toda - Connecting Rods

The Toda Connecting Rods have been developed from GT Racing experience to offer high performance at high RPM whilst remaining durable in high stress.

64,797 Yen

Toda - I-Section Strengthened Connecting-Rods

The Toda I-Section strengthened connecting-rods provide additional strength for highly tuned and revving vehicles, whilst reducing weight.

45,161 Yen

Tomei - Forged H-Beam Conrods - Nissan CA, SR,

Tomei made super strong forged H-Beam conrods for high performance engines.

from 73,920 Yen

Tomei - Forged H-Beam Conrods - Nissan RB Engin

Tomei made super strong forged H-Beam conrods for high performance RB engines.

from 110,880 Yen

Tomei - Forged H-Beam Conrods - Nissan RB, VG To

Tomei forged H-Beam con-rods are available for a number of Nissan engines with high buckling strength and reduced weight.

from 110,880 Yen

Tomei - Reinforced Conrod Bolts

Tomei reinforced Conrod bolts can be used either with stock Conrods to raise its reliability or in the regular engine overhaul.

from 7,392 Yen

Trust - Greddy - Connecting Rods

The Trust Greddy connecting rods are made from nickel chrome-moly materials for low weight and increased strength.

from 158,298 Yen

Engine Crankshafts
Toda - Crank Pick Up Sensor Kit

Presenting the Crank Pick Up Sensor Kit from Toda Japan
84,235 Yen

Tomei - Forged Full-Counter Crankshaft - Nissan

The Tomei RB26 Forged full counter crankshaft is one of the highest quality crankshafts available, capable of 10000RPM and 1100PS.
480,480 Yen

Tomei - Forged Full-Counter Crankshaft - Nissan

The Tomei full-counter crankshaft is designed for vastly improved strength for heavily modified engines with larger power output.
210,672 Yen

Engine Covers

ARC - Titan Pulley Cover

The ARC Titan Pulley cover is the latest engine dress up parts from ARC, featuring high quality titanium.

17,372 Yen

ARC - Twin Cam Cover

The ARC twin cam cover is an engine bay rocker cover manufactured from the highest quality stainless steel or titanium for that ultimate in appearance

from 15,524 Yen

HKS Kansai - Carbon Plug Cover and Timing Belt

The HKS Kansai carbon plug and timing belt cover is constructed of the highest quality dry carbon with a clear coat finish.

36,004 Yen

J's Racing - SPL Head Cover

The J's Racing SPL head/rocker cover features a unique metallic green, showing a high performance engine lurks beneath.

35,200 Yen

JUN - Plug Cover Ornament

The JUN Plug Cover ornament improves the look of your engine bay and highlight the high quality JUN engine parts lurking inside.

from 14,663 Yen

M and M Honda - Blue Head Cover

The M and M Honda blue head cover improves your engine bay appearance with the unique blue finish.

35,924 Yen

Monster - Carbon Plug Cover

The Monster Carbon fiber plug cover offers a custom engine bay appearance to match the other high performance Monster parts in your engine bay.

12,705 Yen

Mugen - Formula Head Cover

The Mugen formula head cover improves the look of the engine bay for the customised look.
96,301 Yen

Mugen - Ignition Coil Cover

The Mugen ignition coil cover is manufactured from genuine carbon fibre and features a large Mugen logo for the high performance appearance
from 31,417 Yen

R's Racing Service - RRP Real Carbon Plug

The R's Racing Real Carbon Plug Cover replaces the standard plug cover with a high quality carbon item for the ultimate in engine bay appearance.

21,830 Yen

R's Racing Service - RRP Titanium Engine C

The R's Racing Titanium Engine Cover dresses up your engine bay with the unique blue flamed appearance and RRP logo.

10,188 Yen

Spoon - Carbon Plug Cover

The Spoon Carbon Plug cover matches the Spoon Yellow Head Cover perfectly to provide that unique aftermarket performance look.

12,151 Yen

Spoon - Yellow Head Cover

The Spoon Yellow Head Cover is painted in the customary spoon yellow for that high performance aftermarket look in your engine bay.

38,477 Yen

Suzuki Sport - Plug Cover

The Suzuki Sport replacement plug cover provides that custom look in the engine bay for perfectionist owners.

8,568 Yen

Tomei - Ornament Plate

The Tomei metal ornament plate (also known as a rocker or spark plug cover) for the SR20DET and RB26DETT engines provide that custom engine bay look.

In Stock and ready to ship!

9,055 Yen

Tomei - Ornament Plate

The Tomei ornamental plates dress up the engine bay for your Nissan Skyline GTR with RB26DETT engines.

9,055 Yen

Trust - Greddy - Clear Cam Cover

Trust Greddy clear cam covers enable you to see aftermarket bright cam pulleys on your engine for that custom look.

6,006 Yen

Weld - Heat Sink Cover - 1JZ

The Weld Heat Sink Cover is constructed from aluminium and features venting to improve heat dissipation from the engine bay.

from 16,188 Yen

ZeLe Performance - Dry Carbon Engine Cover

The ZeLe Carbon Fiber Engine Cover builds on the design of the factor item, finished in high quality dry carbon fibre.

134,304 Yen

Engine Fittings.

HKS - Reusable Aluminium Fitting - 120deg Elbow

HKS Reuseable Aluminum Fittings 120 Degrees Elbow in sizes 6, 8 and 10.

from 5,452 Yen

HKS - Reusable Aluminium Fitting - 150deg elbow

HKS Reuseable Aluminum Fitting, 150 Degrees Elbow in sizes 6 and 10.

from 5,368 Yen

HKS - Reusable Aluminium Fitting - 180deg Elbow

HKS Reuseable Aluminum Fitting, 180 degrees Elbow in sizes 6 and 10.

from 5,368 Yen

HKS - Reusable Aluminium Fitting - 90deg Elbow

HKS Reusable Aluminum Fitting 90 degrees Elbow in sizes 6 to 12.

from 5,032 Yen

HKS - Reusable Aluminium Fitting - Straight

HKS Reusable Straight Aluminum Fitting in sizes 4 to 16.

from 2,512 Yen

HKS - TFE Racing Hose

The HKS TFE racing hose is available in a number of sizes for high performance race use.

from 5,200 Yen

**Engine Forged Pistons
HKS - Forged Piston Kit**

HKS forged piston kits include rings, pins and retaining clips and are available in a number of sizes.

from 93,556 Yen

HKS - Piston & Connecting Rod Set

Whether you are looking at a forced induction VQ35DE or a high response naturally aspirated, HKS offer conrods and pistons for your requirements.

from 277,200 Yen

JUN - Piston Rings

Jun piston rings are of the highest quality perfect for the high performance engines producing a lot of horsepower.

from 4,851 Yen

JUN - Super Piston Kit

The Jun Super Piston Kit is manufactured by the English F1 engine maker Cosworth for one of the strongest piston kits available.

from 134,090 Yen

Suzuki Sport - Cappuccino Oversize Pistons

Suzuki Sports developed the oversize pistons to keep the excellent potential of the car, yet able to be tuned to new generation sport car.

102,994 Yen

Toda - High Comp Forged Piston Kit - F20C

The High Comp Forged Piston Kit has a Defric coating applied to the the piston skirt.

106,030 Yen

Toda - High Comp Piston Kit - 4AG AE111

The Toda High Compression Forged Piston Kit for the 5 Valve AE111 4AG engine features increased bore diameter and displacement.

95,033 Yen

Toda - High Comp Piston Kit - B16/B18

TODA Racing offers high compression forged pistons for the Honda B series DOHC VTEC engines.

95,033 Yen

Toda - High Power Profile Piston Kit

The Toda High Power Profile Piston Kit has been designed for increased strength, high RPM and complete balance for high performance in harsh condition

from 95,033 Yen

Tomei - Forged Piston Kit - Nissan RB20DET

Tomei RB20DET forged piston kits are made from alloy alluminium and can produce over 100hp per cylinder in high performance engines.

from 136,752 Yen

Tomei - Forged Piston Kit - Mitsubishi 4G63 22

Tomei 4G63 forged piston kits are made from alloy alluminium and can produce over 100hp per cylinder in high performance engines.

118,272 Yen

Tomei - Forged Piston Kit - Mitsubishi 4G63-Tur

Tomei 4G63 Turbo forged piston kits are made from alloy alluminium and can produce over 100hp per cylinder in high performance engines.

118,272 Yen

Tomei - Forged Piston Kit - Nissan CA18DET

Tomei CA18DET forged piston kits are made from alloy alluminium and can produce over 100hp per cylinder in high performance engines.

99,792 Yen

Tomei - Forged Piston Kit - Nissan RB25DET

The Tomei RB25DET forged piston kit enables performance of over 100hp per cylinder.

136,752 Yen

Tomei - Forged Piston Kit - Nissan RB26DETT

The Tomei RB26DETT forged piston kit enables performance of over 100hp per cylinder.
136,752 Yen

Tomei - Forged Piston Kit - Nissan RB26DETT - C

Tomei RB26DETT forged piston kits with cooling channels are made from alloy alluminium and can produce over 100hp per cylinder.
240,240 Yen

Tomei - Forged Piston Kit - Nissan SR20DET

Tomei SR20DET forged piston kits are made from alloy alluminium and can produce over 100hp per cylinder in high performance engines.
99,792 Yen

Tomei - Forged Piston Kit - Nissan SR20DET - Co

Tomei SR20DET forged piston kits are made from alloy alluminium and can produce over 100hp per cylinder and now also have cooling channels.
174,266 Yen

Tomei - Forged Piston Kit - Nissan SR20DET - RN

The Tomei Nissan Pulsar GTI-R RNN14 (SR20-DET) forged piston kit is available in 3 different bore specifications.
404,712 Yen

Tomei - Forged Piston Kit - Nissan VG30DETT

Tomei VG30DETT forged piston kits are made from alloy alluminium and can produce over 100hp per cylinder in high performance engines.
136,752 Yen

Tomei - Forged Piston Kit - Toyota 2JZ

The Tomei 2JZ forged piston kit enables performance of over 100hp per cylinder.
136,752 Yen

Tomei - Titanium Piston Ring

The Tomei titanium top piston ring is designed for increased strength, critical for preventing engine damage when building high performance engines.

22,176 Yen

Trust - Greddy - Forged Piston - Rings

The Greddy forged piston rings have been designed to match the forged piston kit for improved strength and durability in high stress conditions.

4,332 Yen

Trust - Greddy - Forged Piston Kit

The Trust Greddy forged piston kit includes a complete set of upgraded forged aluminium pistons, rings and wrist pins.

from 115,196 Yen

Engine Fuel System

HKS - Adjustable Fuel Pressure Regulator

The HKS adjustable FPR can be integrated into the factory fuel system to maintain necessary fuel pressure in high performance engines.

from 7,000 Yen

HKS - Fuel Pump

HKS fuel pumps offer sufficient fuel for high boost and horsepower applications where a constant high flow fuel supply is critical.

from 33,264 Yen

HKS - Fuel Rail Upgrade kits

The HKS fuel rail upgrade kit enables additional fuel supply to high performance engines.

from 25,872 Yen

HKS - Fuel Regulator Adaptor

The HKS Fuel Regulator Adaptor enables the fitment of a FPR to the standard fuel rail.

7,797 Yen

Mugen - Fuel Pressure Regulator

The Mugen fuel pressure regulator increases fuel pressure on the fuel rail for engines requiring additional fuel supply.

8,510 Yen

Mugen - Racing Fuel Pressure regulator

Mugen One Make Racing parts

28,830 Yen

Mugen - Racing Safety Tank

Mugen Racing Safety Tank

521,483 Yen

Nismo - Fuel Pump - Silvia

The Nismo Silvia high performance fuel pump increases fuel pressure 180% to 4.1L/min
In Stock and ready to ship!

33,472 Yen

Nismo - Fuel Pump - Skyline

The Nismo Skyline high flow fuel pump increases fuel rate by 125% to 4.6L/min.
from 33,472 Yen

Nismo - Fuel Pump - Stagea

The Nismo Stagea high flow fuel pump increases fuel rate by 125% to 4.6L/min.
37,191 Yen

Nismo - Fuel Regulator

Nismo high performance fuel regulator to ensure constant pressure to the fuel rail.
from 3,255 Yen

Power Enterprise - Fuel Pump

The Power Enterprise upgraded fuel pumps are capable of flowing between 130 to 210L an hour.

from 20,585 Yen

Sard - Fuel Collector Tank

The Sard general purpose 5 liter fuel collector tank ensures guaranteed fuel delivery for high performance drag and circuit vehicles.

from 21,252 Yen

Sard - Fuel Delivery Pipe

The Sard fuel delivery pipe are designed to properly supply the additional fuel needed for high boost and high performance vehicles.

22,176 Yen

Sard - Fuel Pump

The Sard fuel pump enables a high performance vehicle to be fed the fuel supply vital for high engine RPM.

from 7,854 Yen

Sard - Fuel Regulator - 8mm Nipple

The Sard fuel regulator allows use of a 8mm hose nipple or an AN#6 adaptor bolt for installation.

*Special*12,100 Yen

Sard - Fuel Regulator - Adapter

Introducing the Sard Fuel Regulator Adapter for installation of the aftermarket fuel regulator.

1,848 Yen

Sard - Fuel Regulator - Type-RJ

Sard Fuel Regulator to dampen the pressure spikes caused by high flow fuel pumps and cycling injectors.

*Special*25,000 Yen

Tomei - Delivery Pipe

Tomei fuel delivery pipe secures the performance indispensable to tuning engine, such as pipe capacity that sends in gasoline certainly even when over

25,872 Yen

Tomei - Fuel Pump - Nissan R34 GTT

The Tomei R34 GTT 540PS rated upgraded fuel pumps enables greater fuel pressure for high power engines.

33,264 Yen

Tomei - Fuel Pump - Nissan Skyline R32 GTR

The Tomei R32 GTR 590PS rated upgraded fuel pumps enables greater fuel pressure for high power engines.

36,960 Yen

Tomei - Fuel Pump - Nissan Skyline R32 GTS-t

The Tomei R32 GTS-t 540PS rated upgraded fuel pumps enables greater fuel pressure for high power engines.

33,264 Yen

Tomei - Fuel Pump - Nissan Skyline R33 GTR

The Tomei R33 GTR 590PS rated upgraded fuel pumps enables greater fuel pressure for high power engines.

36,960 Yen

Tomei - Fuel Pump - Nissan Skyline R33 GTS-t

The Tomei R33 GTS-t 540PS rated upgraded fuel pumps enables greater fuel pressure for high power engines.

33,264 Yen

Tomei - Fuel Pump - Nissan Skyline R34 GTR

The Tomei R34 GTR 590PS rated upgraded fuel pumps enables greater fuel pressure for high power engines.

36,960 Yen

Top Fuel - Power Neo

The Top Fuel Power Neo utilizes strong magnetic force on the fuel line to improve the fuel flowing within.

from 8,625 Yen

Trust - Greddy - Addition Injector Set

The Greddy Addition Injector Set is required when increasing supercharger pressure to 66.7kpa for the increase to 130kw of the Suzuki Swift.

35,251 Yen

Trust - Greddy - Fuel Delivery Tube

The Trust Greddy fuel delivery tube has a diameter of 10.5mm for standard injectors or 11mm for aftermarket.

22,638 Yen

Engine Gaskets

APEXi - Metal Head Gasket

The A'PEXi metal headgaskets provide upgraded protection

from 14,553 Yen

Garage Saurus - Saurus Super Gasket

The Garage Saurus Super Gasket for the Nissan FJ20DET has been designed to provide superior sealing power of the standard items.

from 32,341 Yen

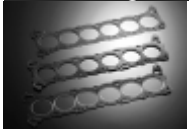

HKS - Bead Type Head gasket

HKS metal head gaskets are constructed from multiple layers of steel accomodating for oversized pistons and altered compression ratios.

from 11,262 Yen

HKS - Drag Metal Head Gasket Kit

The HKS Drag Metal Head Gasket has been designed specifically to handle high boost and high power for the Nissan RB26DETT engine.

32,918 Yen

HKS - Stopper Type Head Gasket

HKS metal head gaskets are constructed from multiple layers of steel to ensure proper head to block sealing

from 19,404 Yen

HKS - Stopper Type Head Gasket Kit

The HKS Stopper Type Head Gasket kit provides a full replacement gasket kit together with the stronger stopper type head gasket, designed for the GTR.

from 27,721 Yen

Monster - Head Gasket

The Monster metal head gasket enables increased engine performance without the risk of a blown head gasket.

24,486 Yen

Mugen - Metal Head Gasket

The Mugen Metal head gasket features a 2 layer metal construction of 0.5mm thickness for improved strength and engine sealing.

14,916 Yen

Nismo - GT Head Gasket

The Nismo GT head gasket is available in two thickness (1.2 and 1.8mm) and are perfect for use during engine rebuilds.

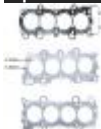

26,034 Yen

Power Enterprise - Head Gasket

Fuel burns at high Power enterprise; temperature of more than 2000°C
from 23,725 Yen

Spoon - 2P Head Gasket

The Spoon 2P head gasket is a 2 layer high performance head gasket offering improved strength and reduced height.

12,151 Yen

Toda - High Stopper Metal Head Gasket

The Toda High Stopper metal head gasket has been designed for easy replacement of the standard gasket or for increased compression ratio.

from 13,200 Yen

Tomei - Gasket Combination - Nissan RB26DETT

The Tomei RB26DETT gasket combination set includes a metal head gasket and other manifold gaskets giving increased strength and sealing.

31,416 Yen

Tomei - Head Gasket - Metal Super Grommet - Ni

Tomei RB25DET Super Grommet head gaskets are designed for higher performance and resistance to twisting and bending whilst increasing rigidity.

25,872 Yen

Tomei - Head Gasket - Metal Super Grommet - Ni

Tomei RB26DETT Super Grommet head gaskets are designed for higher performance and resistance to twisting and bending whilst increasing rigidity.

23,100 Yen

Tomei - Head Gasket - Metal Super Grommet - Nis

Tomei Super Grommet SR20DET head gaskets are designed for higher performance and resistance to twisting and bending whilst increasing rigidity.

20,328 Yen

Tomei - Head Gasket - Steel - Mitsubishi EVO 4G

Tomei stainless steel head gaskets for higher performance and resistance to twisting and bending whilst increasing rigidity for Mitsubishi vehicles.

25,872 Yen

Tomei - Head Gasket - Steel - Mitsubishi EVO 4G

Tomei stainless steel head gaskets for higher performance and resistance to twisting and bending whilst increasing rigidity for Evo IV-VII.

25,872 Yen

Tomei - Head Gasket - Steel - Nissan RB20DET

Tomei Nissan RB20DET head gaskets are designed for higher performance and resistance to twisting and bending whilst increasing rigidity.

from 20,328 Yen

Tomei - Head Gasket - Steel - Nissan SR20DET

Tomei Nissan SR20DET head gaskets are designed for higher performance and resistance to twisting and bending whilst increasing rigidity.

20,328 Yen

TRD - Metal Head Gasket

The TRD metal head gasket is a direct replacement for the factory head gasket and is better for higher cylinder pressure and heat.

from 6,512 Yen

ENGINE IGNITION

HKS - Circle Earth System

The HKS circle earth system improves idle and drivability by improving the earth grounding points throughout the engine.

15,523 Yen

HKS - Super Fire Racing

The HKS Super Fire spark plugs feature high quality Iridium performance, designed and tested to handle increased vehicle performance.

from 1,849 Yen

HKS - Twin Power

The Twin Power ignition amplifier incorporates both the CDI and transistor method

from 4,024 Yen

HKS - Twin Power - Harness

The HKS Twin Power harness enables the easy installation of the HKS Twin Power system.

from 4,024 Yen

Pivot - Raizin Volt Stabilizer - Blue

The Pivot Raizin Volt stabilizer increases electrical efficiency and stable voltage supply.

from 8,970 Yen

Splitfire - BMW Mini Cooper Coil packs

Conventional type of ignition system distributes electricity from an ignition coil

43,538 Yen

Splitfire - Coilpacks - BMW

Splitfire Coilpacks to suit most BMW's

51,282 Yen

Splitfire - Direct Ignition Bridge

The Splitfire direct ignition bridge improves ignition spark by using the Splitfire direct ignition bridge system.

20,664 Yen

Splitfire - Super Direct Di ignition system

Splitfire super direct ignition system is designed for high performance Japanese vehicles, increasing ignition performance.

In Stock and ready to ship!

Special from 30,350 Yen

Spoon - High Tension Leads

The Spoon high tension leads provide the ideal level of resistance to ensure a strong consistent spark to all cylinders.

24,302 Yen

Spoon - Racing Plugs

The Spoon racing spark plugs are designed for high performance circuit racing or fast street driving. The No 24 spark plugs are a good balance.

3,170 Yen

Sun Automobile - Hot Wires

The Sun Automobile Hot Wires include a built-in capacitor and increase spark strength resulting into a spark that can be 300 times more powerful.

from 19,286 Yen

Suzuki Sport - GTI Spark

Suzuki Sport GTI spark plugs are based on high quality NGK spark plugs and have been specified and designed for high performance engines.

1,806 Yen

Suzuki Sport - Racing Earth Line

The Suzuki Sport Racing Earth line improves electrical efficiency resulting in improved performance.

26,680 Yen

Suzuki Sport - Racing Plug Cord

The Suzuki Sport racing spark plug cord offers reduced resistance for a stronger spark and improved durability for longer lasting performance.

7,360 Yen

TRD - Iridium Spark Plug

The TRD Iridium spark plugs have been designed for high performance and high RPM engines by TRD.

2,033 Yen

Trust - Greddy - Racing Plug - Iridium

Trust Greddy racing plugs utilising iridium alloy are for standard to high performance engines.
1,427 Yen

Trust - Greddy - Racing Plug - Platinum

Trust GReddy Racing Spark Plugs are designed to reduce the excessive heat produced by heavily modified engines for optimum spark in harsh conditions.
1,964 Yen

ULTRA - Hyper Ignition System 8710

The Ultra 8710 Hyper Ignition System has an excellent ignition spark with the combined use of an exclusive IG coil, 20% more efficiency than standard.
20,212 Yen

ULTRA - Multi Discharge Ignition System

The Ultra MDI features a sharp and fast range response perfectly able to control multiple ignition sparks.
95,403 Yen

ULTRA - Semi Transistor Ignition System UTI-600

The Semi Transistor Ignition System has an excellent ignition spark with an ignition signal of one millionth of a second.
10,408 Yen

ULTRA - Silicone Power Plug Wire

The Ultra Silicone Power Plug wire enables high strength reliable spark, required for a high performance engine.
from 11,239 Yen

Engine Injectors Blitz - Fuel Injectors

Blitz high performance fuel injectors available for many Japanese vehicles.

from 9,021 Yen

Blitz - Fuel Injectors - Other Parts

The Blitz Fuel Injector other parts features collars, fuel hoses and couple sets to ensure easy trouble free installation of Blitz injectors.

from 423 Yen

HKS - Fuel Injectors

HKS upgraded fuel injectors are available in sizes from 450 to 1000cc in top or side feed configurations.

4 in Stock and ready to ship!

from 10,395 Yen

Nismo - High Performance Injectors

Nismo high performance injectors ensure the engine is force fed the fuel needed to ensure high performance with greater flow and no failure.

from 12,088 Yen

Power Enterprise - Injectors

Power Enterprise injectors are available in a large number of sizes in top feed or side feed configurations for high performance engines.

from 12,742 Yen

Sard - Injector Collar

Sard injector collars are required when installing a number of Sard aftermarket injectors.

from 9,240 Yen

Sard - Injectors

We now carry the full range of sard Injectors ranging from 550cc to 1000cc

from 9,364 Yen

Spoon - Injector Set

The Spoon injector set comprises of 4 replacement injectors which aid in the increase of torque and the reduction of fuel consumption.

68,854 Yen

Trust - Greddy - Injectors - 550cc

Greddy Top fed injector 550cc low resistance.

12,474 Yen

Engine Mounts & Dampers
C-One - Sports Engine Damper

The C-One Engine sports damper prevents engine vibration by controlling the engine movement in the engine bay.

from 24,668 Yen

C-One - Sports Engine Mount

The C-One sports engine mounts replace the standard mounts with strengthened rubber for improved rigidity and more direct transmission of power.

from 19,635 Yen

FEEL'S - Engine Swing Stopper

The FEEL'S Engine Swing stopper, also known as an engine damper, reduces the engine movement in the engine bay.

from 22,889 Yen

Fujita Engineering - Engine Mount Set

The Fujita Engineering engine mount set enables less movement of the engine when under power, this improves response of the engine to the ground.

86,684 Yen

J's Racing - Engine Mount Set

The J's Racing engine mount set increases hardness by 20% for improved acceleration response.

41,800 Yen

J's Racing - Engine Torque Damper

The J's racing engine torque damper reduces transmission stress by preventing engine vibration at high RPM ensuring more direct and efficient power.

from 21,780 Yen

Kazama - Engine & Transmission Mounts

The Kazama Engine and Transmission mounts utilise strengthened hyper rubber for increased rigidity and reduced engine and transmission movement.

57,000 Yen

M and M Honda - Engine Damper

The M and M Honda engine torque damper prevents large engine movement through a damper connecting the engine to the chassis.

from 20,528 Yen

Mugen - Engine Mounts

The Mugen engine mounts feature increased mounting angle and strengthened rubber.

from 10,419 Yen

Nismo - Engine Mounts

Nismo engine mounts are 30 to 40% stiffer than standard reducing engine shake at idle and transmission shake at high rpm.

from 3,520 Yen

Silk Road - Engine Torque Damper

The Silk Road engine torque damper helps to reduce engine twist and movement under extreme driving conditions.

from 17,556 Yen

Spoon - Engine Mount Ring

The Spoon engine mount ring is used for mounting the engine to the chassis with less flex, thus preventing unwanted engine vibration.

14,176 Yen

Spoon - Engine Torque Damper

The Spoon Engine Torque Damper adds to the rigidity of the Spoon Engine Mounts to significantly reduce engine vibration during high load conditions.

20,050 Yen

Spoon - Engine Transmission Mount Set

The Spoon engine transmission mount set are solid rubber for reduced engine vibration when under high load conditions.

from 32,402 Yen

Suzuki Sport - Strengthened Engine Mounts

The Suzuki Sport strengthened engine mounts improve power transfer from the engine to the wheels by reducing the flex in the engine mounts.

65,803 Yen

TRD - Engine Mounts

TRD Engine mounts prevents engine movement to enable high performance driving.
from 4,948 Yen

Engine Oil Parts
ARC - Oil Pan Upgrade

The ARC Oil Pan upgrade increases the oil pan capacity above standard up to 830cc for improved oil stability.

from 32,156 Yen

Border Racing - Oil Catch Tank

The Border Racing Oil Catch Tank has been designed for effective use for high boost vehicles and is easily installed in the engine bay.

from 28,804 Yen

Carbing - Oil Catch Tank

CARBING's Oil Catch Tanks come in two different types to suit various models.

19,631 Yen

Cusco - Oil Catch Tank

The Cusco oil catch tank captures any excess oily air in the cylinder head in the tank and enables manual removal.

from 8,264 Yen

HKS - Oil Line Filter

The HKS oil line filter filters any unwanted material from reaching critical engine components such as turbochargers.

5,872 Yen

J's Racing - Oil Catch Tank

The J's Racing Oil catch tank catches oil blow-by which can occur at high RPM in circuit driving conditions.

from 22,933 Yen

J's Racing - Oil Filter Stopper

Specifically manufactured with the S2000 F20C and F22C engines, the J's Racing oil filter stopper prevents the movement of the oil filter.

9,879 Yen

JUN - Baffled Oil Pan

The JUN Baffled oil pan ensures oil starvation does not occur in high G force cornering, braking or acceleration by the use of internal baffle plates.

41,228 Yen

JUN - High Flow Oil Pump

The JUN high flow oil pump is designed for high performance engines where oil is critical for reliability and longevity.

96,206 Yen

JUN - Oil Pan Baffle Plate

The JUN oil baffle plate ensures oil circulation for the RB26 engine during high performance cornering on the street or race track.

38,225 Yen

JUN - Oil Pump Collar Drive

The JUN oil pump collar drive prevents the oil pump from being damaged on early model RB26 engines.

13,739 Yen

Monster - Oil Cutter

The Monster oil cutter reduces the oil that follows the rotation of the crankshaft. This reduces the oil based friction on the crankshaft.

from 26,444 Yen

Moonface - Light Weight Filler Bolt

The Moonface Light Weight Filler Bolt

2,703 Yen

Moonface - Mag Drain Bolt

The Moonface Mag Drain Bolt prevents costly engine damage through metal particles floating throughout the oil.

2 in Stock and ready to ship!

from 2,360 Yen

Mugen - Hi-Performance Oil Element

The Mugen high performance oil filter element offers reduced oil pressure loss whilst maintaining effective filtration compared to standard.

3,807 Yen

Mugen - Oil Catch Tank

Mugen introduces the Oil Catch Tank for production race use.

from 24,545 Yen

Mugen - Oil Pan

The Mugen Oil pan reduces oil movement when under increased force from heavy cornering and acceleration.

from 28,681 Yen

Nengun - Universal Oil Catch Tank

The Nengun oil catch tank captures any excess oily air in the cylinder head in the tank and enables manual removal.

2 in Stock and ready to ship!

6,580 Yen

Nismo - Oil Pump

The nismo high performance oil pump for GTR skylines are designed to increase flowrate and maintain oil pressure during high performance drivings.

89,258 Yen

Nismo - Oil Separator

The Nismo Oil Separator kit enables separation of oil and air for Skyline GTR vehicles.

44,258 Yen

Nismo - VERUSPEED Oil Filter

Nismo VERUSPEED oil filter features 21% reduced pressure loss whilst increasing filtration by 24%.

from 1,891 Yen

Power Enterprise - Mag II Oil Filter

The Power enterprise Mag II oil filter greatly reduces oil contamination and is used by most top Japanese tuner and race teams.

In Stock and ready to ship!

3,324 Yen

Power Filter - Ti 100 - Oil Filter

The Power Filter Ti100 oil filter as developed by Monster Sports features a high performance titane fibre paper filter.

2,730 Yen

Sard - Drain Plug MAG+

The Sard Drain Plug MAG+ features a magnetic tip to attract unwatched metallic particles away from the engine therefore preventing expensive damage.

1,663 Yen

Sard - Oil Catch Tank

The Sard oil catch tank works and functions like a crankcase vent filter
from 9,232 Yen

Sard - Oil Filter Movement Kit

The Sard Oil Filter Movement Block Kit is a quality product
from 168 Yen

Spoon - Magnetic Drain Set

The Spoon Magnetic Drain Bolt Set uses a magnetic bolt to capture any metallic fragments in your engine away from the delicate engine internals.

from 2,628 Yen

Suzuki Sport - Oil Drain Plug

The Suzuki Sport oil drain plug ensures iron powder accumulated in the oil pan is drawn away from the engine with a unique alnico high power magnetic.

1,208 Yen

TM Square - Oil Pan Baffle Plate

The TM Square Oil Pan Baffle Plate is a low cost option to prevent high cost engine damage when using the Suzuki Swift M16A on the circuit.

27,490 Yen

Toda - Anti G-Force Oil Pan

The Toda baffled oil pan reduces the risk of oil starvation during high G cornering, such as circuit or cornering at high speeds when street driving.

from 24,302 Yen

ENGINE OIL PARTS

Toda - Heavy Duty Oil Pump

The Toda Heavy Duty Oil Pump upgrades the standard item for increased durability and high speed reliability in harsh conditions.

from 21,599 Yen

Tomei - Baffle Stiffener

The Tomei Baffle stiffeners ensures improved regulation of oil supply to prevent oil starvation during high stress conditions.

25,872 Yen

Tomei - N2 Oil Block

The Tomei N2 oil block replaces the oil filter or sandwich plate and enables convenient and fast remote connection.

18,295 Yen

Tomei - Oil Baffle Plate

The Tomei movable baffle plate is made to achieve stable oil lubrication at any situations such as curving, acceleration, and deceleration.

13,860 Yen

Tomei - Oil Gallery Orifice

Tomei oil gallery orifice controls amount of flowing engine oil that is delivered to lubricate the engine.

762 Yen

Tomei - Oversize Oil Pan

Tomei developed oversize oil pan for SR20 and installed to our N2 racing silvia to prove its highest performance.

26,796 Yen

Tomei - Oversize Oil Pump

The Tomei oversize oil pump applied extra large pump gear that is made of high-strength material to let it breath enough amount and pressure of oil.

127,512 Yen

TRD - Sports Oil Filter

The TRD Sports Oil Filter achieves high filtration efficiency, reducing compression loss, and exhibits high engine protection characteristics.

from 3,100 Yen

Trust - Greddy - Large Oil Pump

The Trust Grex oil pump ensures and guarantees the emission quantity at the time of high turning of the engine.

108,282 Yen

Trust - Greddy - Oil Catch Tank - 1000

The Trust Greddy Oil Catch Tank catches oil and moisture in the blow-by gas that causes carbon and sludge build-up in the intake system and engine.

from 7,358 Yen

Trust - Greddy - Oil Filter

The Trust Greddy advanced Oil Filter uses double pleated snapping which allows it to expand to collect residue.

from 780 Yen

Trust - Greddy - Oil Filter - Moval Kit

The Trust Greddy oil filter moval kit enables you to relocate the factory oil filter for easy maintenance with a custom look.

19,404 Yen

Trust - Greddy - Oil Pan Upgrade Kit

The Trust Greddy oil pan upgrade kit uses a baffle to prevent oil from leaning or jumping during head cornering, acceleration or deceleration.

31,601 Yen

Engine Stroker Kits

HKS - Stroker Kit - 4G63 - 2.3R

The HKS stroker kit developed from the CT230R has been designed to enable increased performance with large size turbos.

563,063 Yen

HKS - Stroker Kit - Nissan SR20DET - 2.2L

The HKS SR20DET 2.2L stroker kit dramatically improve torque and capability for high horsepower and was used by HKS in the D1 GP.

412,000 Yen

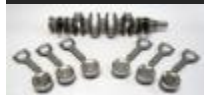

HKS - Stroker Kit - Subaru EJ20 - 2.2L

The HKS Stroker Kit for the Subaru EJ20 increases capacity to 2.2L for increased torque and improved power.

from 136,752 Yen

HKS - Stroker Kit - Toyota 2JZ-GTE - 3.4L

Suited to drag racing, the HKS 2JZ 3.4L stroker kit improves torque and increases overall horsepower output with additional capacity.

953,610 Yen

JUN - Stroker Kit - Honda B16A

The Jun stroker kit for the Honda B16A engine increase capacity to 1.8L with replaced forged pistons, crankshaft and connecting rods.

357,588 Yen

JUN - Stroker Kit - Honda B16B/B18C

The Jun stroker kit for the Honda B16B and B18C engines increase capacity to 2L with replaced forged pistons, crankshaft and connecting rods.

from 377,454 Yen

JUN - Stroker Kit - Mitsubishi 4G63 - 2.2L

The Jun Mitsubishi 4G63 stroker kit features an increased capacity to 2.2L using a long stroker crankshaft and Jun Super Forged pistons.

694,265 Yen

JUN - Stroker Kit - Nissan RB26DETT - 2.7L

The Jun stroker kit consists of a long stroke crankshaft and Jun forged pistons as manufactured by Cosworth.

from 417,186 Yen

JUN - Stroker Kit - Nissan SR20DET - 2.2L

The Jun 2.2L stroker kit for the Nissan SR20 engine has been designed for increased strength and high balance for extreme usage in circuit and drag.

from 476,784 Yen

JUN - Stroker Kit - Nissan VG30DETT

The Jun stroker kit increases displacement to 3247cc and therefore provides additional power, increased torque and improved response.

1,191,960 Yen

JUN - Stroker Kit - Nissan VQ35DE

The Jun Auto stroker kit increases displacement to 3.8L and combined with the Jun pistons, rods and crankshaft lower the compression ratio.

from 834,372 Yen

JUN - Stroker Kit - Subaru EJ20/EJ25

The Jun stroker kits comprise of a long stroke crankshaft and Jun forged aluminium pistons as manufactured by Cosworth.

from 576,114 Yen

JUN - Stroker Kit - Toyota 2JZ-GTE

The Jun Stroker Kit increases the 2JZ-GTE capacity to 3.2 litres offering increased power and torque capabilities.

993,300 Yen

JUN - Stroker Kit - Toyota 3S-GTE

The JUN Custom Kit is composed of long stroker camshafts and JUN Super Forged aluminium pistons.

from 437,691 Yen

Spoon - F20C 2.2L Engine Kit

The Spoon F20C 2.2L engine kit offers a complete set of engine internals for the upgrade of your engine capacity to 2.2L.

139,731 Yen

Tomei - Stroker Kit - Nissan Silvia - SR22

The Tomei SR22 stroker kit for the SR20 engine increases capacity and strength for increased torque and potential power output.

from 282,744 Yen

Tomei - Stroker Kit - Nissan Skyline - RB25/26

The Tomei stoker kit increases capacity to 2.8L with forged internals for high performance applications.

from 33,264 Yen

Tomei - Stroker Kit - Subaru Impreza - EJ22

The Tomei Stroker Kit for the Subaru EJ20 increases capacity to 2.2L for increased torque and ability to safely develop the highest levels of power.

from 310,328 Yen

Engine Valvetrain

HKS - High-RPM Head Systems - Nissan SR20DET

The HKS head systems, including valve springs, solid lifters and seals for the Nissan SR20DET engine enabling the engine to rev up to 9000RPM safely.

from 115,500 Yen

HKS - Valve Guide

The HKS valve guides are manufactured out of phosphorus bronze for superior thermal conductivity and strength at high temperatures.

39,732 Yen

HKS - Valve Spring

HKS valve springs are designed for use with HKS camshafts for high revving engines reducing valve-float and providing greater durability.

from 11,088 Yen

HKS - Valve Stem Seal

The HKS valve stem seals ensure oil does not fall as experience with the HKS Drag GTR.

11,088 Yen

JUN - Racing Valve Spring

JUN racing valve springs increase durability and does not have degradation during high rotation.

from 18,590 Yen

JUN - Strengthened Valve Guide

The Jun strengthened valve guides prevent damage to the valve guides when used under high heat and mechanical load in highly tuned high RPM engines.

from 25,058 Yen

JUN - Titanium Valve Retainer

JUN titanium valve retainers has been developed for both strength and light weight for improved reliability at high RPM

from 43,197 Yen

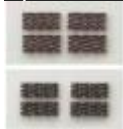

Spoon - Polished Valve Set

The Spoon polished valve set enables improved engine performance through the reduction of weight and the smooth finish enabling improved flow.

75,768 Yen

Spoon - Valve Spring Set

The Spoon valve spring set improves spring strength and ability to produce high revolutions and thus higher performance.

44,553 Yen

Toda - Rocker Arm Plugs + Spacers

The Toda Rocker Arm Plugs and Spacers are combined with the VTEC Killer Camshafts to offer race level performance and reliability.

from 1,081 Yen

Toda - Spool Valve Cover

The Toda spool Valve Cover is combined with the VTEC Killer Camshafts from Toda to offer race engine performance.

21,599 Yen

Toda - Valve Guide

Toda valve guides have been developed from racing experience and development by Toda to ensure the highest quality and most durable valve guides.

from 2,160 Yen

Toda - Valve Springs

The Toda valve springs have been especially designed to enable increased lift with reduced weight for high performance modified engines.

from 21,599 Yen

Tomei - Bery Ring

. Copper has one of the highest thermal conductivities

55,440 Yen

Tomei - Rocker Arm Stopper

The Tomei rocker arm stopper is the part which holds the lash adjuster side of rocker arm with fixed clearance,

5,544 Yen

Tomei - Solid Pivot & Test Shim

Tomei have adopted a solid pivot system to enable cam clearance adjustment, while keeping the total height of pivot of each cylinder fixed.

from 9,316 Yen

Tomei - Titanium Valve Spring Retainer Set

Tomei Introduce the Titanium Valve Spring Retainer

29,568 Yen

Tomei - Valve Guide

Tomei valve guides brings about the greatest effects thus the stress fall of valve system, valve stick prevention, and valve guide crack prevention.

from 22,176 Yen

Tomei - Valve Lifters

Tomei valve lifters are cold forged for high strength whilst still maintaining light weight compared to standard lifters.

from 8,316 Yen

Tomei - Valve Springs

Tomei valve springs are of the highest quality required for high powered high RPM tuned engines.

2 in Stock and ready to ship!

from 18,480 Yen

TRD - Valve Train System - 4A-GE

The TRD Valve Train System for the 4A-GE upgrades the standard valve train for increased performance and durability in demanding conditions.

from 925 Yen

Trust - Greddy - Rocker Arm Stopper

The Trust Greddy rocker arm stopper is the part which holds the lash adjuster side of Rocker arm with fixed clearance.

6,237 Yen

Trust - Greddy - Valve Springs

Trust Grex valve springs are SWCO-V silicon chrome reinforced to withstand the high speed revolution encounter in the rotating cam shafts.
from 17,464 Yen

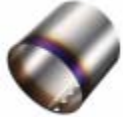

Other Exhaust
APEXi - Exhaust Control Valve

The Apexi ECV allows control of the loudness of your exhaust sound by limiting exhaust gas flow when not required.

from 13,860 Yen

APEXi - Titanium Slide Finisher

The Apexi Titanium slide finisher enables you to add the unique burnt titanium finish to your existing tail muffler.

from 6,593 Yen

Fujita Engineering - Sonic PP - Midpipe

The Fujita Engineering Sonic PP Midpipe replaces the catalytic converter with the silencer for improved exhaust flow without a large volume.

49,788 Yen

Fujitsubo - Rainbow Finisher

The Fujitsubo rainbow finisher finishes off your exhaust system with a custom titanium finish.

from 12,432 Yen

HKS - Bumper Protector

The HKS Bumper Protector ensures protection of the rear bumper from the hot exhaust pipe, and impresses with its stainless steel polished appearance.

from 15,442 Yen

HKS Kansai - R Titan Dual Exhaust Muffler

KS Kansai Introduce the Brand New

441,331 Yen

Kakimoto Racing - 90 - 80mm Flange

The Kakimoto racing flange set enables the conversion of 80 - 90mm piping for large exhaust installatios on performance engines.

11,198 Yen

Kakimoto Racing - Center Pipe

The Kakimoto Center pipe, available for certain vehicles, offers improved exhaust performance through larger diameter piping.

from 26,213 Yen

Kakimoto Racing - Muffler Gasket

The Kakimoto Muffler Gaskets are designed to replace the standard gaskets to ensure proper seal when replacing or reinstalling exhaust components.

1,056 Yen

Monster - Heat Shield

The Monster heat shield is constructed from titanium offering reduced weight but increased heat resistance and durability over standard.

12,584 Yen

Monster - Single Muffler Bezel

The Monster single muffler bezel enables conversion of dual to single muffler exhaust systems by covering the gap left on the drivers side.

11,319 Yen

Mugen - Sports Exhaust System - Accord

The Mugen Sports Exhaust System is a high quality sports exhaust system designed for increased performance and improved exhaust sound.

176,715 Yen

R's Racing Service - RRP High Performance

The R's Racing High Performance Center pipe is fully stainless steel with diameters designed for high performance.

from 40,541 Yen

Spoon - Exhaust B-Pipe

The Spoon exhaust B-Pipe enhances the performance of your Honda vehicle with an increased diameter and improved free flowing design.

35,440 Yen

Spoon - Heat Barrier Tape

Spoon heat barrier tape has been designed to be applied directly to the oil pan to reduce heat transfer.

2,808 Yen

Tomei - EAI Joint Pipe

The Tomei EAI joint pipe is used with extension pipes to retain factory piping.

1,386 Yen

Tomei - Exhaust Gasket

The Tomei metal exhaust gasket has been constructed using bead type aluminium for high surface pressure guaranteed to prevent exhaust leaks.

9,055 Yen

Zee's - Cyber GT

Zee's has designed the Cyber GT Exhaust to produce the loudest sound made with high quality materials.

from 91,770 Yen

ZeLe Performance - FZ-Titanium Muffler Type2

The ZeLe FZ-Titanium Muffler Type2 is a full titanium cat-back muffler offering the highest of performance with significant weight reduction.

483,888 Yen

Exhaust Catalytic Converters
APEXi - Super Catalyzer

The Apexi super catalyzer provides high efficiency while still meeting exhaust emission and safety standards.

Special from 67,914 Yen

FEEL'S - Super Metal Catalyst

The Feel's Super Metal Catalyst has been designed to ensure exhaust gas is clean whilst high flowing.

115,317 Yen

Fujita Engineering - Twin Catalyzer

The Fujita Engineering twin catalyzer enables much higher exhaust flow whilst staying legal by keeping the catalytic converter.

311,170 Yen

HKS - Metal Catalyzer

The HKS Metal Catalyzer is a high performance replacement for the standard metal catalyzer for improved performance and exhaust flow.

from 58,906 Yen

Knight Sports - Metal Super Catalyzer

The Knight Sports Metal Super Catalyzer features a 200CPSI cell density and reduced surface area to reduce restriction in the exhaust system.

from 92,400 Yen

Moonface - Sports Catalyzer

The world of more power & high response by the engine parts making a point of performance.

61,388 Yen

Sard - Sports Catalyzer

The Sard sports catalyzer is designed for super high flow for maximum exhaust gas flow.

from 57,915 Yen

Technica Sports - Circuit Converter

Technica Sport has introduced a Circuit Converter kit designed for cars racing on the circuit.
from 12,800 Yen

Toda - Catalyst Adapter

The Toda catalytic converter replacement adapter is for racing use only, but enables the ultimate in exhaust flow for high performance racing.
27,000 Yen

Exhaust Extensions & Dump Pipes Garage HRS - Extension Pipe

The Garage HRS extension pipe has been designed and constructed using a casting, enabling the maximum flexibility and durability.

28,865 Yen

Garage Saurus - Power Ex - EX-FR Pipe

The Garage Saurus EX-FR pipes for the R35 GTR replace the standard extension/front pipes, replacing the catalytic converter and enabling high power.

147,840 Yen

HKS - Extension Kit

The HKS extension kit separates the main and bypass manifolds reducing turbulence and increasing efficiency for exhaust flow.

26,950 Yen

HKS - Extension Kit - GTR

The HKS extension kit for Nissan Skyline GTR separates the main and bypass manifolds reducing turbulence and increasing efficiency for exhaust flow.

52,000 Yen

HKS - GT Extension Kit

The HKS GT Extension pipe includes a extension pipe that separates turbo and wastegate exhaust flows and a high quality front pipe for improved power.

from 56,307 Yen

HKS - Stainless Steel Centre Pipe

HKS introduce the Stainless Steel Centre Pipe

44,906 Yen

HPI - Turbo Outlet

The HPI turbo outlet has been designed for maximum exhaust flow for improved turbine performance.

from 33,869 Yen

Mines - Super Outlet Pro

The Mines Super Outlet pro has been designed to improve turbine outlet exhaust efficiency for improve turbo response and outright power.

58,941 Yen

Mines - Super Outlet Pro II

The Mines Super Outlet Pro II has been designed to suit an upgraded turbo, with pipe diameter increased to 70mm for increased performance and response

104,782 Yen

Night Pager - Extension Screamer Pipe

The Night Pager extension pipe features an atmospherically venting screamer pipe from the turbine wastegate.

from 38,477 Yen

Nismo - Exhaust Outlet Set

The Nismo exhaust outlet sets improve performance and response by lowering exhaust pressure with an outlet larger in diameter.

from 90,552 Yen

Power Enterprise - Outlet Pipe - BNR32/BCNR33

The Power Enterprise outlet pipe for the Nissan Skyline has a diameter of 76.3mm and enables improved efficiency of turbocharges.

62,832 Yen

Power Enterprise - Outlet Pipe - S14/S15

The Power Enterprise outlet pipe for the Nissan Silvia has a diameter of 70mm and enables improved efficiency of turbocharges.

31,416 Yen

Tomei - Expreme - Extension Pipe - Nissan Silvi

The Tomei expreme extension pipe for the Nissan Silvia is the ultimate Tomei extension pipe available for turbo engines.

from 19,058 Yen

Tomei - Extension Pipe - Nissan Skyline GTR

Tomei GTR Extension pipes or commonly known as Dumps Pipes are larger in diameter and add greater performance in the exhaust efficiency.

51,109 Yen

Tomei - Outlet Component - Mitsubishi Evo

The Tomei extreme outlet component set for the Mitsubishi Evo has been developed after more than a year of research by the highly Tomei staff.

49,377 Yen

Trust - Greddy - Turbine Outlet

The Trust Greddy turbine outlet provides high flow from the turbo improving the turbo efficiency and performance.

19,958 Yen

Exhaust Front Pipes
AutoExe - Front Pipe

The AutoExe Front pipe is a high quality front pipe for the RX7 in hand welded high quality stainless steel.

80,750 Yen

Blitz - Front Pipe

The Blitz front pipe runs from the dump or extension pipe through to the catalytic converter for higher flow without turbulence.

from 14,249 Yen

C-One - SPL Front Pipe

The C-One SPL Front pipe increases the diameter over standard to 76mm and constructed from high quality stainless steel offers improved boost response

63,308 Yen

Fujita Engineering - Sonic Front Pipe

The Fujita Engineering stainless steel front pipe has been designed to improve the build up of boost as revs increase and reduce back pressure.

75,570 Yen

Fujitsubo - Frontpipe

The Fujitsubo front pipe has been developed for improved torque and performance.

from 44,793 Yen

HKS - Polished Front Pipe

HKS For maximum exhaust flow and quicker turbo spool up

2 in Stock and ready to ship!

from 11,834 Yen

HKS - Stainless Front Pipe

For maximum exhaust flow and quicker turbo spool up

from 26,565 Yen

HKS - Stainless Front Pipe - GTR

The HKS stainless steel front pipe is designed for maximum exhaust flow for improved turbo response.

54,096 Yen

HKS Kansai - Sports Front Pipe

The HKS Kansai Sports Front Pipe features stainless steel construction and straight design for improved engine power output and response.

69,069 Yen

J Speed - Front Pipe

The J Speed Front pipe features a high quality design, with separated dump pipe and high quality welds to ensure durability and performance.

73,899 Yen

J's Racing - Front Pipe

The J's Racing front pipe replaces the standard front pipe with high quality and improved design for increased exhaust flow and improved performance.

from 41,161 Yen

Kakimoto Racing - Front Pipe

The Kakimoto Racing stainless steel front pipe features an improved design and increased diameter for increased performance.

from 21,021 Yen

Mines - Front Pipe

The Mines Front Pipe has been designed for improved power and torque to maximum engine performance.

from 38,103 Yen

Mines - Front Pipe - Pro

The Mines Front Pipe Pro features the highest of quality stainless steel construction with 2x 70mm pipes combined into the single 80mm outlet.

92,876 Yen

Mines - Front Pipe - Pro Titan

The Mines Front Pipe Pro titan is the ultimate front pipe for the GTR, featuring titanium professional specification.

200,038 Yen

Monster - Front Pipe

high Monster uses quality stainless steel SUS304.

35,990 Yen

Moonface - Exhaust Chamber

The Moonface exhaust chamber is a unique oval chamber shaped front pipe which draws out power, response and a unique turbo sound.

43,395 Yen

Moonface - Exhaust Chamber Pro

The Moonface exhaust chamber pro is a unique oval chamber shaped front pipe which draws out power, response and a unique turbo sound.

57,768 Yen

R's Racing Service - Super Front Pipe Kit

The R's Racing Service Super Front Pipe Kit has been newly developed to provide the highest level of exhaust efficiency with a sports racing sound.

from 15,282 Yen

Sun Line Racing - GTspec Front Pipe - Titanium

The Sun Line Racing GTspec Front pipe has been constructed in titanium for reduced weight and designed for improved exhaust flow and greater power.

from 112,266 Yen

Syms - Front Pipe

The Syms front pipe replaces the standard front pipe with a stainless steel item designed for increased power output and engine response.

from 61,447 Yen

Tomei - Expreme - Front Pipe - Subaru WRX

The Tomei Expreme combined front/dump pipe runs from the turbo back to the exhaust system and is available with and without a catalytic converter.

from 40,714 Yen

Trust - Greddy - Extention Front Pipe

Greddy Extensions pipes start where the HKS pipes finish and are built to handle over 700ps out of stainless steel.

from 72,349 Yen

Exhaust Headers & Manifolds
5zigen - Header

The 5zigen exhaust manifold has been designed to improve midrange to high end torque and power output using an advanced TIG welded 4-2-1 pipe design.
from 48,511 Yen

5zigen - Pro Racer - Header

The 5zigen Pro Racer exhaust manifold has been designed to improve midrange to high end torque and power output using a TIG welded 4-2-1 piping.
from 50,391 Yen

5zigen - Pro Racer - Race Headers

The 5zigen race headers have been designed for competition use with high response and superior durability.
105,841 Yen

Beatrush - Exhaust Manifold Heat Plate

The Beatrush exhaust manifold heat plate by Laile is manufactured from quality stainless steel protecting the engine bay from heat radiation.
11,567 Yen

C-One - Exhaust Manifold

C-One exhaust manifolds are manufactured to the highest quality for Toyota vehicles.
145,530 Yen

Cusco - Exhaust Manifold

The Cusco stainless steel exhaust manifold offers increased exhaust flow and power output compared to standard with a high quality aftermarket look.
101,178 Yen

Fujitsubo - Super Ex

The Fujitsubo Super Ex exhaust manifold increase exhaust efficiency and improves engine response with superior design.
from 57,477 Yen

Garage HRS - Exhaust Manifold - Pro

The Garage HRS Pro Exhaust Manifold is designed for high horsepower, large turbo 4G63 engines with a 45mm pipe diameter.

96,212 Yen

Garage HRS - Exhaust Manifold - Standard

The Garage HRS exhaust manifold has been designed to extract the highest level horsepower possible from the 4G63 at moderate levels of tune.

76,577 Yen

Garage HRS - Titanium Heat Shield

The Garage HRS titanium heat shield increases durability, anti rust and strength and enhances engine bay appearance.

from 1,553 Yen

HKS - Exhaust Manifold - Stainless

The HKS stainless exhaust manifold is designed to promote maximum exhaust flow for improved turbo spool up.

from 88,358 Yen

HKS - GT Turbine Stainless Exhaust Manifold

The HKS stainless exhaust manifold is designed to promote maximum exhaust flow for improved turbo spool up and overall power output.

from 171,517 Yen

HKS - Racing Header

The HKS racing header is a high quality stainless steel exhaust header/manifold for high performance naturally aspirated vehicles.

84,399 Yen

HKS - Stainless Exhaust Manifold

The HKS stainless steel exhaust manifold is designed to promote maximum exhaust flow for improved turbo spool up.

from 84,315 Yen

HKS - Super Header - Type II

The HKS Super Header Type II builds on experienced with the original Super Header for increased performance and improved quality for NA vehicles.

from 63,800 Yen

HPI - Exhaust Manifold

The HPI exhaust manifold is available for a number of vehicles and is manufactured out of the finest SUS304 stainless steel.

from 79,381 Yen

J's Racing - Exhaust Manifold

The J's Racing exhaust manifold is a high quality stainless steel manifold to replace the standard model with increased power and torque output.

from 68,796 Yen

JUN - Exhaust Header

The Jun exhaust header is manufactured in stainless steel in a 4-2-1 design for increased performance and reduced weight.

from 86,394 Yen

Kazama - Exhaust Manifold

The Kazama Exhaust Manifold is hand made in Japan using the finest SUS304 Stainless steel available and designed for increased flow and power.

from 101,872 Yen

M and M Honda - Exhaust Manifold

The M and M Honda exhaust manifold has been designed for improved engine response and top end power, featuring a 4-2-1 design and stainless steel.

from 51,115 Yen

Mugen - Exhaust Manifold

The Mugen exhaust manifold features a 4-2-1 design optimized for increased power and torque for faster acceleration and speed.

from 89,769 Yen

R's Racing Service - High Performance Cata

The R's Racing High Performance Catalytic Manifold provides increased performance, improved sound and is better for the environment.

from 134,252 Yen

R's Racing Service - High Performance Exha

The R's Racing Service High Performance Exhaust Manifold is the highest quality manifold available for the Suzuki Swift.

158,265 Yen

R's Racing Service - RRP Titanium Exhaust

The R's Racing Titanium exhaust manifold cover dresses up the engine bay with the unique titanium appearance.

from 18,711 Yen

Silk Road - Exhaust Manifold

The Silk Road exhaust manifold replaces the standard manifold with a high quality stainless steel item designed specifically for high performance.

from 20,328 Yen

Spoon - 2 in 1 Exhaust Manifold

The 2 in 1 exhaust manifold joins into the 4 in 2 exhaust manifold to lead back down the exhaust catalytic converter and to the rear of the car.

from 24,302 Yen

Spoon - 4 in 2 Exhaust Manifold

The Spoon 4 in 2 exhaust manifold separates the exhaust outlet from the engine into two sets of 2 cylinders to improve overall power and torque.

from 64,601 Yen

Spoon - 4-2-1 Exhaust Manifold

The ultimate Spoon exhaust manifold, the 4-2-1 manifold has been designed for the best improvement of torque and power for NA Honda engines.

from 90,117 Yen

Sun Line Racing - GTspec EX Manifold

The Sun Line Racing GTspec Exhaust Manifold has been designed for increased exhaust flow, increased power and engine response.

77,146 Yen

Sun Line Racing - SLR Sports Catalyzer

The Sun Line Racing SLR Sports Catalyzer enables high performance and engine response whilst keeping emissions within legal levels for the street.

132,552 Yen

Toda - Exhaust Manifold

The Toda exhaust manifold for the B16 and B18 engines include a 4-2-1 design for superior exhaust flow enabling high performance NA engines.

from 96,206 Yen

Toda - Exhaust Manifold - Flex Pipe

The Toda flex pipe section for the exhaust manifold is featured in the full Toda exhaust manifold and ensures exhaust flex does not cause damage.

24,486 Yen

Toda - Exhaust Manifold - Version 2

The version 2 Toda exhaust manifold for the B16 and B18 engines include a 4-2-1 design for superior exhaust flow enabling high performance NA engines.

from 96,206 Yen

Tomei - Exhaust Manifold

The 1st Version design had the targets of "Sharp throttle response"

103,950 Yen

Tomei - Exhaust Manifold + Straight Frontpipe

The factory setup cannot be compared to this setup

136,868 Yen

Tomei - Exhaust Manifold - Nissan Skyline GTR

The Tomei exhaust manifold for the RB26DETT is manufactured out of the highest quality materials for the best flowing manifold available on the market

73,632 Yen

Tomei - Expreme - Exhaust Manifold - Mitsubishi

The Tomei exhaust manifold is manufactured at the highest quality available out of aircraft quality SUS304 stainless steel - simply the best manifold.

from 10,395 Yen

Tomei - Expreme - Exhaust Manifold - Nissan Sil

The Tomei expreme exhaust manifold is the ultimate stainless manifold for the SR20DET engine.

59,772 Yen

Tomei - Expreme - Exhaust Manifold - Subaru WRX

The Tomei Expreme exhaust manifold for the Subaru EJ25 provides improved performance with expreme quality.

95,288 Yen

Tomei - Expreme - Exhaust Manifold - Subaru WRX

The Tomei Expreme exhaust manifold for the Subaru WRX improves the exhaust performance by improved design and increased efficiency.

85,759 Yen

TRD - Exhaust Manifold

The TRD exhaust manifold was developed with irgorous engine bench testing to optimise pipe length to achieve excellent efficiency and engine response.

from 92,400 Yen

Trust - Greddy - Exhaust Manifold - Nissan Silv

The Trust Greddy stainless steel exhaust manifold for the Nissan Silvia is designed to improve outright power and acceleration response.

from 141,372 Yen

Trust - Greddy - Exhaust Manifold - Nissan Skyl

The Trust Greddy stainless steel exhaust manifold for the Nissan Skyline is designed to improve outright power and acceleration response.

from 168,815 Yen

Trust - Greddy - Exhaust Manifold - Toyota Supra

The Greddy Exhaust Manifold for the Toyota Supra is constructed from the highest quality stainless steel and designed for developing high power levels

from 178,940 Yen

Trust - Greddy - Sports Catalyzer Center Pipe +

The Greddy Sports Catalyzer Exhaust Manifold and center pipe has been designed to provide increased engine response and power.

from 61,446 Yen

Try Force - Exhaust Manifold

The Try Force exhaust manifold has been designed for increased performance whilst still maintaining vehicle environmental emissions levels.

145,016 Yen

Exhaust Mufflers

5zigen - Border 304 Max

The 5zigen Border 304 Max muffler is a racing exhaust and runs back from the catalytic converter to the rear of the car.

71,415 Yen

5zigen - Border 304 Speed

The 5zigen Border 304 Speed exhaust system has been designed for the straightest path possible for high levels of performance in competition.

66,151 Yen

5zigen - Fireball Zero

The 5zigen Fireball Zero has been designed for small and compact vehicles, enhancing the look and performance.

from 44,101 Yen

5zigen - Miracle Fireball

The 5zigen Miracle Fireball exhaust system has been developed for ultra-lightweight with stainless steel construction and unique split type joins.

from 70,560 Yen

5zigen - Pro Racer A-Spec

The 5zigen Pro Race A-Spec cat back exhaust system is perfect for the street with an average of only 90db but still offering the performance benefits.

from 67,850 Yen

Aimgain - Muffler Cutter

Aimgain have introduced the Muffler Cutter made from high quality materials.

from 28,090 Yen

Amuse - Euro

The Amuse Euro Exhaust systems feature smaller tip finishes for a more stealth look. The additional mufflers also limit exhaust noise.

from 217,943 Yen

Amuse - R1 Titan

The Amuse Titan exhaust for the 350Z is constructed in complete titanium improves performance by over 10ps.

from 137,445 Yen

Amuse - R1 Titan Extra

The Amuse R1 Titan Extra exhaust features a unique titanium finish for the tail and muffler body for that look.

from 137,445 Yen

Amuse - R1000

The Amuse R1000 exhaust systems provide a large diameter for increased exhaust flow for high performance vehicles.

from 218,295 Yen

Amuse - RS-Silent

The new Amuse RS-Silent exhaust system features full titanium construction with a new full dual design for the 350Z and new lightweight R35 GTR System

from 320,100 Yen

APEXi - Bomber III

Exclusive to Japan. Apexi Introduce the Bomber III Type Exhaust

from 27,928 Yen

APEXi - Evolution Muffler N1

APEXi N1 catback exhaust systems were born to satisfy the need for a quick throttle response

from 26,496 Yen

APEXi - Hybrid Megaphone Evolution

The Super Megaphone Exhaust System was the original single

35,805 Yen

APEXi - PS Revolution

The Apexi PS Revolution exhaust system utilises a revolutionary new system to dynamically quieten the exhaust at varying engine exhaust pressure.

from 79,200 Yen

ASM - Tow Hook

The ASM Tow Hook has been designed from real circuit experience, ensuring proper vehicle towing in circuit conditions.

38,202 Yen

AutoExe - Stainless Muffler

The Auto Exe Stainless Muffler offers a high quality muffler with increased performance without excessive noise levels.

from 82,450 Yen

BattleZ - Stainless Exhaust

The BattleZ stainless exhaust system is suitable for RAV4 year 2000+ vehicles.

from 49,665 Yen

Blitz - NUR - Spec R - Exhaust System

Blitz Nur Spec-R Exhaust Catback system for high performance Japanese vehicles

In Stock and ready to ship!

from 43,827 Yen

Blitz - NUR - Spec RX - Exhaust System

The Blitz stainless steel NUR spec exhausts are of the highest quality with slanted mounting and mandrel bent piping removing unnecessary bends.

from 53,130 Yen

Blitz - NUR - Spec T - Exhaust System

The Blitz NUR Spec Touring exhaust system has been designed for high performance without excessive sound.

from 63,273 Yen

Blitz - Realize - TT

Blitz Realize TT exhaust systems are manufactured out of a specially coated mild steel with stainless steel muffler and tail.

from 48,657 Yen

Blitz - Realize - TT-R

The Blitz TT-R exhaust systems are manufactured completely out of SUS304 stainless steel, including all piping, the flanges and mufflers.

from 58,800 Yen

Buddy Club - Racing Spec Muffler - Spec III

The Buddy Club Racing Spec III exhaust has been designed for light weight and high efficiency for optimised torque in the low to mid RPM range.

from 54,050 Yen

C-One - Performance Muffler

The C-One performance muffler runs from the catalytic converter back and offers improved exhaust flow and vehicle performance.

from 51,052 Yen

Fujitsubo - Legalis R

The Fujitsubo Legalis R exhaust system improves exhaust flow by reducing back pressure whilst maintaining minimal increase to sound.

from 54,942 Yen

Fujitsubo - Legalis Super R

The Fujitsubo Legalis Super R is the ultimate JASMA compliant street exhaust system for high performance vehicles.

from 58,317 Yen

Fujitsubo - Power Getter

Fujitsubo exhausts are high quality Japanese made exhaust systems for high performance import vehicles.

from 35,501 Yen

Fujitsubo - RM-01A

The Fujitsubo RM-01A exhaust system is a competitive level exhaust system constructed from stainless steel offering improved engine torque and power.

from 30,429 Yen

EXHAUST MUFFLERS

Fujitsubo - Super Ti

The Fujitsubo Super Ti exhaust system replaces the main muffler and tail end with complete titanium construction.

from 246,813 Yen

Fujitsubo - Wagolis

The Fujitsubo Wagolis exhaust system has been specifically designed for use with wagons and vans, offering improved performance and quality.

54,942 Yen

Ganador - Racing Titan

The Ganador Racing Titan exhaust system is a full titanium exhaust with quality and sound to rival the highest quality exhausts from Mines and Amuse

154,193 Yen

Garage Saurus - Power Ex - No. 2 Pipe - 76S

The Garage Saurus power Ex No. 2 intermediate pipe has been designed for the R35 GTR as a simple straight system ensuring minimal restriction.

124,741 Yen

Garage Saurus - Power Ex - Type-Center

The Garage Saurus Power Ex - Type Center for the R35 GTR features a unique center tail muffler design for an aggressive appearance.

159,390 Yen

GP Sports - EXAS - EVO Tune

The GP Sports Evo Tune exhaust features a unique power chamber to reduce noise but ensure exhaust flow efficiency and high power output.

from 47,521 Yen

GP Sports - EXAS - Performance ST Exhaust

GP Sports Exas Performance ST exhaust system is a complete 80mm titanium exhaust system for high performance and up to half the weight of standard.

from 48,972 Yen

HKS - ES Wagon

The HKS ES Wagon exhausts replaces the end muffler section for an improved sound and performance for your wagon vehicle.

41,580 Yen

HKS - Full Dual

The HKS Full Dual exhaust is only available for the 350Z and features full exhaust piping for each engine bank, right to the tail.

251,213 Yen

HKS - High Power Exhaust

The HKS high power exhaust offers both high power and high performance whilst still being price competitive.

from 41,412 Yen

HKS - High Power Exhaust - 409

The HKS Hi Power 409 Series exhaust features SUS304 and SUH409 stainless steel for a high quality construction and great durability.

53,708 Yen

HKS - High Power Exhaust - Silent

The silent HKS high power exhaust offers a great combination of high performance without excessive exhaust noise.

Special from 42,987 Yen

HKS - Legamax

The HKS Legamax exhaust has been designed for JASMA compliance in regards to volume, utilising Advtanx fibre glass wool.

60,061 Yen

HKS - Legamax Premium

The HKS Legamax Premium edition extends on the Legamax with high quality stainless steel construction whilst retaining JASMA compliance.

from 73,632 Yen

HKS Kansai - Titanium Muffler

The HKS Kansai titanium muffler is construction of the highest quality materials with a unique design to improve engine performance and response.

from 212,699 Yen

J's Racing - Titanium FX - 50R

The J's Racing Titanium FX 50R exhaust systems is constructed with super light weight titanium with 1mm thick piping and light weight end muffler.

from 63,800 Yen

J's Racing - Titanium FX - 60R - 304R Seri

The J's Racing 304R Series Exhaust is constructed with lightweight titanium with incredible durability.

42,337 Yen

J's Racing - Titanium FX - 60RS

The J's Racing titanium FX exhaust systems is constructed with super light weight titanium with 1mm thick piping and light weight end muffler.

150,528 Yen

J's Racing - Titanium FX - 70RR

The J's Racing Titanium FX 70RR exhaust system features the highest of quality with lightweight titanium.

150,528 Yen

JIC Magic - Spartan - DE Type 2

The JIC Magic Spartan Type 2 exhaust system provides an alternative end muffler design to the Type 1.

from 63,825 Yen

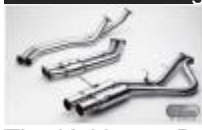

Kakimoto Racing - Full Mega N1

The Kakimoto Full Mega N1 exhaust features a large mid muffler for the reduction of excessive noise.

from 70,060 Yen

Kakimoto Racing - Full Mega N1 - Full Dual

The Kakimoto Racing Full Mega N1 dual exhaust is the only available which completely separates the twin turbo outlets completely.

185,834 Yen

Kakimoto Racing - GT1 OZ Racing

The Kakimoto Racing GT1 OZ Racing exhaust system is designed for racing purposes with a completely straight through design and 1mm thickness.

from 54,332 Yen

Kakimoto Racing - Kakimoto R

The Kakimoto R exhaust system runs from the catalytic converter back and offers a large mid muffler but increased exhaust flow for performance

from 41,459 Yen

Kakimoto Racing - Muffler Tails

Kakimoto Muffler Tails are designed and constructed to be durable and long lasting, so are available to for separate purchase.

from 3,105 Yen

Kakimoto Racing - Regu 06 & R

The Kakimoto Regu 06&R cat back exhaust system is designed for improved street response whilst keeping within the JASMA 92db noise limitation.

from 63,756 Yen

Mines - Silence-VX Pro - Titan II

The Mines Titan II exhaust system maintains Mines reputation for the highest quality parts available and is now available for the R35 GTR.

from 307,202 Yen

Monster - Titanium Muffler - 606Ti

The Monster Titanium 606ti exhaust system was featured at Tokyo Auto Salon 2007 and has been designed for the ultimate in light weight and efficiency.

111,914 Yen

Mugen - Exhaust Kit

Exhaust Kit

181,625 Yen

Mugen - Sports Exhaust System

The Mugen sports exhaust system features the unique twin loop design to offer increased exhaust flow without increased noise.

from 86,998 Yen

Nismo - Exhaust System

Nismo exhausts are known to be some of the highest quality systems available.

from 50,425 Yen

Phoenix Power - Departure II

The Phoenix Power Departure II exhaust system is a specialist exhaust system available for a limited vehicles designed for high power.

from 108,109 Yen

R's Racing Service - RRP High Performance

The R's Racing High Performance Muffler has been designed to improve engine performance and response whilst reducing weight and improving the sound.

from 81,081 Yen

Ralliart - Sports Muffler

The Ralliart sports muffler offers high quality stainless steel construction combined with improved performance.

105,892 Yen

Sequential - Silent R Muffler

The Sequential Silent R Muffler completes the Black Illussion body kit with a strong aftermarket muffler.

110,330 Yen

Spoon - N1 Muffler Kit

The Spoon N1 muffler kit has been designed to improve exhaust flow enabling higher horse power from high performance Honda engines.

from 78,978 Yen

Sun Line Racing - GTspec 50SSW Exhaust

Sunline racing Introduce the GT Spec

61,153 Yen

Sun Line Racing - GTspec 60SS Exhaust

Sunline racing 60 series exhaust

59,153 Yen

Sun Line Racing - GTspec Titanium RS

The Sun Line Racing GTspec Titanium RS exhaust system has been designed for significant weight reduction whilst improving exhaust performance.

251,328 Yen

Sun Line Racing - GTspec Titanium SR

The Sun Line Racing GTspec Titanium SR exhaust system follows the standard exhaust layout, offering superior titanium construction and flamed exits

373,065 Yen

Suzuki Sport - Sports SP-X Dual Muffler

The Suzuki Sport SP-X dual muffler is manufactured out of SUS304 stainless steel that offers high performance and conforms to the 90db noise limit.

56,270 Yen

Suzuki Sport - Sports SP-X Muffler

The Suzuki Sport SP-X muffler is manufactured out of SUS304 stainless steel that offers high performance and conforms to the 86db noise limit.

from 42,861 Yen

Suzuki Sport - TYPE-Ti Dual Muffler

The Suzuki Sport Type-Ti Dual Muffler is the ultimate titanium muffler available for the Suzuki Swift Sport with decreased weight, increased strength.

179,550 Yen

Syms - Center Pipe + Rear Silencer

The Syms Center Pipe and Rear Silencer includes a catalytic converted to meet emissions and features high quality construction.

190,345 Yen

TM Square - Exhaust Muffler

The exhaust has taken TM Square many hours to design and create this light, strong and volume efficient exhaust.

158,697 Yen

Toda - Exhaust Downpipe & Muffler Set - N1

The Toda N1 exhaust downpipe and muffler has been race proven, durable stainless steel and racing design ensures long life and high performance.

176,715 Yen

Toda - Exhaust System

The Toda exhaust system has been designed after extensive research for the optimal performance for Honda engines.

from 68,376 Yen

Top Secret - Titan Pro

The Top Secret Titan Pro exhaust systems sits among the highest quality exhaust systems available for high quality materials, construction and power.

from 245,715 Yen

TRD - Exhaust

The TRD exhaust mufflers are stainless steel of the highest quality and even more reliable than genuine Toyota parts.

from 36,960 Yen

Trial - Titanium Muffler

The Trial titanium muffler has been designed for high horsepower whilst keeping weight down with titanium construction.

from 116,425 Yen

Trust - Greddy - Beat MAX Ti Muffler

The Trust Greddy Beat Max Titanium end muffler replaces the standard end muffler with an attractive blue flamed finish.

In Stock and ready to ship!

31,878 Yen

Trust - Greddy - Comfort Sports

The Greddy Comfort Sports exhaust system has been designed to offer improved performance, great looks whilst keeping comfortable noise levels.

83,160 Yen

Trust - Greddy - Comfort Sports - GT Slash

The Greddy Comfort Sports GT Slash exhaust system features high quality stainless steel construction with titanium tail for an attractive blue finish.

47,817 Yen

Trust - Greddy - Comfort Sports - Slash

The Greddy Comfort Sports Slash muffler enhances performance and improves vehicle appearance with buffed stainless steel construction.

31,878 Yen

Trust - Greddy - Power Extreme II

Greddy Trust Power Extreme II Muffler is a high flowing exhaust system designed especially for high performance Japanese vehicles
from 26,681 Yen

Trust - Greddy - Titan Composite

The Trust Greddy titanium composite muffler is approximately 60% lighter than conventional exhaust systems for improved performance.
80,283 Yen

Exhaust Silencers
APEXi - Active Tail Silencer

The Apexi Active Tail Silencer features an anti-pressure response valve to decrease exhaust volume.

from 3,940 Yen

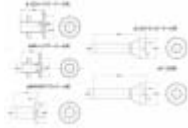

GP Sports - Exas Inner Silencer

GP Sports Introduced the EXAS Inner Silencer to reduce Exhaust noise

from 5,800 Yen

HKS - Inner Silencer

The HKS Inner Silencer enables the use of the louder exhausts on the street without excessive noise and minimal power loss.

3,914 Yen

JIC Magic - Spartan505 Silencer

The JIC Magic Spartan505 Silencer is a universal fit silencer in titanium or stainless steel that can be adapted to almost any vehicle.

from 23,000 Yen

Kakimoto Racing - Inner Silencer

The Kakimoto inner silencer is available in many sizes to suit a number of Kaimoto racing exhaust systems, lowering their volume for quieter use.

from 6,350 Yen

Mugen - Sports Silencer

The Mugen Twin-Loop sports silencer is a well-known unique exhaust silencer designed to prevent excessive noise whilst still increasing power.

from 64,182 Yen

Spoon - Sub Silencer

The Spoon sub silencer can be installed in the tail exhaust systems of the N1 Type Tail Muffler (65mm Tail) and reduces the volume by 5db.

5,069 Yen

Spoon - Tail Silencer - N1 Type

The Spoon N1 Type tail silencer has been designed to enable free flowing exhaust for high performance off street purposes.

38,477 Yen

Spoon - Tail Silencer - Street Type

The Spoon Street Type tail silencer has been designed for street use with a volume of 90db but still increases the exhaust flow.

58,728 Yen

Exhaust Straight Pipes J's Racing - Test Pipe

The J's Racing test catalytic converter replacement pipe increases exhaust flow for greater engine performance.

from 16,280 Yen

Kakimoto Racing - Replacement Pipe

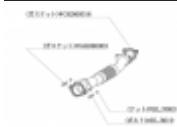

The Kakimoto Racing cat replacement pipe features a 80mm diameter for increased exhaust flow for race use only.

In Stock and ready to ship!

from 12,012 Yen

Kakimoto Racing - Spacer

The Kakimoto Spacer pipe replaces the standard catalytic converter with a straight pipe for increased power output and exhaust flow.

from 12,705 Yen

Sard - Torque Control Valve

The Sard Torque Control Valve is designed to improved low-mid range torque and power by altering the exhaust back pressure.

16,447 Yen

Sun Line Racing - Circuit Center Pipe

Sunline racing bring you the Circuit Center Pipe

28,463 Yen

Other Exterior
Abflug - Side Intake Duct

The Abflug Side Intake Duct adds to the appearance of the standard intake duct with high quality construction and appearance.

26,170 Yen

ASM - Dry Carbon Trunk

The ASM Dry Carbon Boot offers a 3 layer construction of the highest quality and weighs only 2.7kg.

207,381 Yen

Aura - RAV4 Air Guide

The Aura RAV4 air guide for a custom look for your vehicle.

Nismo logo for the Nissan Skyline R34 GTR rear spoiler.

11,290 Yen

Origin - Rear Wing

The Origin Rear Wing is available for a wide range of vehicles and offers a unique rear wing design.

from 12,591 Yen

Origin - Roof Wing

The Origin Roof Wing compliments the shape of the vehicle, providing a more aggressive rear shape with the additional wing.

from 15,634 Yen

RE Amemiya - Rear Spoiler - GTIII

The RE Amemiya rear spoiler has been designed from racing experience to provide real downforce during high speed circuit driving.

from 124,892 Yen

Spoon - Carbon Roof Spoiler

The Spoon carbon roof spoilers fits to the back of the roof over the rear windscreen to improve aerodynamics and improve vehicle stability and high sp

36,452 Yen

Superior Auto Creative - Carbon Assist Wing

The Superior Auto Creative carbon assist wing enhances the standard wing with quality carbon fibre construction and increased downforce.

57,427 Yen

Superior Auto Creative - Carbon High Position W

The Superior Auto Creative carbon high position wing mounts increase the height of the rear wing for additional downforce and rear vision visibility.

47,725 Yen

Suzuki Sport - WR Rear Wing

The Suzuki Sport WR Wing for the Suzuki SX4 provides a unique WRC look to your vehicle. Constructed from lightweight FRP stiffness.

78,419 Yen

TM Square - 3D Carbon Rear Wing

Now available is the TM Square Carbon Rear Wing, designed specifically for the Suzuki Swift ZC13S with it being functional and yet still looks great.

94,018 Yen

TM Square - Rear Bumper Spoiler

TM Square have designed an effective and efficient Rear Bumper Spoiler, with which the wind will pass under the diffuser to decrease the drag.

from 91,246 Yen

TRD - Rear Aero Spoiler

The TRD Rear Aero Spoiler attaches to the boot offering a more sport look with aerodynamic benefits.

53,593 Yen

Trial - Carbon Wing Stand

The Trial Carbon Wing Stands replace the standard wing stands for a increased height and more aggressive appearance.

from 63,757 Yen

Trust - Greddy - Toyota Supra JZA80 Rear Spoiler

Trust Greddy introduce the Rear Spoiler

54,054 Yen

URAS - Third Dimension Wing

The Uras Third Dimension wing features a carbon look finish and is available in a number of heights.

from 40,000 Yen

URAS - Wing Mounts

The URAS low mount stay enables low mounting of the URAS Third Dimension wing.

11,000 Yen

Varis - GT Wing - For Street

The Varis GT-Wing has been developed through extensive testing and experience, with quality carbon construction and strong mounting hardware.

from 92,401 Yen

Zero Sports - Carbon Wing Garnish

The Zero Sports carbon wing garnish adds a carbon fiber finish to your standard STi wing, whilst adding additional downforce with an increased lip

42,337 Yen

Exterior Side Steps
Aura - RAV4 Side Spoiler

The Aura RAV4 side spoiler for a custom look for your vehicle.
94,500 Yen

C-One - Side Steps

The C-One Side Steps enhance the standard side steps, matching the C-One front and rear bumpers for a more aggressive and sporty appearance.
46,432 Yen

East Bear - New Type Side Steps - R33

The East Bear New Type Side Steps feature an air duct and aggressive design for the R33 Skyline.
55,980 Yen

Fujita Engineering - AFFLUX Carbon Side Step

The Fujita Engineering carbon side steps have been designed to improve downforce in circuit racing in addition to providing aggressive race stance.
75,570 Yen

HKS Kansai - Carbon Side Protector

The HKS Kansai carbon side protectors are easily installed and protect the vehicle from any scuff damage with a high quality carbon fibre finish.
21,494 Yen

J's Racing - Type-S - Side Skirts

This very stylish yet practical side skirt by J's Racing is designed to be close as possible to the road yet the ground clearance of undercarriage will
91,729 Yen

Mugen - Side Spoiler

The Mugen Side spoilers improve the appearance of your Honda vehicle to feature that sporty look.
from 48,107 Yen

Nismo - Side Skirts

The Nismo side skirts improve the appearance and lines of Nissan vehicles.
74,865 Yen

TM Square - Side Step

TM Square has once again perfected the aero dynamics with the Side Step.
from 86,625 Yen

Exterior Underpannels & Diffusers ASM - Front Diffuser

ASM Introduce the aerodynamic Front Defuser
from 141,372 Yen

C-One - Aluminum Under Panel

The C-One aluminum under panel protects the engine from objects passing underneath and provides reduced aerodynamic drag at high speeds.
from 19,635 Yen

C-One - Rear Under Spoiler

The C-One Rear Under Spoiler is designed fro a more aggressive and lower rear bumper.
from 37,191 Yen

C-One - Rear Under Spoiler with Muffler Cover

The C-One Rear Under Spoiler features an aggressive rear bumper with optional muffler cover for a smoother look.
43,659 Yen

Carbing - Underpanel

The Carbing under panel improves airflow under the vehicle and protects the engine from being hit from objects on the road.
32,430 Yen

HKS Kansai - Rear Diffuser

The HKS Kansai rear diffuser improves high speed stability with a unique aftermarket look.
from 51,957 Yen

HKS Kansai - Rear Diffuser - Mitsubishi Evo

The HKS Kansai Rear Diffuser is available for the Mitsubishi Evo in Carbon Fibre or FRP construction and provides additional stability at high speed.
from 52,897 Yen

J's Racing - Rear Diffuser

The J's Racing Rear Diffuser increases rear downforce for increased grip without increasing drag, available in quality FRP or light weight Carbon.

from 94,081 Yen

Mugen - Rear Under Spoiler

The Mugen Rear under spoiler attaches to the rear bumper to provide a sportier look for your Honda.

from 33,380 Yen

Nismo - Rear Under Spoiler Set

The Nismo rear under spoiler set is suitable for only the VSpec II and N1 BNR34 Skyline models and improves the under air flow of the vehicle.

70,035 Yen

Prova - Aluminium Under Guard Panel

The Prova aluminium under guard panel replaces the standard guard with a high quality rigid guard for improved protection and aerodynamics.

33,869 Yen

RE Amemiya - Diffuser Pro

The RE Amemiya Diffuser Pro has been developed to deliver real additional downforce as can be used in high speed circuit, drift and other competitions

from 55,567 Yen

Silk Road - Diffuser - Front

The Silk Road front diffuser utilises high quality materials to provide a flat bottom to the front of the vehicle, this improves aerodynamics.

from 27,536 Yen

Suzuki Sport - Rear Under Diffuser

The Suzuki Sport Rear Under Diffuser improves air flow exiting the rear of the vehicle and improves visual appearance finishing the rear end.

56,028 Yen

Varis - Rear Diffuser

The Varis Rear Diffuser is designed to utilise the air flow underneath and exiting the rear of the vehicle to increase downforce and grip.

60,060 Yen

Varis - Vortex Generator

The Varis Vortex Generator has been designed to improve air flow behind the rear wheel and therefore increase downforce.
57,289 Yen

Other Forced Induction
Blitz - Turbo Housing

The Blitz replacement turbo housings can be used to replace the existing turbo housing on your high performance Blitz turbo.

82,835 Yen

Blitz - Upgrade Actuator

The Blitz Upgraded Actuator enables adjustment of the actuator and boost levels, whilst providing improved boost stability all the way to the redline.

23,667 Yen

Garage Saurus - Power Actuator Kit

The Garage Saurus Power Actuators for the R35 GTR ensure proper actuator function even under higher boost levels than standard.

55,441 Yen

HKS - Gasket for Turbo Upgrade

The HKS replacement gaskets are available for almost all parts of the turbo system, please contact us if your requirements are not already listed.

from 693 Yen

HKS - GT Actuator Upgrade Kit

The HKS GT Actuator Upgrade Kit provides an easy way to increase boost without requiring an aftermarket boost controller.

from 21,657 Yen

HKS - GT II Wastegate

The HKS GT II wastegate is approximately 2/3 the weight of the GT wastegate and is available in ranges from 11 to 30PSI.

110,880 Yen

HKS - GT Wastegate

The HKS GT wastegate has a flow diameter of 60mm, able to handle flow for 600 to 1000hp and beyond.

106,260 Yen

HKS - GT570 Racing Package - R35 GTR

The HKS GT570 Racing package unlocks the potential of the R35 GTR with a number of basic modifications.

493,763 Yen

HKS - Heavy Duty Actuators

HKS heavy duty actuators can enable increased boost pressure by altering the length of the actuator rod.

from 13,090 Yen

HKS - Manifold & Wastegate Set Up Kit

The HKS manifold and wastegate kit enable improved exhaust flow and faster turbo spoolup.

from 276,402 Yen

HKS - Special Racing Wastegate

The HKS special racing external wastegates utilise 60mm valves to support up to 1000HP.

89,754 Yen

HKS - Special Racing Wastegate - Repair Parts

The HKS Stainless Steel Racing Wastegates are race proven and the available repair parts enable longer life and easy repair of all of its components.

from 1,630 Yen

HKS - Standard Wastegate

The HKS standard external wastegate is designed for applications up to around 500HP.

63,756 Yen

HKS - Turbine - Suction Funnel

HKS offers a large range of high-quality turbo-related components and accessories.

13,860 Yen

HKS - Turbine - T04 to T51R Adapter Flange

HKS offers a diverse range of turbo-related components and accessories such as adaptor flanges as replacement parts, conversion parts, or upgrades.

7,300 Yen

HKS - Turbine - T04Z Downpipe Flange (V-Band)

HKS offers a diverse range of turbo-related components and accessories such as T04Z flanges as replacement parts, conversion parts, or upgrades.

18,480 Yen

HKS - Turbine - T04Z Oil Inlet Set

HKS offers the T04Z oil inlet set together with a diverse range of high-quality turbo-related components and accessories.

5,620 Yen

HKS - Turbine Flange

HKS offers a diverse range of high-quality turbo-related components such as the HKS turbine flange.

3,100 Yen

HKS - Turbine Gasket & Bolt Set

The HKS turbine gasket and bolt set is perfect for installation of a second hand turbo where gaskets, washers and bolts should be replaced.

28,000 Yen

HKS - Turbine Heat Shield

HKS offers a diverse range of turbo-related components and accessories such as the Heat Shield as replacement parts, conversion parts, or upgrades.

12,751 Yen

HKS - Wastegate - Springs

The HKS Wastegate springs are available in a number of specifications and strengths to handle even higher boost and power levels.

from 3,600 Yen

JUN - Up-rated Turbo Actuator

Jun uprated turbo actuator adjusts working pressure from 1.0 to 1.3kgf/cm²

36,013 Yen

Nismo - Air Inlet Piping Kit

Nismo air inlet piping kit for the Nissan Skyline GTR R33 and R34.

144,116 Yen

Trust - Greddy - Boost Up Pulley

The Greddy Boost Up Pulley increases the Greddy Supercharger kit to peak power of 130kw for even more power over the standard vehicle.

16,661 Yen

Trust - Greddy - NOS

The Trust Greddy kit can offer a power increase from 40 to 60 hp for a large number of applications.

110,453 Yen

Trust - Greddy - Wastegate

The Trust Greddy external wastegate provides upgraded exhaust flow for large turbochargers from 70,686 Yen

Trust - Greddy - Wastegate - Replacement Parts

Greddy replacement wastegate parts enable the rebuild of your wastegate or the increase of boost handling through a higher rated spring.

from 3,326 Yen

Forced Induction Blow Off Valves

Blitz - Super Sound Blow Off Valve DD - Option

Blitz Option parts for the Super Sound Blow Off Valve enable the replacement of existing parts or the additional of parts for better operation.

from 254 Yen

Blitz - Super Sound Blow Off Valve VD

The Blitz Super Sound Blow Off Valve Type VD is new for 2009 and features the Dual Drive action combined with a new aggressive construction.

Special from 22,575 Yen

Blitz - Super Sound Blow Off Valve VD - DMC

The Blitz Super Sound Blow Off Valve VD features a new DMC colour with increased durability and high class gloss finish.

from 21,131 Yen

HKS - Racing Blow Off Valve Type II

The HKS Racing Blow off Valve Type II uses a pull type valve for highly tuned applications.

31,878 Yen

HKS - SSQV - Mounting Flanges

The HKS mounting flange can be used for custom mounting of the HKS SSQV and Racing BOV II blow off valves.

from 2,780 Yen

HKS - SSQV - Option Parts

HKS SSQV option parts, suitable if the standard parts have been lost or need to be replaced after intensive use.

from 1,730 Yen

HKS - SSQV - Special Fin

HKS SQV special fins offer that unique new sound for your HKS Super SQV Blow Off Valve.

2,680 Yen

HKS - Super SQV 3

The Super SQV 3 by HKS has been designed to be strong and durable.

Special from 19,058 Yen

HKS - Super SQV 3 - Return Kit

The HKS Super SQV 3 return kit enables the conversion of the SSQV3 BOV to re-circulation mode offering a range of benefits.

from 2,600 Yen

Sard - R2D2 - Twin Drive - Type 2

The Sard R2D2 twin drive blow off valve uses a large opening nozzle for more efficient discharge.

from 16,478 Yen

Tomei - Blow Off Valve

The Tomei Blow Off Valve is a strengthened valve with turbine protective function that also has the supercharging pressure relief removed.

from 11,834 Yen

Trust - Greddy - Blow Off Valve - Option Parts

The following parts can be purchased separately from the Trust Greddy blow off valve for modified operation or custom installation.

from 1,213 Yen

Trust - Greddy - Blow Off Valve - Type R

The Trust Greddy Type R blow off valve is designed for high output race engines in excess of 500hp.

20,617 Yen

Trust - Greddy - Blow Off Valve - Type RS

The Trust Greddy Type RS Blow Off Valve is designed to be the most reliable available allowing high performance and a unique discharge sound.

15,362 Yen

Trust - Greddy - Blow Off Valve - Type RS - Kit

The Trust Greddy Type RS Blow Off Valve Kit is designed to be the most reliable available allowing high performance and a unique discharge sound.

from 2,830 Yen

Forced Induction Superchargers
HKS - GT Supercharger

The HKS GT Supercharger Kit improves performance over the standard naturally aspirated engine by offering lag free linear forced induction power.

from 506,352 Yen

HKS - GT Supercharger - Engine Cover

The HKS dry carbon engine cover for the 350Z/Skyline supercharger kit, completes the kit with a beautifully constructed cover, featuring the HKS logos

84,893 Yen

Suzuki Sport - SC150 Slalom Kit - Supercharger

The Suzuki Sport SC150 Slalom kit increases the Suzuki Sport power output to 150PS, providing that required power increase for Autocross or circuit

539,143 Yen

Trust - Greddy - Super Charger kit

The Trust Greddy supercharger kit for th Toyota Vitz enables a significant power upgrade for improved performance compared to standard.

from 282,975 Yen

Forced Induction Turbines
HKS - Turbine - GT2835

HKS GT turbines are developed by HKS based on a Garret unit,
192,065 Yen

HKS - Turbine - GT2835 Pro S

HKS GT2835 Pro S turbine upgrade for high performance turbo charged vehicles
212,415 Yen

HKS - Turbine - GT3037 Pro S

The GT3037ProS is a ball bearing turbine with the latest design from HKS for the reduced spool time and high engine output.

249,480 Yen

HKS - Turbine - GT3037S

The HKS GT3037S is an external wastegate style GT ball bearing turbo capable of up to 450PS to 480PS (model dependent) of power.

from 226,721 Yen

HKS - Turbine - GT3040

The HKS GT3040 is an external wastegate style GT ball bearing turbo capable of up to 500PS of power with the appropriate modifications.

230,076 Yen

HKS - Turbine - GT3240

The HKS GT3240 is rated to 580PS with a GT25 inlet and GT30 outlet for high power output requirements.

233,205 Yen

HKS - Turbine - T04Z

The HKS T04Z is a custom turbocharger unit based on a Garrett turbo that is designed and built specifically for performance engines.

271,320 Yen

HKS - Turbine - T51

The HKS T51 is a custom turbocharger unit based on a Garrett turbo that is designed and built specifically for performance engines.

In Stock and ready to ship!

from 43,428 Yen

HKS - Turbine - T62R

The HKS T62R Ball Bearing turbo is now the largest turbo offered by HKS, rated up to 1100PS, designed for extreme horsepower requirements.

411,470 Yen

Trust - Greddy - Turbine - T67/TD-06SH25G

Trust Greddy T67/TD-06SH turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

195,426 Yen

Trust - Greddy - Turbine - T78

Trust Greddy T78 turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

222,037 Yen

Trust - Greddy - Turbine - T88/T88H

Trust Greddy T88 turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

from 231,185 Yen

Trust - Greddy - Turbine - TD-025

Trust Greddy TD-025 turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

87,318 Yen

Trust - Greddy - Turbine - TD-04H

Trust Greddy TD-04H turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

91,476 Yen

Trust - Greddy - Turbine - TD-05

Trust Greddy TD-05 turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

from 99,792 Yen

Trust - Greddy - Turbine - TD-05H

Trust Greddy TD-05H turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

from 116,424 Yen

Trust - Greddy - Turbine - TD-06

Trust Greddy TD-06 turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

from 133,056 Yen

Trust - Greddy - Turbine - TD-07S

Trust Greddy TD-07S turbines are manufactured at the highest quality enabling much higher power outputs compared to the standard turbo.

216,216 Yen

Yashio Factory - YP Turbo - Nissan Silvia

The Yashio Factory YP Turbo has been developed in collaboration with GP Sports to provide superior response and power for the Nissan SR20 engine.

200,038 Yen

Forced Induction Turbo Kits

Blitz - Turbo System

The Blitz Turbo System is a complete turbo upgrade system for easy bolt on installation.

from 365,148 Yen

HKS - GT Special Full Turbine Kit

GT Turbine with Ball Bearing, Wastegate and all other components required for installation are included in the kit that increases power significantly.

from 485,101 Yen

HKS - Special Turbo System

The Special Turbo System is an after-installation turbo system

573,342 Yen

HKS - Special Turbo System Set Up Kit

Set Up Kit was developed for further request for Twin Turbo System.

from 438,438 Yen

HKS - Turbo Kit - Bolt On

HKS GT Sport Turbos are designed and sized to promote maximum power and response for maximum airflow throughout the RPM band.

from 173,250 Yen

HKS - Turbo Kit - Full Turbine Kit - Mazda RX7

The HKS full turbine kit for the Mazda RX7 FD3S is a complete replacement of the standard turbine, manifold, wastegate and exhaust components.

324,845 Yen

HKS - Turbo Kit - GT Special - GTR

The HKS GT Special turbo kits include a turbo upgrade, exhaust manifolds, wastegates, downpipes and all accessories for installation.

782,628 Yen

HKS - Turbo Kit - GT Sports

The HKS GT Sports turbo kits are designed for the perfect blend of power and response for high power street and race vehicles.

from 200,105 Yen

HKS - Turbo Kit - GT Sports Pro

The HKS GT Sports Pro turbo kits are designed to be a perfect blend of power and response for high power street and race vehicles.

from 225,226 Yen

HKS - Turbo Kit - GT-RS

HKS GT-RS Turbo kit is a bolt on turbo upgrade enabling 400 horsepower performance for your Japanese vehicle.

from 173,250 Yen

HKS - Turbo Kit - GT-RS - GTR

HKS GT-RS Turbo kit for the Nissan Skyline GTR is a bolt on turbo upgrade enabling big horsepower performance over the standard vehicle.

332,640 Yen

HKS - Turbo Kit - GT-SS

The HKS GT-SS turbo kit is an ideal replacement for the standard turbo, with easy bolt in installation, response like the standard turbo.

from 112,613 Yen

HKS - Turbo Kit - GT-SS - GTR

The HKS GT-SS Turbine kit is to suit a Nissan Skyline GTR's with output approaching the limits of the standard RB26DETT engine.

Special 254,678 Yen

HKS - Turbo Kit - Special Full Turbine Kit

HKS Special Full Turbine Kit is a full turbo upgrade kit for your turbo charged Japanese vehicle, enabling big horsepower increases.

from 415,801 Yen

Power Enterprise - 350Z Twin Turbo Kit

The Power Enterprise Twin Turbo kit for the Nissan 350Z Z33 enables power outputs as high as 500ps and increased torque.

977,052 Yen

Tomei - EJ Single Scroll ARMS M7760 Turbine Kit

The Tomei ARMS M7760 is the largest bolt on turbo that could be fit in the size limited Subaru EJ engine bay.

173,156 Yen

Trust - Greddy - Turbo Kit - Bolt On

The Trust Greddy bolt on turbo kits are designed specifically for driveability and reliability, as well as performance.

from 210,210 Yen

Trust - Greddy - Turbo Kit - Mazda RX7 - Extern

The Greddy Trust RX-7 external wastegate turbo kit replace the standard turbo, wastegate, air intake and other parts for a serious upgrade.

from 330,729 Yen

Trust - Greddy - Turbo kit - Mazda RX8

The Trust Greddy turbo kit for the Mazda RX8 includes an intercooler, turbine, exhaust manifold, air intake, E-Manage ECU and other parts.

Special 371,910 Yen

Trust - Greddy - Turbo Kit - Mitsubishi - Exter

The Mitsubishi Trust Greddy turbo kit includes an upgraded turbine, exhaust manifold, external wastegate and air intake system for a serious upgrade.

from 384,038 Yen

Trust - Greddy - Turbo Kit - Nissan Silvia - Ex

The Trust Greddy Silvia turbo kit replaces the turbine, air intake and other parts for a serious performance upgrade.

from 346,038 Yen

Trust - Greddy - Turbo Kit - Silvia - T517Z

The Trust Greddy Silvia T51 turbo kit replaces the standard turbine enabling a huge power increase compared to standard.

160,083 Yen

Trust - Greddy - Turbo Kit - Silvia - T518Z

The Trust Greddy T51 Nissan Silvia turbo kit enables a huge performance improvement over the standard turbo.

168,168 Yen

Trust - Greddy - Turbo Kit - Skyline

Trust Greddy external wastegate type turbo kit for R33 Skylines.

from 194,040 Yen

Trust - Greddy - Turbo Kit - Skyline GTR - Exte

The Greddy external wastegate turbo kit for the Nissan Skyline has been designed for achieving the ultimate in power upgrades offering up to the T88.

489,143 Yen

Trust - Greddy - Turbo Kit - Skyline GTR - T51

The Trust Greddy T51 / T61 turbo kit upgrade for the Nissan Skyline enable huge power output potential.

from 291,060 Yen

Trust - Greddy - Turbo Kit - Subaru WRX - Waste

The Trust Greddy external wastegate turbo kits enable high performance and includes all of the exhaust piping and other parts required.

from 303,188 Yen

Trust - Greddy - Turbo Kit - Supra & Soarer

The Trust Greddy Supra turbo kit is available with turbines up to the T78 for a huge increase in power output.

from 413,144 Yen

Trust - Greddy - Turbo Kit - Toyota - External

The Greddy external wastegate turbo kit includes a high power turbo combined with a specially made exhaust manifold together with the wastegate.

from 331,485 Yen

Other Handling
Beatrush - Under Panel

The Beat Rush Under Panel enhances downforce at high speed providing improved handling and stability.

34,272 Yen

C-One - Negative Camber Adapter

The C-One negative camber adapter enables increasing front negative camber for vehicles where camber adjustability is normal not available.

42,056 Yen

Fujita Engineering - Rear Cross-Member Collar

The Fujita Engineering Rear Cross-Member Collar prevents excessive movement of the rear member, providing more direct chassis response.

18,671 Yen

HKS - Height Adjustment Wrench

The HKS height adjustment wrench enables easy adjustment for the HKS suspension kits.

4,500 Yen

Ikeya Formula - Rear Member Spacer

The Ikeya Formula rear member spaces replace the standard rubber based spacers to provide improved handling and traction.

12,764 Yen

J's Racing - Adjustable Rear Camber Arm

The J's Racing Adjustable Rear Camber Arm enables easy camber adjustment and high strength, critical on circuit conditions.

21,169 Yen

J's Racing - Camber Joint

The J's Racing camber joints enable camber and roll adjustment, perfect for high performance lowered vehicles.

from 32,928 Yen

JUN - Drag Rear Member

The Jun Drag Rear member is designed for drag racing use only.
294,525 Yen

Moonface - Ball Joint Exchange SST

Ball Joint Exchange SST is conveniently for exchanging ball joint.
15,876 Yen

Moonface - Camber Adjuster

The Moonface camber adjuster enables not changing the full length of the arm, attach the adjuster of integration with original ball joint.
67,738 Yen

Moonface - Camber Adjuster Pro

The Moonface pro Camber Adjuster ensures no change to the full length of the arm, attach the adjuster of integration with original ball joint.
67,738 Yen

Moonface - HICAS Replacement Bar

The Moonface HICAS replacement bar replaces the HICAS system in selected Nissan vehicles, to provide more predictable handling in all conditions.
65,520 Yen

Moonface - Racing Plate

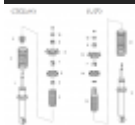

Exchange the rollcenter plate for thick one of racing type to get lower down.
16,935 Yen

Moonface - Repair Damper

Presenting the Moonface Repair Damper for easy repair.
24,344 Yen

Nismo - S-Tune - Replacement Parts

The Nismo S-Tune suspension enhances the standard suspension for improve handling and cornering.

from 2,101 Yen

R's Racing Service - Angle-Up Kit

The R's Racing Service Angle-Up Kit reduces the turning radius by almost 1m to enable easier parking and faster cornering on the track.

3,712 Yen

R's Racing Service - Angle-Up Kit II

The R's Racing Angle Up Kit II decreases the turning radius, enabling easier parking and faster turns during gymkhana and circuit conditions.

8,732 Yen

R's Racing Service - Rear Helper Kit

The R's Racing Rear Helper Kit avoids spring movement when used with rear straight coil springs.

from 18,556 Yen

R's Racing Service - Rear Straight Coil Ri

The R's Racing straight coil ride height adjustment system incorporates a threading type system.

30,562 Yen

R's Racing Service - RRP CMS Camber Adjust

The R's Racing Service camber adjustable bolt is a low cost and easy way to provide up to 2 degees camber at the front for improved handling.

3,275 Yen

Silk Road - Section - Spec RM/A8 - Repair Parts

The Silk Road repair parts enable the replacement of all of the parts of a Section suspension kit.

from 925 Yen

Spoon - Repair Stay Set

The Spoon repair stay set replaces the standard stay set for the lower arm bar.

5,069 Yen

Spoon - Zero Bump Steer Kit

The Zero bump steering kits for front and rear helps adjust the bump steer for lowered vehicles. This increases suspension effectiveness.

from 15,189 Yen

TEIN - Flexible Controller

The Tein flexible controller enables easier control of the rear adjustment when hidden inside the vehicle.

4,817 Yen

TEIN - Hook Spanners

The Tein Hook Spanners have been designed specifically for the adjustment of Tein suspension and are available in standard and chrome steel construction.

from 3,530 Yen

Tomei - HICAS lock

The Tomei HICAS lock eliminates both electrically and physically the HICAS system.

10,349 Yen

TOMS - ARS Cancel Bar

The Tom's ARS cancel bar removes the ARS system to improve high speed cornering and stability.

46,000 Yen

TRD - Suspension Parts

TRD offers a large range of suspension parts to improve the handling of standard vehicles, bringing them even up to circuit specifications.

from 3,900 Yen

Handling Bushes

C-One - Lower Arm Bush - Pillow Ball - Front

The C-One lower arm pillow ball bushes replace the standard rubber mounts providing sharper steering and smooth confident feel.

29,498 Yen

C-One - Lower Arm Bush - Rear

The C-One lower arm bush for the rear replaces standard rubber bushes with higher strength rubber bushes for reduced compliance for improved handling.

22,736 Yen

C-One - Stabilizer Link Bush

The C-One stabilizer link bush set replaces the standard rubber bushes for improved direct feel and improved handling.

13,076 Yen

C-One - Suspension Upper Bush - Rear

The C-One suspension upper bushes for the rear of the car improve the vehicle ability to hold down the rear of the car over uneven surfaces.

13,076 Yen

Cusco - Hyper Rubber Bush

Cusco hyper rubber bushes are up to 70% more durable and long lasting compared to stock bushes.

from 2,470 Yen

Cusco - Pillowball Bushing

The Cusco Pillowball bushings replace worn existing bushings to restore suspension performance in harsh conditions.

from 10,118 Yen

Fujita Engineering - Full Pillow Suspension Bus

The Fujita Engineering Full Pillow Suspension Bushing Kit replaces the standard rubber bushes with stronger, more durable and more direct handling.

142,249 Yen

Ikeya Formula - Rear Knuckle Pillow Bush

The Ikeya Formula Rear Knuckle pillow bushes prevent unwanted movement and ensures increased durability for competition level use.

from 13,745 Yen

Moonface - Front Lower Arm Pillow Bush

Moonface lower arms provide the strongest performance that draws out a mechanical grip to the utmost. Linear cornering performance and beautiful form.

15,347 Yen

Moonface - Rear Direct Pillow Bush

The Moonface Rear Direct Pillow bushes enhance mechanical grip to the utmost. Linear cornering performance and beautiful form.

15,876 Yen

Moonface - Rear Multi Link Pillow Bush - Knuckle

Moonface Rear Bushes provide the strongest performance that draws out a mechanical grip to the utmost. Linear cornering performance and beautiful form.

6,880 Yen

Moonface - Rear Multi Link Pillow Bush - Lower

The Moonface rear multi link pillow bushes improve mechanical grip to the utmost. Linear cornering performance and beautiful form.

6,880 Yen

Mugen - Front Compliance Bush Set

Front Compliance Bush Set

24,545 Yen

Mugen - Front Lower Arm Bush Set

Front Lower Arm Bush Set

5,498 Yen

Mugen - Rear Upper Arm Inner Bush Set

Rear Upper Arm Inner Bush Set

9,622 Yen

Mugen - Rear Upper Arm Outer Bush Set

Rear Upper Arm Outer Bush Set

9,622 Yen

Nismo - Reinforced Steering Gear Mount Bush

The Nismo reinforced steering mount bushes improve driving feel by removing flex of the steering rack where attached to the vehicle body.

from 2,324 Yen

Nismo - Suspension Link & Bush Parts - 350Z

The Nismo suspension link and bush parts provide improved rigidity over the standard bushes for great feel and performance.

from 558 Yen

Nismo - Suspension Link & Bush Parts - GT-R

Nismo link and bush parts are suitable for replacement of the standard items for improved handling for the R32 GTR.

from 630 Yen

Nismo - Suspension Link & Bush Parts - GT-R

Nismo link and bush parts are suitable for replacement of the standard items for improved handling for the R34 GTR.

from 1,673 Yen

Nismo - Suspension Link & Bush Parts - R34

The Nismo suspension links and bushes replace the standard items with stronger, more durable items for more direct suspension and durability.

from 930 Yen

R's Racing Service - Reinforced Rubber Bus

The R's Racing reinforced rubber bushes increase strength over standard and offer improved driver feel and predictability.

13,098 Yen

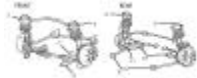

Suzuki Sport - Suspension Bush Set

The Suzuki Sport strengthened suspension bush mounts provide increased rigidity and harness providing greater suspension predictability.

16,181 Yen

TRD - Suspension Bushes

Replacement TRD suspension bushes for your high performance Toyota vehicle.

from 1,109 Yen

Handling Chassis Bracing

Beatrush - Performance Bar - Mazda Roadster

The Beatrush Performance Bars increase chassis rigidity through high quality performance chassis bars for every part of the vehicle.

from 19,278 Yen

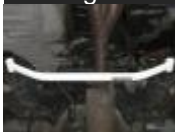

C-One - Performance Bar

The C-One Performance bar is installed under the chassis to provide improved chassis rigidity and therefore suspension performance.

from 12,244 Yen

Carbing - Rear Tie Bar

Carbing rear tie bars improve chassis rigidity and overall handling performance.

from 12,869 Yen

Colt Speed - Front Lower Beam Bar

The Colt Speed Front Lower Beam Bar offers increased chassis rigidity through high quality construction and workmanship.

14,253 Yen

Colt Speed - Rear Cross Member Support Bar

The Colt Speed Rear Cross Member support bar enhances chassis rigidity and strength, for improved handling and predictability.

18,619 Yen

Cusco - Power Brace

The Cusco Power Braces provide increased chassis rigidity throughout the vehicle by strengthening existing chassis points.

from 10,962 Yen

Cusco - Subframe Reinforcement Bar

The Cusco rear subframe reinforcement bars provide additional chassis rigidity for improved handling and suspension performance.

from 5,891 Yen

Do Luck - Assist Bar for Impreza GC8

The Do Luck Impreza Assist Bars has been developed as a packaged to provide additional chassis and diff rigidity.

from 17,256 Yen

Do Luck - Floor Support Bar

The Do Luck Floor Support Bar increases body rigidity in the length direction, unlike the majority of existing rigidity bars current available.

from 40,040 Yen

Do Luck - Rear Cross Bar

Do Luck rear cross bars provides the ultimate in performance handling by stiffening the middle of the chassis, eliminating mid chassis twist.

33,925 Yen

HKS Kansai - Lower Brace - Mazda Roadster

The HKS Kansai Lower Brace bars have been developed to work in combination to provide increased chassis rigidity for more precise handling.

from 11,500 Yen

J Speed - Side Tower Bar

Designed exclusively by J Speed, the side tower bars arm to increase chassis and suspension mount rigidity, increasing the effectiveness.

19,562 Yen

J's Racing - SPL Floor Bar

The J's Racing floor bar improves chassis rigidity by the simple installation of the bar across the floor behind the drivers seat.

17,405 Yen

Nismo - Power Brace II

The Nismo power brace increases chassis strength and rigidity for circuit and hard street driving.

14,876 Yen

Spoon - Cross Beam Bar

The Spoon Cross Beam Bar improves under body chassis rigidity for increased confidence and body flex when cornering.

from 12,151 Yen

STI - Cross Member Support Kit

The STI Front Cross Member Support kit provides additional chassis rigidity by increasing stiffness of the front crossmember.

32,918 Yen

Sun Line Racing - Inner Brace Kit

Sun Line Racing has designed the Inner Brace Kit for superior stability on high speed cornering and travelling

26,967 Yen

Suzuki Sport - Rear Performance Bar

The Suzuki Sport rear performance bar improves cornering performance by increasing performance rigidity during heavy cornering loads.

26,680 Yen

Tanabe - Sustec Underbrace

The Tanabe Sustec Underbrace improves chassis rigidity which improves cornering performance and predictability.

from 7,057 Yen

Top Fuel - Monocoque Bar

The Top Fuel Monocoque Bar has been developed from experience and ensures increased chassis rigidity.

10,511 Yen

Top Fuel - Monocoque Bar + Pillar Bar

The Top Fuel combination Monocoque Bar and Pillar Bar increases chassis rigidity and resistance to twist, improving suspension effectiveness.

20,213 Yen

Top Fuel - Pillar Bar

The Top Fuel Pillar Bar decreases body twist in high cornering conditions, preventing damage to the vehicle and increasing suspension effectiveness.

10,511 Yen

Yashio Factory - Core Support Guard

The Yashio Factory core support guard increases tension rod setup rigidity for increased steering feel designed for high speed drifting.

15,246 Yen

HANDLING LINKS

Carbing - Lower Arm Bar - Front

The Carbing front lower arm bar increases chassis rigidity for improved handling and predictability during high performance driving.

from 12,869 Yen

Carbing - Lower Arm Bar - Rear

The Carbing rear lower arm bar increases chassis rigidity for improved handling and certainty during high performance driving.

from 3,450 Yen

Cusco - Adjustable Front Upper Arms

Cusco negative camber upper arms improve cornering performance.

from 24,602 Yen

Cusco - Adjustable Pillow Tension Rods

Cusco adjustable pillow tension rods reduce the amount of suspension flex during hard cornering, increasing handling response.

Special from 23,452 Yen

Cusco - Adjustable Rear Upper Arms

the Cusco rear adjustable upper arms enables camber angle adjustment for better alignment and traction.

from 24,451 Yen

Cusco - Adjustable Toe Control Rod

The Cusco adjustable toe control rod enables easy rear toe-in or toe-out adjustment for enhanced vehicle control.

24,451 Yen

Cusco - Drag Rod

Cusco drag rods for competition use only.

25,294 Yen

Cusco - Lower Arm Bar - Version I

The Cusco lower arm bar reduces flexibility and increases body and suspension rigidity for improved handling.

from 4,679 Yen

Cusco - Lower Arm Bar - Version II

The Cusco lower arm bar version 2 reduces flexibility and increases body and suspension rigidity for improved handling.

from 12,994 Yen

Cusco - Tension Rod Bar

The Cusco tension rod bar improves tension rod mount stability for more certain alignment and suspension performance.

6,324 Yen

Ikeya Formula - Adjuster Rear Lower Arm

Ikeya Formula adjuster rear lower arm for improved suspension and vehicle handling.

In Stock and ready to ship!

from 65,288 Yen

Ikeya Formula - Front Adjuster Link

The Ikeya Formula Front Adjuster link replaces the standard items with increased durability and adjustable front links.

73,142 Yen

Ikeya Formula - Front Upper Arm

The Ikeya Formula Upper Arms enable camber adjustment, combined with high quality construction for improved durability and driving feel.

62,833 Yen

Ikeya Formula - Front Upper Link

The Ikeya Formula upper links are upgrade parts available for a number of vehicles.

from 34,362 Yen

Ikeya Formula - Multi-link Spacer

The Ikeya Formula Multi-Link spacers are available in no-movement aluminium or slight movement urethane suitable for a range of conditions.

from 17,941 Yen

Ikeya Formula - Rear Lower Link

The Ikeya Formula rear lower links feature high quality workmanship combined with increased strength and offering improvement over the standard items.

34,362 Yen

Ikeya Formula - Rear Toe Adjuster Rod

Ikeya Formula rear toe adjuster rod are available for a number of vehicles.

from 22,781 Yen

Ikeya Formula - Rear Upper Arms

Ikeya Formula rear upper arms for improved suspension and vehicle handling.

from 32,406 Yen

Ikeya Formula - Roll Center Adjuster Lower Arm

Ikeya Formula roll center adjuster lower arm kit are available for a number of vehicles.

82,291 Yen

Ikeya Formula - Roll Center Adjuster Pillow Low

Ikeya Formula roll center adjuster pillow lower arm kits for improved suspension handling.

from 82,291 Yen

Ikeya Formula - Tension Rod

Ikeya Formula pillow or bush type tension rods are available for a number of vehicles.

from 26,851 Yen

Ikeya Formula - Tie Rod

Ikeya Formula tie rod are available for a number of vehicles.

9,790 Yen

Ikeya Formula - Tie Rod End

Ikeya Formula Tie Rod End are available for a number of vehicles.

from 32,399 Yen

Ikeya Formula - Tie Rod Spacers

Ikeya Formula tie rod spacers for improved suspension and handling.
3,800 Yen

Ikeya Formula - Traction Adjuster Rod

Ikeya Formula traction adjuster rod are available for a number of vehicles.
from 19,789 Yen

J's Racing - Adjustable Rear Upper Arms

The J's Racing adjustable rear upper arms enable camber adjustment for improved suspension performance, especially when on the track.
from 39,514 Yen

J's Racing - Front Lower Arms

The J's Racing Front Lower Arms offered increased strength and durability over the standard items and are available for a range of Honda vehicles.
28,225 Yen

J's Racing - Front Negative Upper Arm

The J's Racing front negative upper arms enable negative adjustment of the upper arms to fine tune suspension geometry and improved handling.
44,689 Yen

Handling Links

J's Racing - Reinforced Upper Arm Brackets

The J's Racing reinforced upper arm brackets improves chassis rigidity for the upper arm, a weak point for the standard chassis.

63,505 Yen

J's Racing - SPL Tie Rod

The J's Racing SPL tie rod is shorter than genuine and enables further toe adjustment.

32,928 Yen

J's Racing - SPL Tie Rod End Set

The J's Racing SPL Tie Rod end set replaces the standard tie rod ends, enabling correction of suspension geometry and reduced bump steer.

39,985 Yen

JIC Magic - Negative upper Link

JIC Magic negative upper links add negative camber for more aggressive turn in on the track.
from 28,256 Yen

JIC Magic - Rear Adjustable Lower Link

JIC Magic adjustable lower links feature camber and toe adjustability to ensure accurate suspension geometry.

from 46,242 Yen

JIC Magic - Stabilizer Adjuster Link

The JIC Magic stabiliser adjuster link with 5 adjustable stages enables a maximum of 30% spring rate rise.

from 15,330 Yen

JIC Magic - Traction Rod

The JIC-Magic Traction rods ensure the correct rear suspension geometry under acceleration.

from 29,900 Yen

M and M Honda - Lower Arm Bar

The M and M Honda lower arm bar connects the lower arms to provide improved rigidity, increased steering feel and cornering performance.

12,831 Yen

M and M Honda - Tie Rod Set

The M and M Honda adjustable tie rod set increases the adjustable range to +/-30mm, enabling greater adjustment for lowered and vehicles.

35,718 Yen

Moonface - Bump Adjust Tierod End

The Moonface Bump Adjust Tierod End controls steering angle change while cornering and braking. Linear steering feel and action stability are realized.

27,519 Yen

Moonface - Front Rollcenter Adjust Lower Arm

The Moonface front rollcenter adjust lower arm provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

51,862 Yen

Moonface - Front Rollcenter Adjust Lower Arm Pr

The Moonface front rollcenter adjust lower arm pro provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

56,096 Yen

Moonface - Racing Upper Arm

Moonface Upper Arms provide the strongest performance that draws out a mechanical grip to the utmost. Linear cornering performance and beautiful form.

60,329 Yen

Moonface - Rear Rollcenter Adjust Lower Arm

The Moonface rear rollcenter adjust lower arm provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

73,030 Yen

Moonface - Rear Rollcenter Adjust Lower Arm Pro

The Moonface rear rollcenter adjust lower arm pro provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

77,264 Yen

Moonface - Super Hard Tierod

The Moonface Super Hard Tierod controls the steer angle while cornering and braking. Linear steering feel and action stability are realized.

19,052 Yen

Moonface - Tension Rod Pro

The Moonface tension rod pro features the strongest performance that draws out a mechanical grip to the utmost.

34,928 Yen

Nagisa Auto - Adjustable Front Lower Arms - Mit

The Nagisa Auto adjustable front lower arms have been designed for enabling suspension tuning to eliminate bump steer for lowered vehicles.

136,931 Yen

Nagisa Auto - Front Pillowball Tension Rods - N

The Nagisa Auto front tension rods replace the standard items, offering increased strength and a wide range of adjustability using the turn buckle.

101,062 Yen

Nagisa Auto - Front Pillowball Upper Arms - Nis

The Nagisa Auto front pillowball upper arms enable adjustment using the turn buckle and feature spherical pillowball joints for increased strength.

74,980 Yen

Nagisa Auto - Pillowball Front Upper Arms - Ni

The Nagisa Auto pillowball front upper arms enable negative camber adjustment and offer increased durability and strength in high stress conditions.

73,899 Yen

Nagisa Auto - Pillowball Front Upper Arms - Ni

The Nagisa Auto front upper arms for the Nissan skyline enable adjustment from 0-10mm and feature increased strength and attractive chrome plating.

80,420 Yen

Nagisa Auto - Pillowball Front Upper Arms - Ni

The Nagisa Auto front upper arms feature pillow ball joints and adjustment up to +10mm at either end for fine tuning suspension performance.

73,899 Yen

Nagisa Auto - Pillowball Rear Lower Arm - Niss

The Nagisa Auto pillowball rear lower arms have been specially developed for the GTR, enabling camber adjustment for improved cornering.

80,420 Yen

Nagisa Auto - Pillowball Rear Lower Arm - Nissa

The Nagisa Auto pillowball rear lower arms provide pillowballs at both ends for increased directness and handling feel.

80,420 Yen

Nagisa Auto - Pillowball Tension Rod - Nissan

The Nagisa Auto pillowball tension rods offer increased steering response and durability, reducing twisting flex and enabling adjustment.

21,252 Yen

Nagisa Auto - Pillowball Tension Rod - Toyota

The pillow ball Front Tension rod eliminates the movement of the standard bushes during heavy acceleration and deceleration.

46,725 Yen

Nagisa Auto - Pillowball Tie Rod End - Nissan

The Nagisa Auto pillowball tie rod ends enable the fine tuning of suspension geometry to the drivers preference.

33,810 Yen

Nagisa Auto - Rear Pillowball Lower Arms - Mits

The Nagisa Auto rear pillowball lower arms offer increased adjustability and improved suspension durability for improved handling and performance.

73,899 Yen

Nagisa Auto - Rear Pillowball Lower Arms - Niss

The Nagisa Auto rear pillowball lower arms offer +/-15mm adjustment and turnbuckle mechanism, combined with increased strength and durability.

42,378 Yen

Nagisa Auto - Rear Pillowball Traction Rods - N

The Nagisa Auto rear pillowball traction rods offer increased strength and 15mm adjustment possibility, enabling fine tuning for the vehicle.

42,378 Yen

Nagisa Auto - Rear Toe Adjustment Rod - Mitsubi

The Nagisa Auto adjustment rod enables rear toe adjustment with high quality pillow ball mounts for the ultimate in quality.

64,113 Yen

Nagisa Auto - Super Tie Rod End - Nissan

The Nagisa Auto Super Tie Rod end enables the correct of front suspension geoemtry for lowered vehicles, combined with increased durablit,

33,810 Yen

Nismo - Suspension Rear upper Link

Nismo suspension rear upper link for improved suspension and performance handling.

14,690 Yen

R's Racing Service - Reinforced Lower Arm

The R's Racing Reinforced front lower arms increase strength over the standard lower arms, ensuring proper suspension performance and handling.

40,386 Yen

Racing Gear - Pillow Ball Tension Rod

The Racing Gear Pillow Ball tension rod enables adjustment of up to 15mm with improved rigidity and more accurate driver steering feel.

21,168 Yen

RS-R - Lateral Rod

The RS*R Lateral Rod replaces the standard rod with a high strength adjustable lateral rod that can be fine tuned in accordance to your vehicle.

13,514 Yen

Silk Road - Rear Camber Arm

The Silk Road rear camber arms enable rear camber adjustment, especially for lowered vehicles.

from 29,569 Yen

Silk Road - Rear Upper Link

The Silk Road Rear Upper Links improve rear traction with pillow ball upper mounts.

23,101 Yen

Spoon - Lower Arm Bar

The Spoon lower arm bar further improves chassis rigidity by linking the suspension from underneath.

12,151 Yen

STI - Lateral Link Set

The STI lateral link set improves suspension accuracy and stability.

from 32,918 Yen

STI - Lower Arm Bar

The Ralliart Lower Arm bar has been designed to improve chassis rigidity in the front end, improving steering response, chassis rigidity.

19,751 Yen

STI - Suspension Link Set

The STI suspension link set improves suspension accuracy and stability.

47,183 Yen

Technica Sports - Adjustable Rear Toe Arm

The Technica Sports rear toe arms replace the standard toe arms and enable adjustment, fine tuning the suspension performance and handling.

from 18,596 Yen

Technica Sports - Adjustable Rear Upper Arms

The Technica Sport rear upper arms enable adjustment for camber, providing enhance corner turn in and suspension performance.

from 18,596 Yen

Technica Sports - Front Negative A-Arm

The Technica Sports Front Negative A-Arms enable front camber adjustment for enhanced cornering performance.

from 53,372 Yen

TEIN - Pillowball Tension Rod

The Tein castor adjustable pillowball tension rod is manufactured at the highest of quality and enables quicker steering response and reduces roll.

from 29,447 Yen

TEIN - Strengthened Tie Rods

The Tein strengthened Tie Rod end has been designed for combined use with the Tein Tie Rod to provide improved durability compared to standard.

from 9,011 Yen

Handling Roll Center Adjusters

HKS Kansai - Roll Center Adjuster + Tie Rod End

The HKS Kansai Roll Center adjuster and long tie rod ends combine to enable the adjustment of the roll center and suspension angle.

from 27,536 Yen

J's Racing - Roll Center Adjuster

The J's Racing roll center adjustment kit enables the vehicle to be lowered without detriment to the suspension system.

from 21,169 Yen

Moonface - Front Rollcenter Adapter Pro

The Moonface front rollcenter adapter Pro provides Linear cornering performance and amazing traction performance created by ideal rollcenter

24,344 Yen

Moonface - Front Rollcenter Adapter Type2

The Moonface front rollcenter Type 2 adapter provides Linear cornering performance and amazing traction performance created by ideal rollcenter

10,055 Yen

Moonface - Front Rollcenter Adjuster

The Moonface front rollcenter adjuster provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

from 27,240 Yen

Moonface - Front Rollcenter Adjuster Pro

The Moonface front rollcenter adjuster pro provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

33,869 Yen

Moonface - Front Rollcenter Adjuster Pro Racing

The Moonface Front Rollcenter Adjuster Pro Racing provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

37,044 Yen

Moonface - Rear Rollcenter Adapter

The Moonface rear rollcenter adapter provides Linear cornering performance and amazing traction performance created by ideal rollcenter

10,055 Yen

Moonface - Rear Rollcenter Adjuster

The Moonface rear rollcenter adjuster provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

29,636 Yen

Moonface - Rear Rollcenter Adjuster Pro

The Moonface rear rollcenter adjuster pro provides Linear cornering performance and amazing traction performance created by ideal rollcenter.

33,869 Yen

Moonface - Rear Rollcenter Adjuster Pro Racing

The Moonface rear rollcenter adjuster pro racing provides linear cornering performance and amazing traction performance created by ideal rollcenter.

37,044 Yen

Nagisa Auto - Roll Center Adjuster - Nissan GTR

When lowering your vehicle, this can create excessive negative camber and lower the vehicles roll center, actually increasing the amount of body roll.

52,164 Yen

R's Racing Service - Front Lower Arm Roll

The R's Racing Service front lower arms ensures proper suspension geometry after lowering the vehicle, ensuring improved cornering speed.

32,745 Yen

Sun Line Racing - Roll Centre Adjuster

The Sun Line Roll Center Adjust enables adjustment of the knuckle ball joint, lowering the roll center, especially important when lowering vehicles.

from 25,167 Yen

Handling Springs
APEXi - N1 Spring II Evolution

Apexi specifically designed to customize the handling characteristics
7,248 Yen

BattleZ - RAV4 Springs

BattleZ springs for the RAV4 are a light weight and durable conversion made of superior materials.

from 47,880 Yen

Espelir - Active Super Low Down Springs

Espelir Super low down springs lower the vehicle from 30 to 70mm while also increasing spring rate by 20 to 30% and keeping a comfortable ride.

from 15,016 Yen

Espelir - GT Active Downsize Springs

Espelir GT Active downsize springs enables a higher spring rate compared to Super Down springs, with 30% higher stroke volume.

from 17,474 Yen

Moonface - Active Coil and Traction Coil

Moonface Active Coils feature the strongest performance that enhances mechanical grip to the utmost. Linear cornering performance and beautiful form.

from 6,351 Yen

Prova - Short Springs

The Prova Short Springs provide lower ride height whilst retaining ride comfort and sports driving performance.

44,453 Yen

RS-R - Ti 2000 Performance Springs

RS-R down springs provide a 30 to 50% increase in spring rate and a lower more aggressive stance.

from 25,960 Yen

Spoon - Progressive Springs

The Spoon progressive springs are a high performance spring replacement for the standard springs for a large range of vehicles.

28,351 Yen

STI - Coil Springs

The STI Coil Springs lower the centre of gravity for improved roll stiffness, whilst also lowering the vehicle and improving maneuverability.

9,876 Yen

Suzuki Sport - Low Down Spring Set

The Suzuki Sport lowering springs lower the vehicle by 20mm whilst providing increased spring rates by 20% compared to standard.

from 26,680 Yen

Tanabe - DF210 - Springs

The Tanabe DF210 springs are super low down springs designed for dress-up street specifications.

21,252 Yen

Tanabe - GF210 - Springs

The Tanabe GF210 springs have been designed for improved cornering efficiency combined with low down appearance and ride comfort.

24,748 Yen

Tanabe - NF210 - Springs

The Tanabe NF210 normal feeling springs are designed to provide a lower ride height whilst maintaining the standard suspension performance.

from 21,252 Yen

TEIN - H-Tech Springs

The Tein High Tech springs offer superior ride comfort and have been designed for the optimum spring rate setting for each vehicle.

from 20,328 Yen

TEIN - S-Tech Springs

TEIN S-Tech springs are lowered but still provide sports handling.

from 13,398 Yen

TEIN - Straight Type Springs

The Tein straight type springs enable the selection of the diameter, spring rate and free length.
11,660 Yen

TEIN - Taper Type Springs

The Tein Taper Type Springs are available in a range of sizes and are suited to situations where the upper mounts cannot be replaced.

14,335 Yen

TRD - Lowering Springs

TRD lowering springs featured an increased spring rate and lower the vehicle for improved handling performance.

from 7,720 Yen

TRD - Racing Springs

TRD Racing Springs have been designed specifically for competition use and are available in a large range of sizes.

13,848 Yen

HANDLING STABILIZERS

C-One - Sports Stabilizer Bar

The C-One sports stabilizer bars improve handling of high performance Toyota models.

from 21,483 Yen

Cusco - Sway Bars

Cusco sway bars replace standard swaybars offering increased stiffness for reduced body roll whilst cornering.

from 15,177 Yen

Cusco - Sway Bars - Adjustable Brackets

The Cusco Sway Bar adjustable brackets for the Mitsubishi Evo provide easy adjustment of sway bar strength to quickly adjust to the conditions.

4,049 Yen

HKS Kansai - Stabilizer Set

The HKS Kansai stabilizer set provides improved stiffness, reducing body roll without compromising ride comfort.

61,000 Yen

Mugen - Rear Stabilizer Set

Rear Stabilizer Set

24,545 Yen

Mugen - Stabilizer

Stabilizer

from 23,563 Yen

Nismo - Stabiliser

The Nismo front and rear stabilisers, or sway bars, improve the chassis rigidity and reduces body roll when cornering for improved handling performance

In Stock and ready to ship!

from 57,779 Yen

RE Amemiya - Stabilizer Set

The RE Amemiya stabilizer set connects the left and right side of the suspension for reduced body roll and improved handling characteristics.

55,344 Yen

Tanabe - Sustec Stabilizer

The Tanabe Sustec Stabilizer enables faster flatter cornering without the need to increase spring rates or sacrifice ride comfort.

from 21,977 Yen

TRD - Stabilizer Set

The TRD stabilizer set dramatically reduces body roll without reducing ride comfort for street driven vehicles.

In Stock and ready to ship!

from 14,868 Yen

**Handling Strut Braces
ARC - Titan Tower Bar**

The ARC titanium tower bar improves body rigidity and stability for increased cornering performance with minimal weight gain.

from 36,776 Yen

AutoExe - Strut Tower Bar

The AutoExe Strut Tower Bar offers increased chassis rigidity, designed for the strongest and most secure mounting points.

from 24,480 Yen

AutoExe - Tower Brace Set

The AutoExe Tower Brace Set sets the standard in rigidity, including triangular designed high strength front and rear strut braces.

from 52,700 Yen

Border Racing - Tower Bar

The Border Racing Tower Brace has been unique designed for strength and provides an attractive highly rigid appearance.

46,085 Yen

C-One - Sports Tower Bar - Type R

The C-One Sports Tower Bar Type-R offers improved suspension and handling performance, combined with high quality construction.

from 17,000 Yen

C-One - Tower Bar

The C-One Tower bar improves chassis rigidity by connecting the top of the struts bracing them during cornering which in turn vastly improves handling

from 15,008 Yen

Carbing - Tower Bar

The Carbing tower bar improves chassis rigidity which in turn improve cornering stability and performance during high performance driving.

from 3,450 Yen

Colt Speed - Tower Bar

The Colt Speed Tower Bar features trademark white finish with high quality construction and improved handling characteristics.

25,169 Yen

Cusco - Strut Brace - Type 40

Type 40

The Cusco Type 40 strut brace features a 40mm diameter high tension aluminum bar finished in beautiful titanium steel colour.

15,177 Yen

Cusco - Strut Brace - Type ALC OS

The Cusco Type ALC OS strut brace is a rigid lightweight aluminium strut brace covered with carbon fibre.

from 15,177 Yen

Cusco - Strut Brace - Type ALC40

The Cusco Type ALC40 strut brace is super strong and rigid using 38mm lightweight aluminium covered with 2mm of carbon fibre.

In Stock and ready to ship!

19,404 Yen

Cusco - Strut Brace - Type AS

Cusco Type AS strut braces are made out of lightweight aluminium with a round section substantially improve handling.

from 10,118 Yen

Cusco - Strut Brace - Type CB

The Cusco Type CB strut brace is constructed of 40mm carbon fibre for the highest strength and rigidity available.

from 18,550 Yen

Cusco - Strut Brace - Type OS

Cusco Type OS strut braces are made out of lightweight aluminium substantially improve handling.

In Stock and ready to ship!

from 10,118 Yen

Cusco - Strut Brace - Type ST

Type ST

The Cusco Type ST strut brace features high quality solid steel construction with turn buckle and finished in Cusco blue.

10,118 Yen

Cusco - Strut Brace - Type Ti

The Cusco Type Ti strut brace is manufactured out of titanium for the ultimate in strength while still being light weight.

from 33,726 Yen

Garage HRS - Titanium Tower Bar

The Garage HRS Titanium Tower Bar is manufactured from the highest quality titanium and with a 3 point design offers the highest levels of rigidity.

83,450 Yen

HKS Kansai - Tower Bar - Nissan Skyline - GTR

HKS Kansai Tower Bar for the Nissan Skyline
from 19,113 Yen

HKS Kansai - Tower Bar - Daihatsu Copen

HKS Kansai Tower Bar for the Daihatsu Copen.
19,113 Yen

HKS Kansai - Tower Bar - Mazda Roadster

HKS Kansai Tower Bar for the Mazda Roadster MX5
2 in Stock and ready to ship!
26,000 Yen

HKS Kansai - Tower Bar - Mitsubishi EVO

HKS Kansai Tower Bar for the Mitsubishi EVO
from 19,113 Yen

HKS Kansai - Tower Bar - Nissan Skyline

HKS Kansai Tower, Bar for the Nissan Skyline
19,113 Yen

HKS Kansai - Tower Bar - Subaru Imprezza

HKS Kansai Tower Bar for the Subaru Imprezza
20,079 Yen

HKS Kansai - Tower Bar - Subaru Legacy

HKS Kansai Tower Bar for the Subaru Legacy
19,113 Yen

HKS Kansai - Tower Bar - Suzuki Swift

The HKS Kansai chassis rigidity parts improve overall suspension characteristics creating a flatter and more predictable vehicle.

from 16,215 Yen

HKS Kansai - Tower Bar - Toyota Altezza

HKS Kansai Tower, Bar for the Toyota Altezza

19,113 Yen

J Speed - Strut Brace

The J Speed strut braces have been designed to increase chassis rigidity, offering improved handling.

27,169 Yen

J's Racing - Front Strut Bar

The J's Racing Front Strut Bar has been designed to improve chassis stiffness for improved handling feel and performance.

from 21,169 Yen

J's Racing - Rear Strut Bar

The J's racing rear strut bar increases rigidity between the rear strut towers for improved cornering and overall handling performance.

from 15,180 Yen

J's Racing - Tower Bar + Engine Torque Dam

The J's Racing Tower Bar and Engine Torque Damper provides the benefits of sharper turn in and handling response.

40,925 Yen

Knight Sports - Tower Plate, Honeycomb & Ca

Manufactured from honeycombed carbon fiber the Knight Sports Tower Plate has been designed to dramatically increase chassis rigidity.

from 101,871 Yen

M and M Honda - Tower Bar

The M and M Honda tower bar increases body chassis rigidity for improved direct handling and cornering performance.

17,244 Yen

Mugen - High Performance Tower Bar - Front

The Mugen high performance front tower bar is available for a number of vehicles including the Civic and Integra.

27,830 Yen

Mugen - High Performance Tower Bar - Honda Acco

The Honda Accord Mugen tower bar improves suspension and chassis rigidity for improved handling and performance.

38,100 Yen

Mugen - High Performance Tower Bar - Honda Inte

The Honda Integra Type R DC5 Mugen tower bar improves suspension and chassis rigidity for improved handling and performance.

from 24,691 Yen

Mugen - High Performance Tower Bar - Rear

The Mugen high performance rear tower bar is available for a number of vehicles including the Civic and Integra.

24,691 Yen

Mugen - Strut Performance Rod

Strut Performance Rod

from 3,456 Yen

Nismo - Strut Tower Bar

The Nismo strut tower bar are made of light weight alloy to provide additional chassis rigidity for high performance driving.

from 27,368 Yen

Ralliart - Sports Strut Tower Bar

The Ralliart Sports Strut Tower Bar improves on the standard tower bar, offering 3 point mounting and weight reduced to 1.2kg

25,841 Yen

RE Amemiya - Tower Bar

The RE Amemiya tower bars are manufactured using the latest high quality techniques offering significantly increased chassis rigidity.

from 20,894 Yen

Spoon - Tower Bar

The Spoon tower bars are developed specifically for Honda vehicles, specially made for improving handling of high performance Honda vehicles.

from 12,340 Yen

STI - Flexible Tower Bar

Connects the suspension towers to provide improved chassis rigidity and performance. The flexible tower bar incorporates a link ball in the center.

32,918 Yen

STI - Tower Bar

The STI tower bar connects the two suspension towers for improved chassis rigidity enabling improved suspension performance and vehicle handling.

24,140 Yen

Tanabe - Sustec Strut Tower Bar

The Tanabe sustec strut tower bar links the suspension towers at the top to prevent flex during high speed and tight cornering.

from 11,290 Yen

TEIN - Performance Bar

The Tein performance bar (also known as strut brace or tower bar), offers high quality with rigid aluminium shafts and trademark Tein green mounts.

from 11,805 Yen

Top Fuel - Strut Tower Bar

The Top Fuel Strut Tower Bars manufactured in high quality dry carbon provide additional chassis rigidity without sacrificing weight.

from 23,347 Yen

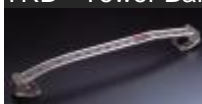

Top Secret - Super Tower Bar Pro

The Top Secret super tower bar offers increased rigidity with one of the most solid tower bar designs available.

25,872 Yen

TRD - Tower Bar

The TRD Tower Bar reduces torsion forces on the chassis and improves steering response.

from 14,868 Yen

Trust - Greddy - Strut Tower bar

The Trust Grex strut tower brace improves chassis rigidity and reduce body flex for high performance handling.

from 10,042 Yen

Handling Suspension Kits APEXi - N1 Evolution Damper kit

Suspension is one of the most evolving lineups with Apexi
from 191,394 Yen

APEXi - S1 Damper

APEXi proudly introduces the S1 Damper line,
from 135,056 Yen

BattleZ - RAV4 Dampers

The BattleZ RAV4 dampers provide excellent drivability with improved ride comfort.
100,540 Yen

Buddy Club - Junior Spec Sports damper

Buddy Club junior spec sports damper are designed for high performance street use.
122,707 Yen

Buddy Club - Racing Spec Damper

The Buddy Club Racing Spec Damper is a complete all-round suspension package for street and track vehicles.

from 110,000 Yen

Buddy Club - Sedan Spec Damper

The Buddy Club sedan spec damper is designed to offer improved handling without sacrificing ride comfort for the best of both worlds.

127,743 Yen

Cusco - Compact S

The Cusco Compact S has been developed for small compact vehicles, with a specially designed shock absorber and light weight construction.

from 99,492 Yen

Cusco - Compact Zero-1

The Cusco Compact Zero-1 has been developed for small compact vehicles requiring a strong, high performance, adjustable shock absorber.

from 111,296 Yen

Cusco - Zero 1 Suspension

Cusco Zero 1 suspension is full adjustable for improved handling, ride comfort and ride height.

from 109,956 Yen

Cusco - Zero 2 Suspension

Cusco Zero 2 suspension adds 5 level of dampening to the Zero 1 suspension kit and includes pillow upper mounts for vastly improved handling.

from 135,828 Yen

Cusco - Zero 2E Suspension

The Cusco Zero 2E suspension system enables electronic control of shock adjustment in addition to all of the features of the Zero 2.

from 134,904 Yen

Cusco - Zero 2R Suspension

The Cusco Zero 2R suspension offers an inverted adjustable shock absorber providing excellent driving performance and comfort.

from 189,710 Yen

DG-5 - Suspension Kit

The DG-5 suspension kit was designed and tested by the Drift King Tsuchiya himself in collaboration with Swing Springs for drift and high level racing

from 267,775 Yen

HKS - Hipermex - C-Compact

The Hipermex Comfort Compact is stylish and perfect for a compact car, designed to give all round comfort for the driver and passengers

136,868 Yen

HKS - Hipermex - C-Wagon

The HKS Hipermex C-Wagon suspension is the entry level wagon suspension from HKS enabling height adjustment and improved handling.

136,752 Yen

HKS - Hipermex - C-Wagon - Plus

The HKS Hipermex C-Wagon plus offers improved single tube damping control with 30 step adjustment for fine tuning.

155,232 Yen

HKS - Hipermex - III

The HKS Hipermex III is the latest model for the enthusiastic street driver demanding improved handling for high performance vehicles.

from 162,855 Yen

HKS - Hipermex - III Sport

The HKS Hipermex III Sport extends on the Hipermex III with more extreme spring rates for even greater handling at the expense of ride comfort.

from 171,518 Yen

HKS - Hipermex - LS+

HKS Hipermex LS+ Luxury-Sport suspension system

from 128,206 Yen

HKS - Hipermex - S Style

The HKS Hipermex S Style suspension kits are designed for the owner that aims for the ultimate lowered vehicle.

from 164,472 Yen

HKS - Hipermex - S-Compact

The HKS Hipermex S-Compact suspension kit has been designed for improved handling, low down style and street comfort for compact vehicles.

154,193 Yen

HKS - New Hipermex - III

Improved handling for high performance vehicles.

Special 130,000 Yen

J's Racing - SPL Crux Coilover Suspension

The J's Racing SPL Crux Coilover Suspension kit has been jointly developed with racing manufacturer CRUX Engineering to ensure the highest level of ci

from 373,969 Yen

KYB - Lower Sports

The KYB Lower Sports suspension kits have been designed to provide a lower ride height with high levels of ride comfort for a range of vehicles.

from 23,101 Yen

KYB - New SR Special

The KYB New SR Special shock absorber has been designed to provide improved handling whilst not compromising ride quality.

from 9,350 Yen

KYB - Super Special For Street

KYB super special shock absorbers and struts for street user

from 13,195 Yen

M and M Honda - Ohlins Special Type 3

The Ohlins Special Model Type 3 coilovers combine the world famous Swedish Ohlins shock absorbers with the setup skills of M and M Honda.

192,959 Yen

Moonface - New Spec Damper D-style

The new Spec Damper D-Style is designed to deliver strongest performance that draws out a mechanical grip to the utmost.

146,060 Yen

Moonface - New Spec Damper G-style

The Moonface New Spec Damper G-Style is designed to deliver the strongest performance that draws out a mechanical grip to the utmost.

146,060 Yen

Mugen - 5 Way Adjustable Suspension Kit

The Mugen 5-Way Adjustable Suspension Kit offers improved stability and handling without sacrificing ride comfort.

145,299 Yen

Mugen - Sports Suspension

The Mugen sports suspension kit improves cornering and vehicle stability during aggressive driving.

from 100,165 Yen

Mugen - Sports Suspension - Accord

The Mugen Sport Suspension provides high-speed stability and improved cornering balance whilst not sacrificing ride comfort.

from 92,816 Yen

Nismo - S Tune - Suspension Kit

Nismo high performance S-Tune suspension kit enables great performance whilst being comfortable on the street.

from 96,648 Yen

Ohlins - DFV Suspension

The Ohlins DFV suspension system is the latest design from Ohlins which incorporates a PCV valve on the compression and extension sides of the shock

from 171,948 Yen

Ohlins - Flag-I - Subaru Impreza

The Ohlins Flag-I suspension is a high specification suspension system for high level street or circuit use.

from 413,448 Yen

Ohlins - Flag-L - Lancer Evo

The Ohlins Flag-L suspension kit has been designed especially for the Mitsubishi Evo for the highest quality suspension in high grip environments.

from 365,148 Yen

Ohlins - Suspension Kit

The Ohlins suspension kits offer some of the highest quality suspension for street and circuit use available.

from 195,132 Yen

R's Racing Service - High Performance Damp

The R's Racing high performance damper kit features height adjustment, damper adjustment, increased spring rates and camber adjustable bolts.

174,636 Yen

R's Racing Service - Ohlins DFV Original H

The R's Racing Ohlins DFV Original Height Adjustment Kit offers the high performance Ohlins suspension with tuned spring rates and height adjustment.

272,870 Yen

Ralliart - Bilstein Sports Suspension Kit

The Ralliart Sports suspension kit has been especially developed by Bilstein to offer improved handling, feedback and cornering.

385,797 Yen

Silk Road - Section - Spec RM/A8

The Silk Road RM/A8 spec suspension is high quality with 8-way adjustment and advanced monotube design.

from 136,752 Yen

Spoon - Damper Kit - Fix Type

The Spoon fixed type suspension is designed for improved handling and sports driving but without the complication of damper and height adjustment.

from 66,538 Yen

STI - Strut & Coil Springs

STI have designed specifically for the Subaru Forrester strut and coil springs.

36,210 Yen

Suzuki Sport - Circuit Stroke Height Adjustable

The Suzuki Sport circuit high adjustable suspension kit has been developed for tarmac circuit racing and as used in JWRC tarmac competition.

138,253 Yen

Suzuki Sport - Sport Comfort Height Adjustable

The Suzuki Spot Sports comfort hight adjustable suspension set provides road hugging performance with height adjustment.

from 114,471 Yen

Suzuki Sport - Street Comfort Suspension Set

The Suzuki Spot Sports comfort suspension set for the Suzuki Swift provides road hugging performance without sacrificing ride comfort.

90,563 Yen

Tanabe - Sustec Pro FIVE Suspension

Sustec Pro FIVE is an all new adjustable coilover suspension

111,650 Yen

TEIN - Basic Compact

The Tein Basic Compact suspension kit offers a low price, height adjustable, sports orientated suspension kit designed for the street.

from 86,856 Yen

TEIN - Basic Flex Wagon

The Tein Basic Flex wagon has been designed for lowered ride height and improved handling for wagons and minivans.

from 91,061 Yen

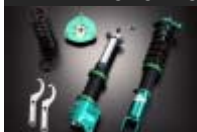

TEIN - Basic Wagon

The Tein Basic Wagon suspension kits are an entry level suspension upgrade which includes height adjustability and improved ride handling.

from 70,686 Yen

TEIN - Mono Flex

Tein introduced their new Mono Flex coilover system for use on street and track with a mono-tube shell case.

from 129,003 Yen

TEIN - Super Compact

The Tein Super Compact suspension has been designed to improve the handling of the small compact and Kei car and also provide that lowered look.

from 112,266 Yen

TEIN - Super Drift

The Tein Super Drift was designed exclusively for drifting, developed for serious drift drivers emphasising on high speed vehicle control.

from 140,327 Yen

TEIN - Super Flex Wagon

The Tein Super Flex Wagon have been designed for wagons and minivans and offer full height adjustability and damper adjustment.

from 120,461 Yen

TEIN - Super Street

Tein Super Street Coilover suspension upgrade for high performance street driving.

from 87,318 Yen

TEIN - Super Wagon

The Tein Super Wagon suspension kits have been developed for owners that desire improved handling and adjustability together with a lowered stance.

from 96,437 Yen

TEIN - Type Flex

TEIN Type FLEX damper kit was designed to provide driving comfort and sports

from 122,258 Yen

TEIN - Type N1 Damper

Tein Type N1 dampers are designed exclusively for racing use made in light weight aluminium with a mono-tube shell case.

from 29,568 Yen

TOMS - ADVOC Suspension

Toms ADVOC suspension is constructed using a steel shell case, single tube and twin piston rubber chamber for high performance handling.

205,400 Yen

TRD - Circuit Suspension

TRD circuit suspension has been designed for the ultimate in race suspension for your Toyota vehicle.

from 218,987 Yen

TRD - Racing Suspension

TRD Racing suspension has been designed for competition use only and offers a range of options not available in the street suspension components.

from 29,736 Yen

TRD - Shock Absorbers

TRD shock absorbers improve vehicle control by increasing rigidity required for high performance cornering.

from 9,400 Yen

TRD - Sportivo Suspension

The TRD Sportivo suspension parts have been designed to improve comfort, high speed stability and suspension performance, whilst also lowering.

from 35,112 Yen

Trust - Greddy - BL Comfort - Down Spring

The Greddy BL Comfort Down Springs have been designed to enable lowering of the vehicle without sacrificing driving comfort or suspension performance.

from 18,480 Yen

Trust - Greddy - Performance Damper - Type R

The Greddy Type-R performance damper coilover suspension system has been designed from racing experience to provide the highest level of control.

from 166,320 Yen

Trust - Greddy - Performance Damper - Type S

The Greddy Type S performance damper is an advanced monotube designed replacement for the standard components.

from 142,296 Yen

URAS - Super Spec Suspension Kit

The URAS super spec suspension kit enables you to run the setup as featured by world famous URAS R34 drift car featuring 30 step damper adjustment.

from 302,649 Yen

Zero Sports - Coil Over Kit - Winning S

The Zero Sports Winning S coil over kit has been designed for a combination of performance and comfort.

167,228 Yen

Handling Upper Mounts

C-One - Pillow Ball Upper Mount Set

The C-One pillow ball upper mount set replaces the standard rubber upper mounts with high quality pillow ball upper mounts for improved handling.

29,498 Yen

Cusco - Pillow Ball Upper Mounts

The Cusco pillow ball upper mounts enable improved steering performance, stability and braking with some models featuring camber adjustment.

from 18,549 Yen

HKS - 2 Way Pillow Ball Upper Mount

The HKS 2 way pillow ball upper mounts enable adjustment of caster as well as camber for fine tuning the suspension alignment for performance vehicles

44,352 Yen

TEIN - Pillow Ball Upper Mount

The Tein Pillow Ball upper mounts are manufactured in accordance to the standard vehicle upper mounts.

In Stock and ready to ship!

from 18,359 Yen

Try Force - Adjustable Pillow Upper Mounts

The Try Force Adjustable pillow upper mounts enable easy camber adjustment of up to 3 degrees on the Suzuki Swift.

32,084 Yen

Other Intake
Blitz - Induction Cover

The Blitz induction cover has been designed to increase engine air intake by retaining the standard bottom half of the airbox.

11,664 Yen

Blitz - Intake Pipe Kit

The Blitz Intake Pipe Kit replaces the standard rubber hoses with high quality buffed aluminium hoses for improved intake performance and durability.

49,025 Yen

Blitz - Suction Kit

The Blitz Suction Kit replaces the standard intake pipe with a high quality buffed aluminum item for improved intake performance.

22,822 Yen

Blitz - SUS Power - Air Cleaner - Accessories

The Blitz SUS Power accessories enable the intake kit to be adapted to a universal application, as well provide replacement filter, etc.

from 1,882 Yen

M and M Honda - Intake Gasket

The M and M Honda intake gasket features heatproof resin to prevent heat transfer between the engine and the intake manifold.

10,562 Yen

Mugen - Air Filter

The Mugen air filter features improved air flow and up to 12% less air resistance for improved engine response and overall performance.

from 3,946 Yen

Intake Air Flow Meters
Nismo - Air Flow Meter

The Nismo Air Flow Meter (AFM) enables high air flow of up to 750HP when used in twin.

Special 33,472 Yen

Tomei - Air Flow Meter - Adapter

The Tomei Air Flow Meter (AFM) enables greater measurement of air flow into a high performance engines.

2,848 Yen

Tomei - Air Flow Meter - Z32

The Tomei Z32 Air Flow Meter (AFM) enables high air flow of up to 500hp.

2 in Stock and ready to ship!

37,013 Yen

Intake Ducting
5zigen - Cold Air Intake

The 5zigen cold air intake ensures cold air is taken from the front of the vehicle, away from the engine, and pushed into the engine.

32,718 Yen

Billion - Super Racing - Air Funnel

The Billion super racing air funnel is to be used with the air duct piping to deliver fresh airflow to the engine bay or brake rotors.

from 3,200 Yen

East Bear - Front Grille

The East Bear front grille replaces the standard grille with a mesh grille offering improved air flow and appearance.

from 26,312 Yen

Fujita Engineering - AFFLUX Aero Intake

The Fujita Engineering Aero Intake replaces the standard head light cover with a vented cover, offering greater air flow for increased performance

14,226 Yen

J's Racing - Air Duct

The J's Racing air intake features high quality carbon construction combined with improved intake efficiency.

23,285 Yen

J's Racing - Air Intake

The J's Racing air intake increases the cold air intake to the engine which promotes more efficiency operation and increased performance.

from 11,525 Yen

Mines - Air Scoop

The Mines Air Scoop and Air Scoop Type II are manufactured of the highest quality carbon fibre and FRP, to provide enhanced looks and performance

from 35,484 Yen

Mines - Carbon Air Intake

The Mines carbon air intake replace the standard resin based intake with high quality carbon fibre.

74,844 Yen

Monster - Intake Duct

The Monster carbon fibre intake duct decorates the engine bay and improves air intake performance for higher engine power.

from 36,498 Yen

Mugen - Radiator Duct

The Mugen radiator duct acts as an air guide baffle plate to improve air flow through the radiator.

31,936 Yen

Nismo - Air Cleaner Duct

The Nismo R-Tune air cleaner duct reduces compressor intake pressure by 30 percent at the moment of boost pressure, also decreases air-path pressure.

30,683 Yen

Prova - Carbon Intake Duct

The Prova carbon intake duct replaces the original intake duct for improved air flow with less resistance.

42,231 Yen

Silk Road - Section - Headlight Intake

The Silk Road - Section headlight intake enables fresh air to flow directly through part of the headlight into the path of the engine intake.

from 24,486 Yen

Spoon - Carbon Air Duct

The Spoon Carbon Air Duct dramatically improves air flow into the engine by sucking cold air away from the engine bay.

39,489 Yen

Spoon - Engine Fresh Air Duct

The Spoon Engine Fresh Air Duct was designed to provide fresh cold air into the engine for the maximum increase in engine response and performance.

39,489 Yen

Suzuki Sport - Carbon Intake Duct

The Suzuki Sport carbon intake helps to force intake into the engine to promote performance and response.

28,980 Yen

Suzuki Sport - Front Bumper Air Intake

The Suzuki Sport front bumper air intake enables cool air intake to assist in braking when used in combination with brake ducts and other cooling.

40,814 Yen

Suzuki Sport - Front Bumper Air Intake for Air

The Suzuki Sport front bumper air intake guides air into induction box for greater air intake.
from 8,085 Yen

Suzuki Sport - Rear Bumper Air Outlet

The Suzuki Sport rear bumper outlet matches the air intake to provide an enhance visual look of the Suzuki Swift.

40,814 Yen

Tomei - Headlamp Air Intake - Nissan Skyline R3

The Tomei R32 GTR headlamp air intake converts the headlamp to a high performance air intake for drag racing vehicles.

32,340 Yen

Tomei - Headlamp Air Intake - Nissan Skyline R3

The Tomei R34 headlamp air intake converts the headlamp to a high performance air intake for drag racing vehicles.

32,340 Yen

Trust - Greddy - Carbon Ram Air Duct

The Greddy Carbon Ram Air Duct dresses up the appearance of your engine bay and offers real ram air induction properties for improved performance.

from 41,580 Yen

Try Force - Carbon Intake

The Try Force carbon intake was designed specific for the new Suzuki Swift ZC31.
83,416 Yen

ZeLe Performance - Carbon Fiber NACA Bonnet Duc

The ZeLe Carbon Fiber NACA Bonnet Ducts are designed to directly replace the standard plastic NACA bonnet cooling ducts.
66,165 Yen

Zero Sports - Cool Action Hood Scoop Insert

The Zero Sports Cool Action insert for the bonnet scoop has been designed to ensure air flow over the entire intercooler - front to back.
24,344 Yen

Intake Induction Boxes
ARC - Super Induction Box

The ARC Super Induction box is the ultimate in air intake, greatly improving engine response at any RPM level.

from 30,308 Yen

ARC - Super Sports Cleaner

The new ARC super induction box utilizes an ARC pod style filter with enclosure to provide fresh cold air intake for maximum power increase.

from 35,574 Yen

AutoExe - Ram Air Intake System

The AutoExe Ram Air Intake System incorporates a carbon chamber with K&N air filter for improved intake performance.

from 49,300 Yen

AutoExe - Sports Induction Box

The AutoExe Sports Induction Box integrates with the standard intake system for easy fitment, but provides additional intake efficiency.

from 18,700 Yen

Carbing - Suction Kit + Airbox

The Carbing suction kit and airbox is a significant upgrade to the air intake system of the Lance Evolution

In Stock and ready to ship!

from 70,104 Yen

HKS Kansai - Carbon Fiber Air Box Kit

The HKS Kansai carbon fiber air box and air duct replaces the standard air box with a replacement carbon fiber air box for use with pod filters.

from 8,316 Yen

J's Racing - Racing Chamber Kit

The J's Racing chamber kit improves cold air intake for improve engine response and performance.

from 64,681 Yen

Monster - PFX Intake Kit

The Monster PFX Intake kit converts the standard intake into a high flow kit featuring the PFX intake filter.

from 83,270 Yen

Mugen - Intake - Honda Accord

The Mugen intake for the Honda Accord improves air flow and therefore performance using F1 style technology.

98,185 Yen

Mugen - Intake - Honda Accord Euro

The Mugen intake for the Honda Accord Euro improves air flow and therefore performance using F1 style technology.

101,729 Yen

Mugen - Intake - Honda Civic Type R

The Mugen intake for Honda Civic improves air flow and therefore performance using F1 style technology.

67,804 Yen

Mugen - Intake - Honda Integra and Civic

The Mugen intake for Honda Integra and Civic improves air flow and therefore performance using F1 style technology.

from 14,727 Yen

Mugen - Intake - Honda Integra DC2

The Mugen intake for Honda Integra improves air flow and therefore performance using F1 style technology.

67,804 Yen

Mugen - Intake - Honda NSX

The Mugen intake for Honda NSX improves air flow and therefore performance using F1 style technology.

193,867 Yen

Mugen - Intake - Honda S2000

The Mugen intake for Honda S2000 improves air flow and therefore performance using F1 style technology.

136,632 Yen

Suzuki Sport - Air Induction Box 2

The new Air Induction Box 2, enhances the original air induction box from Suzuki Sport, increasing the duct capacity and designed for greater flow.

54,338 Yen

Suzuki Sport - Radiator Induction Box

Suzuki Sport introduces the Carbon radiator Intake Box to suit the New Suzuki Swift Sports version.

45,759 Yen

Intake Panel Filters

APEXi - Power Intake - Panel Filter

Apexi Power Intake Panel filter is a high performance replacement for your genuine air filter for most Japanese vehicles

from 2,984 Yen

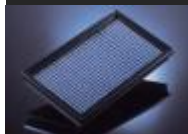

ARC - Replacement Filters

ARC replacement filters for the ARC super induction box are available should they be damaged.

from 8,500 Yen

Blitz - SUS Power - Air Filter LM

The Blitz SUS Power LM air filter is a replacement filter designed to reduce intake restriction while providing maximum filtration.

from 3,297 Yen

C-One - Sports Air Filter

The C-One sports air filter replaces the standard air filter and offers improved efficiency with reduced air resistance for improved performance.

from 9,695 Yen

HKS - BMW Inner Power Flow

HKS introduce its New line up Inner Power

27,027 Yen

HKS - Super Hybrid Filter

The HKS Super Hybrid filter provides improved filtering and increase air flow for high performance engines, without replacing the standard intake.

from 3,380 Yen

Mines - VX - Air Filter

The Mines VX Air Filter has been developed with the VX-ROM ECU to provide increased air flow, efficiency and power output.

from 14,885 Yen

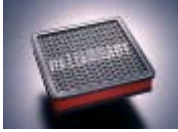

Nismo - S-Tune - Sports Air Filter

The Nismo Sports air filter offers improved air flow and reduced resistance whilst maintaining superior air filtration.

from 8,211 Yen

Ralliart - Sports Air Filter

The Ralliart sports air filter is a simple replacement for the standard filter, but offers improved durability and increased intake performance.

from 10,325 Yen

Suzuki Sport - Power Filter

Suzuki Sports Introduces the Power Filter, featuring reduced air resistance and improved air flow for increased power and response.

In Stock and ready to ship!

from 2,365 Yen

TM Square - Sport Intake Filter

The TM Square Sport Intake Filter is a standard replacement panel filter offering increased air intake performance for the Suzuki M16A.

7,162 Yen

TRD - Sports Air Filter

The TRD sports air filter was developed from race engine technology for improved engine response and filtration.

from 7,577 Yen

Trust - Greddy - Airinx GT

The Trust Airinx GT panel filter is an advanced genuine panel replacement for improved filtering and air flow performance.

2,426 Yen

Trust - Greddy - GRACER Airinx-II Flat Panel Fi

Trust Greddy dry panelair filters re made of a special double-ply element using 2 layers of urethane fom to increase filtration and maximise air flow.

3,623 Yen

Intake Piping
ARC - Super Intake Chamber

The ARC Intake chamber raises the torque at low and midrange RPM by utilising unused air kept in readiness.

from 24,832 Yen

ARC - Titan Intake Pipe

The ARC Titan Intake Pipe is the latest titanium manufactured piping to feature the unique titanium finish.

from 64,496 Yen

Carbing - Intake Piping Kit

The Carbing intake piping kit is a complete replacement piping kit for the Lance evolution.

from 71,185 Yen

Carbing - Suction Kit

The Carbing suction kit and airbox is a significant upgrade to the air intake system of the Lance Evolution.

In Stock and ready to ship!

from 53,682 Yen

Cusco - Turbo Suction Pipe

The Cusco turbo suction pipe improves airflow with a 80mm pipe to the turbo.

In Stock and ready to ship!

from 25,294 Yen

Garage Saurus - Suction & Piping Kit

The Garage Saurus Suction & Piping Kit has been designed for the Nissan R35 GTR to replace the standard intake piping with polished aluminum.

332,640 Yen

HKS - Air Flow Less Adapter

The HKS air flow less adapter can be used when the AFM has been removed to increase air flow into the engine.

from 11,088 Yen

HKS - Premium Suction

The HKS Premium suction kit replaces the rubber intake pipe that leads from the air intake into the turbine or engine with a metal pipe.

from 20,328 Yen

HKS - Racing Chamber Kit

The HKS racing chamber kit removes air resistance with smooth aluminium intake piping whilst also providing the high performance image.

66,528 Yen

HKS Kansai - Piping Series

The HKS Kansai piping series replaces the standard piping with high quality aluminum replacement parts for improved air flow.

from 30,464 Yen

Monster - Suction Pipe Kit

The Monster suction pipe kit improves engine bay appearance and turbo intake performance improving response and power.

from 26,444 Yen

Samco - Silicon Intake Hose

The Smaco silicon intake hoses are designed to replace the original equipment for race and fast road use.

33,810 Yen

Sequential - Intake Pipe

The Sequential Intake Pipe has been designed to provide superior intake durability and aggressive engine bay apperance.

from 19,602 Yen

Spoon - Direct Air Flow Pipe

The Spoon Direct Air Flow pipe replaces the standard air intake pipe with a high quality Carbon Fibre intake pipe for the customised engine bay look.

18,226 Yen

TRD - Inlet Duct

The TRD inlet duct is optimised for length and resistance and improves maximum power by up to 11kw.

35,112 Yen

Trust - Greddy - Aluminium Intake Pipe Set

Trust Greddy aluminium intake pipe set to increase air flow and dress up the engine bay.

from 9,673 Yen

Trust - Greddy - Aluminium Intake Piping Set

Trust Greddy offers replacement aluminium intake pipe set for use with the Trust intercooler kits.

from 7,351 Yen

Trust - Greddy - Compression Tube

The Greddy elbow leads to the FD and FC RX-7 throttlebody to improve airflow and performance.

from 7,923 Yen

Trust - Greddy - Suction Pipe

The Greddy Suction pipe provides a single turbo GTR conversion inlet pipe designed to retain the two standard AFM's.

from 14,969 Yen

Trust - Greddy - Suction Tank Piping Kit - JZA8

The Trust Greddy suction tank piping is manufactured of chrome aluminium for improved engine bay appearance.

14,553 Yen

Zero Sports - Air Intake Pipe

The Zero Sports air intake pipe is an aluminium replacement for the standard intake pipe.

from 10,585 Yen

Intake Pod Filters
APEXi - Power Intake

The Apexi dual funnel Power Intake evolved from the highly successful Super Intake

Special from 6,445 Yen

APEXi - Power Intake - GTR

Apexi Power Intake Kit provides high performance air intake for the mighty Nissan Skyline GTR

Special 20,767 Yen

APEXi - Power Intake - Replacement Filter

Apexi Dual Funnel Air replacement air cleaner provides high performance air intake for many Japanese vehicles

Special 5,000 Yen

APEXi - Power Intake Kit - Universal

The Apexi universal power intake kit is designed for universal installation on almost any vehicle, available in various sizes.

Special 7,877 Yen

APEXi - Super Suction Kit - D Jetro

Apexi Super Suction Kit for D-Jetro (AFM removed) tuned PowerFC vehicles

In Stock and ready to ship!

Special from 31,532 Yen

APEXi - Super Suction Kit - Standard AFM

The Apexi super suction kit reduces air resistance and improves air flow for high performance engines.

Special from 31,532 Yen

APEXi - Super Suction Kit - Z32 80mm AFM

The Apexi super suction kit for the Z32 80mm AFM reduces air resistance and improves air flow for high performance engines.

Special from 31,532 Yen

Blitz - Carbon Suction Kit

The Blitz Carbon Suction kit improves on the standard Blitz intake kits with a high quality carbon fibre cold air intake system.

from 65,447 Yen

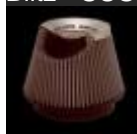

Blitz - Sonic Power Air Cleaner
